This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. EXECUTIVE ORDER 9740

AMENDMENT OF EXECUTIVE ORDER NO. 1888 OF FEBRUARY 2, 1914, AS AMENDED, RELATING TO CONDITIONS OF EMPLOYMENT IN THE SERVICE OF THE PANAMA CANAL AND THE PANAMA RAILROAD COMPANY ON THE ISTHMUS OF PANAMA

By virtue of the authority vested in me by section 81 of title 2 of the Canal Zone Code, as amended by section 3 of the act of July 9, 1937, 50 Stat. 487, it is hereby ordered as follows:

SEC. 1. Sections 20 to 42 of Executive Order No. 1888 of February 2, 1914, as amended, are amended to comprise sections 20 to 40, reading as follows:

"LEAVE OF ABSENCE GENERALLY

"20. *What employees entitled to leave privileges under sections 20 to 38.* All full-time employees, with the exception of alien employees who are paid in accordance with local native prevailing wage rates for the area including the Canal Zone and adjacent territory, shall be entitled to leave priveleges under sections 20 to 38 of this order: *Provided*, That this amendment shall not operate to deprive of leave privileges under sections 20 to 38 of this order any alien employee receiving comparable privileges on the date of this order, and that the right of any such employee to a continuation of privileges under sections 20 to 38 of this order shall be determined as though this amendment had not been prescribed.

"21. *Classes of leave.* Leave with pay shall be divided into two classes, namely, annual leave and travel leave, the former to serve both as vacation leave and sick leave.

"The provisions of sections 21 to 30 of this order, insofar as concerns their application to policemen and firemen, and to teachers, shall be subject to the special provisions contained in sections 37 and 38 of this order, respectively.

"22. *Accrual of leave.* An employee shall be entitled to 324 hours of annual leave each service year, which shall accrue and be credited in such manner as the Governor shall by regulations prescribe. An employee's service year shall begin on the date, or anniversary thereof, whereon his pay in the organization began or shall begin. Leave shall accrue to an employee while in a leave-with-pay status provided he returns to duty, but shall not accrue to an employee while on terminal leave whether by separation or termination.

"23. *Reduction of leave credits for absences in nonpay status.* For each aggregate period of 80 hours during which an employee is absent in a nonpay status, including suspensions, during his service year, his leave credits shall be reduced 13 hours. For the purposes of this section absences shall be regarded only if they occur during the hours prescribed as the basic workweek and during service months for which leave has been or is being credited to the employee.

"24. *Accumulation of leave.* Annual leave accruing to an employee during his service year and not taken by him before the beginning of his succeeding service year shall be accumulated for use in succeeding service years until it totals not exceeding 720 hours: *Provided*, That, in order to permit an orderly transition to the new leave system established by this order, the limitation on accumulation contained in this section shall be suspended as to each employee until he has completed one full service year under such new system.

"25. *What absences chargeable to leave.* Leave shall be charged only for absences occurring during the hours prescribed as the basic workweek and shall be exclusive of holidays: *Provided*, That when a holiday is declared by general administrative order to be a work day, an employee who absents himself from work without permission on that day shall be subject to a deduction of one day's pay. The minimum charge for leave shall be such as the Governor shall by regulation prescribe.

"26. *When leave may be granted.* After leave has accrued it may be granted at such times, in the interests of the service, as the Governor may prescribe.

"27. *Absences for illness or injury.* Absences on account of illness or injury may be charged to leave subject to such regulations as the Governor may prescribe. Such regulations may also au-

thorize a reasonable advance of leave for illness or injury to cover which no leave exists or remains to an employee's credit.

"28. *Commutation of leave upon separation.* When an employee is separated from the service, including separation by transfer to an agency under a different leave system as covered by section 3 of the act of December 21, 1944 (5 U.S. Code, section 61 d), he shall be paid compensation in a lump sum for all accumulated and current accrued leave to which he is entitled under this order: *Provided*, That if such employee is reemployed prior to the expiration of the period covered by such leave payment, he shall refund an amount equal to the compensation covering the period between the date of reemployment and the expiration of such leave period, and the amount of leave represented by such refund shall be credited to him: *Provided, further*, That the lump-sum payment herein authorized shall not be regarded, except for purposes of taxation, as salary or compensation and shall not be subject to retirement deductions.

"29. *Commutation of leave upon death.* Upon the death of an employee compensation for all of his accumulated and current accrued leave shall be paid in a lump sum, upon the establishment of a valid claim therefor, to the estate of such deceased employee.

"30. *Travel leave.* An employee who, while in a leave-with-pay status, travels to points outside the tropics and remains thereat for a period of 30 calendar days or more, inclusive of the time required for travel to and from such points, shall be entitled to 40 hours of travel leave with pay; but such leave shall not be credited to an employee more often than twice in any two successive service years, and shall not be credited unless the employee returns to duty.

"31. *Limitation on amount of leave granted.* The maximum amount of leave with pay, inclusive of travel leave, which may be granted at any one time shall be 720 hours: *Provided*, That this limitation may be waived in case of serious illness or disability of an employee, established to the satisfaction of the Governor or such officers as he may designate.

"32. *Rate of pay for leave.* Payment for leave, whether taken by the employee or commuted into a lump-sum payment, shall be at the same rate as that which the employee would have received had he remained on duty during the period of leave: *Provided*, That the Governor may by regulation provide that in making payment for extended leave in the case of an employee having more than one rate of pay, including night pay differential, the current rate of pay for the class of work upon which the employee was preponderantly employed for a substantial prescribed period preceding the taking or commutation of leave shall be deemed to be the rate which the employee would have received had he remained on duty.

"33. *Reporting from leave.* An employee who fails to report from authorized leave within one week after the expiration of such leave shall be subject either to disciplinary action or termination unless it is determined that the delay was not reasonably avoidable and was therefore excusable.

"34. *Leave without pay.* Leave of absence without pay may be granted subject to such regulations as may be prescribed by the Governor.

"35. *Conversion of present leave credit.* As of the effective date of this order, the leave credit of each employee shall be adjusted and converted in the manner provided in this section for the purpose of establishing the employee's new leave credit. Each employee shall have added to his leave credit a proportionate share of the allowance for annual and cumulative leave for the whole of his current service year, under the regulations in force prior to the effective date of this order, in lieu of any other credit for such allowance, and consisting of one-twelfth of such allowance for each complete month of service performed by the employee during such service year, less such number of days' leave as have previously been charged against such allowance. Each employee's leave credit thus determined shall thereupon be converted by multiplying the number of days' leave credit by five-sevenths in the case of an employee whose cumulative-leave allowance was thirty days per year or by six-sevenths in the case of an employee whose cumulative-leave allowance was twenty days per year, to conform to the new method of charging leave, and by multiplying the product in all cases by eight in order to express the new credit in terms of hours: *Provided*, That when an employee, who on the effective date of this order has completed ten months of his current service year, is separated from the service prior to the completion of such service year, the leave credit of such employee shall be readjusted as of the time of his separation so that his leave credit for conversion in the manner hereinbefore provided shall in no event be less than the leave which would have been due him on separation had this amendatory order not been promulgated.

"36. *Regulations of Governor.* The Governor is granted continuing authority to make such additional regulations, not inconsistent with the provisions of this order, as he shall deem necessary for the completion, operation and administration of the leave system established by this order.

"37. *Leave of policemen and firemen.* The provisions of sections 21 to 36 of this order shall apply to and govern the leave of policemen and firemen, except that in view of the longer workweeks of such employees and the consequent greater charge for absences of such employees on leave, the Governor shall by regulations applicable to such employees, respectively, modify the provisions of said sections 21 to 36 to such extent as may be necessary to accord to such employees the same leave privileges, as nearly as is reasonably practicable, as are accorded to other employees. To that end the Governor may in such regulations establish and adjust the amount of leave to which such employees shall be entitled, the reduction of their leave credits for absences in a nonpay status, their maximum accumulation of leave, the absences chargeable to leave, the advance of leave for illness or injury, the travel leave, the limitation on the amount of leave which may be granted at any one time, the method of conversion of their present leave credits, and any other element of their leave the adjustment of which is necessary.

"The Governor is further authorized to provide for the adjustment and conversion, consistently with the provisions of this order, of the leave credits of an employee as of the effective date of the transfer of such employee between the police and fire forces, or between either of such forces and any other class of employment in the organization.

"38. *Sick leave of teachers.* A teacher employed only during the school year may be granted not to exceed 15 days of leave with pay during the school year to cover illness or injury, but shall not be entitled to any other leave with pay. Such leave shall be chargeable only for absence upon days during which the employee would otherwise work and receive pay, shall be exclusive of holidays, and shall be paid for at the rate prescribed in section 32 of this order. Such leave which is unused at the end of a school year shall be accumulated for use in succeeding school years until it totals not exceeding 45 days. Such leave shall be accorded and administered as prescribed in such regulations, not inconsistent with this section, as may be prescribed by the Governor.

"LEAVE FOR EXCEPTED ALIEN EMPLOYEES

"39. *Sick and rest leave for excepted alien employees.* The Governor is authorized to grant, under such regulations as he may prescribe, sick and rest leave to such alien employees as are excepted by section 20 of this order from entitlement to leave privileges under sections 20 to 38 of this order: *Provided*, That the combined sick and rest leave which may be granted to any such employee shall not exceed 24 days in any one year, and that such leave shall not be cumulative in excess of 60 days.

"OFFICE HOURS AND HOURS OF LABOR

"40. *Office hours and hours of labor.* Office hours and hours of labor shall be fixed by the Governor within the limits prescribed by law."

SEC. 2. Executive Order No. 9039 of January 24, 1942, as amended by section 1 of Executive Order No. 9497 of November 6, 1944, authorizing sick and rest leave for alien employees of The Panama Canal and the Panama Railroad Company, is revoked.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 02-0]

PART 02—TYPE AND PRODUCTION CERTIFICATES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 11th day of June 1946.

Effective July 1, 1946, the Civil Air Regulations are amended by adding a new Part 02 to read as follows:

Explanatory statement concerning suspension and revocation of certificates issued under this part. The Civil Aeronautics Board is authorized under section 609 of the Civil Aeronautics Act of 1938 to suspend or revoke type and production certificates. The Administrator, under the same section of the act, is authorized in cases of emergency to suspend such certificates in whole or in part for a limited period. In so doing he is required to notify immediately the holder and file a complaint with the Board, in which proceeding the holder is entitled to a hearing.

Certificates may be suspended if the interest of the public so requires, or may be revoked for any cause which at the time of revocation would justify the Administrator in refusing to issue to the holder a like certificate. Any deliberate misrepresentation in the application or in the submission of any information accompanying the application, or in any statement or report required of a certificate holder under these regulations, may be grounds for the suspension or revocation of a certificate.

In addition to the above grounds, production certificates may be suspended or revoked for any of the following reasons:

1. Willful violation on the part of the manufacturer of any portion of the Civil Aeronautics Act or any regulation promulgated thereunder relating to the production of articles authorized by the production certificate.

2. Demonstration of incompetency, carelessness or negligence, or the willful use of inferior or improper materials in the manufacture of articles covered by the certificate.

3. Failure of the manufacturer to maintain adequate facilities and personnel to assure the airworthiness and conformity of articles produced.

4. Refusal of the manufacturer to submit to inspection upon proper demand by a representative of the Administrator, or to render any reasonable assistance in connection therewith.

Sec.
02.0 General.

02.2 Production certificates.
02.3 Type and production certificate rules.

§ 02.21 *Requirements for issuance.* The applicant shall hold a currently effective type certificate for the product to be manufactured, or shall hold a current right to the benefits of such certificate under a licensing arrangement.

Upon receipt of the application with supporting information, and after an inspection of the applicant's organization and production facilities, the Administrator shall issue a production certificate if he finds that the applicant is adequately prepared to manufacture the product and to control its quality to the extent that each article will conform with the design provisions of the pertinent type certificate.

§ 02.210 *Production limitation record.* The benefits of a production certificate shall be available only with respect to the type certificate or certificates set forth in the currently effective production limitation record, prescribed and issued by the Administrator, which shall constitute a part of the production certificate.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-928]

OLTMANS CONSTRUCTION COMPANY

Oltmans Construction Company, a corporation also known as J. O. Oltmans and Son with offices at 818 East 18th Street, Los Angeles, California, is engaged in the general construction business. On April 4, 1946, without authorization from the Civilian Production Administration, the company began as the contractor for Daylite Markets, Inc., the construction of a market building and five stores at 8331–8343 East 18th Street, Los Angeles, California, at an estimated cost of $52,000, which amount exceeded the $1,000 limit permitted by Veterans Housing Program Order No. 1. The responsible officers of the company were aware of the restrictions on construction and its actions constituted a wilful violation of Veterans Housing Program Order No. 1.

This violation has diverted scarce materials to uses not authorized by the Ci-

vilian Production Administration. In view of the foregoing facts, it is hereby ordered that:

§ 1010.928 *Suspension Order No. S–928.* (a) For a period of three months from the effective date of this order, no authorization shall be granted Oltmans Construction Company to do construction, nor shall it during such period apply or extend any preference ratings, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(b) Oltmans Construction shall cancel immediately all preference ratings which it had applied or extended to orders which have not yet been filled, except that if it has extended a customer's rating to get an item for delivery without change in form to that customer (as distinct from replacing it in inventory), it need not cancel the rating, provided the item when received is promptly delivered to the customer whose rating was extended.

(c) All preference ratings, allotments and allocations presently outstanding in connection with orders for delivery of materials to Oltmans Construction Company or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of Oltmans Construction Company or any other person. This does not apply to material already delivered or in transit for delivery to it on the effective date of this order.

(d) The provisions of this order shall not apply to the completion of any construction jobs heretofore authorized under the Veterans' Housing Program on which construction has already begun, or to prohibit the placing of rated orders for materials necessary to complete the construction of any such project under the Veterans' Housing Program.

(e) Oltmans Construction Company shall refer to this order in any application or appeal which it may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance or for authorization to carry on construction.

(f) Nothing contained in this order shall be deemed to relieve Oltmans Construction Company from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(g) The restrictions and prohibitions contained herein shall apply to Oltmans Construction Company, also doing business as J. O. Oltmans and Son, or under any other name, its successors and assigns or persons acting on its behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(h) This order shall take effect on the 22d day of June 1946.

Issued this 12th day of June 1946.

Chapter XVIII—Office of Economic Stabilization

[Dir. 41, Amdt. 5]

PART 4003—SUPPORT PRICES: SUBSIDIES

LIVESTOCK SLAUGHTER PAYMENTS

Under War Food Orders 75-2, 75-3, and 75-4, certain designated livestock slaughterers are required to set aside and deliver to the Government specified percentages of each week's production of beef, pork, and veal, respectively. A substantial proportion of the products procured in this way are exported to starvation areas in Europe and the rest of the world, in accordance with allocations made by the Combined Food Board. Recently, the Department of Agriculture amended these orders to facilitate prompt delivery to the Government of all quantities of meats and meat products required to be set aside. This action was made necessary by the increasing seriousness of the famine emergency abroad. Compliance with the new delivery provisions of the War Food Orders is essential, particularly in the next few weeks, in order to avert starvation on a large scale. It is expected that on the whole there will be voluntary compliance with these provisions. Nevertheless, it is felt necessary that the Government exercise its full powers to assure compliance.

Heretofore, it has been the practice of the Reconstruction Finance Corporation to withhold subsidy payments from a slaughterer, if the Secretary of Agriculture certifies to the Reconstruction Finance Corporation that he has wilfully violated the provisions of the set-aside orders. It is now intended to extend withholding to any case in which a slaughterer's own report, filed with the Secretary of Agriculture, indicates that he has failed to set aside or deliver in accordance with the applicable War Food Orders.

Accordingly pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4681), Executive Order 9599 of August 18, 1945 (10 F.R. 13487) Executive Order 9697 of February 14, 1946 (11 F.R. 1691), and Executive Order 9699 of February 21, 1946 (11 F.R. 1929), paragraph (e) of section 7 of Directive No. 41 issued by this Office, is hereby amended to read as follows:

(e) (1) Reconstruction Finance Corporation is also directed to withhold payment of subsidy claims upon certification by a District Director of the Office of Price Administration or the Secretary of Agriculture (or his duly authorized representative) that the slaughterer's report, after correction for errors, filed with the Office of Price Administration or the Department of Agriculture pursuant to Control Order 2 or War Food Order No. 75-7, shows that he has slaughtered livestock in excess of his authorized quota.

(2) The Reconstruction Finance Corporation is further directed to withhold payment of subsidy claims upon certification by the Secretary of Agriculture (or his duly authorized representative) that the slaughterer's report, after correction for errors, filed with the Department of Agriculture pursuant to War Food Orders Nos. 75-2, 75-3, or 75-4, shows that he has failed to set aside for Government procurement, or has failed to deliver to the Government, such quantities of beef, pork, or veal as are required to be set aside for and delivered to the Government under the terms of the said War Food Orders.

(3) The withholding provided for in this paragraph (7) (e) shall apply to the cattle subsidy (exclusive of extra-compensation payments), calf subsidy or hog subsidy (depending upon which species of livestock the slaughterer has slaughtered in excess of his authorized quota, or which type of meat the slaughterer has failed to set aside or deliver) due the slaughterer on the particular species of livestock slaughtered at the particular establishment during the accounting period involved.

(4) In a case involving slaughter in excess of the authorized quota, the appropriate District Director of the Office of Price Administration, or the Secretary of Agriculture (or his duly authorized representative) shall, as promptly as possible, certify to the Reconstruction Finance Corporation:

(i) The name of any slaughterer whose report, after correction for errors, filed pursuant to Control Order No. 2 or War Food Order No. 75-7, shows a slaughter of any species of livestock in excess of his authorized quota for such species of livestock; and

(ii) The address of the establishment and the accounting or quota period for which the report is filed; and

(iii) The species of livestock for which the slaughterer's report shows slaughter in excess of his authorized quota.

(5) In a case involving failure to set aside or deliver under War Food Orders Nos. 75-2, 75-3, or 75-4, the Secretary of Agriculture (or his duly authorized representative) shall, as promptly as possible, certify to the Reconstruction Finance Corporation:

(i) The name of any slaughterer whose report, after correction for errors, filed pursuant to War Food Orders Nos. 75-2, 75-3, or 75-4, shows a failure to set aside or deliver the quantities of meat or meat products required to be set aside and delivered under the said War Food Orders; and

(ii) The address of the establishment and the accounting or quota period for which the report is filed; and

(iii) The type of meat or meat product which, as shown by the slaughterer's report, the slaughterer has failed to set aside or deliver as required.

(6) If a slaughterer has exceeded his authorized quota by an amount which is not in excess of 3 percent of such quota or 2000 pounds, live weight, whichever is larger, or if a slaughterer has failed to set aside or deliver meat or meat products by an amount which is not in excess of 3 percent of the quantity of meat or meat products required to be set aside and delivered, he may apply to the Secretary of Agriculture or the Price Administrator at Washington, D. C., depending upon whether his report was filed with the Department of Agriculture or the Office of Price Administration, for a release of the subsidy withheld pursuant to this paragraph (e). Upon a finding by the Secretary of Agriculture (or his duly authorized representative) or the Price Administrator, that the slaughterer's excess slaughter or failure to set aside or deliver was due to extenuating circumstances and that the release of the subsidy withheld will not be inconsistent with the stabilization program or the Government procurement program, the Secretary of Agriculture or his duly authorized representative or the Price Administrator may so certify to the Reconstruction Finance Corporation, and thereupon the subsidy withheld shall be payable forthwith.

This amendment shall become effective June 21, 1946.

Issued this 21st day of June 1946.

Director.

Upon this latter certification, Reconstruction Finance Corporation shall then pay to such slaughterer the amount of subsidy to which such slaughterer would otherwise be entitled. FEDERAL POWER COMMISSION.

[Docket No. IT-5969]

BONNEVILLE PROJECT, COLUMBIA RIVER, OREGON-WASHINGTON

NOTICE OF REQUEST FOR APPROVAL OF RATES AND CHARGES FOR SALE OF POWER FROM BONNEVILLE PROJECT

JUNE 21, 1946.

Notice is hereby given that the Administrator of the Bonneville Project has filed with the Federal Power Commission for confirmation and approval, pursuant to the provisions of the Booneville Act (50 Stat. 731), as amended, a revision of its proposed wholesale power Rate Schedule R-1. Notice of the original filing of the proposed schedule was published in the FEDERAL REGISTER November 8, 1945, Volume 10, No. 220, Page 13758.

The revised schedule reads as follows:

Availability. This schedule applies to at-site and transmission system firm power made available by the Government to railroads and other purchasers for direct consumption under appropriate contracts providing for the purchase in each billing period during the hours of midnight to 6:00 a. m. of not less than 25 per cent of the number of kilowatt-hours used in other hours of the day, and during the period May to September, inclusive of each year of not less than 65 per cent of the number of kilowatt-hours purchased in the preceding period of October to April, inclusive. The points of delivery shall be so located that the capacity required for the estimated load at each point of delivery shall be not less than 7,500 kva, unless in any particular case the Administrator shall determine that it would be to the inetrest of the Government to supply a lower capacity.

Rate. Energy shall be sold under this schedule at four mills per kilowatt-hour of net energy supplied adjusted for power factor as set forth below. Such net energy before adjustment for power factor will be determined as the aggregate number of kilowatt-hours delivered to the purchaser's system at all points of delivery less the number of kilowatt-hours resulting from regenerative braking received by the Government from the purchaser's system. The energy flowing in both directions will be metered separately as of each point of delivery.

Minimum charge. The net minimum charge under this schedule shall be $0.50 per month times the aggregate kva capacity of all the points of delivery.

Power factor adjustment. The net energy before adjustment for power factor will be increased 1% for each 1% or major fraction thereof by which the average power factor is less than .95 lagging. This adjustment may be waived in whole or in part to the extent that the Administrator determines that a power factor of less than .95 would in any particular case be advantageous to the Government. Unless specifically otherwise agreed, the Administrator shall not be obligated to deliver power at any time at a power factor below .75.

General provisions. Sales of power under this schedule shall be subject to the provisions of the Bonneville Project Act and to the general rate schedule provisions effective . . .

Any person desiring to make representations with respect to the foregoing should submit the same on or before July 10, 1946, to the Federal Power Commission, Washington 25, D. C.

Secretary.

OFFICE OF PRICE ADMINISTRATION.

[SO 119, 2d Rev. Order 35]

WALD MFG. CO., INC.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119; *It is ordered:*

Revised Order No. 35, issued on April 8, 1946, under Supplementary Order No. 119, is amended, revised and redesignated Second Revised Order No. 35 under Revised Supplementary Order No. 119, to read as follows:

(a) *Manufacturer's ceiling prices.* Wald Manufacturing Company, Incorporated, of Maysville, Kentucky, may compute its adjusted ceiling prices for all bicycle parts and accessories, which it manufacturers, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 20 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Ceiling prices of purchasers for resale.* Purchasers for resale of such articles in substantially the same form which the manufacturer has sold at adjusted maximum prices shall determine their ceiling prices as follows:

(1) A purchaser for resale who delivered or offered for delivery during March 1942, an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale shall calculate his ceiling price by adding to his invoice cost the same markup which he had on that comparable article, according to the method and procedure set forth in that section.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a purchaser for resale cannot determine his ceiling price under the above method, he shall apply to the Office of Price Administration for the establishment of his ceiling price under

§ 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) Ceiling prices adjusted by this order, are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or established under any applicable OPA regulation.

(d) The provisions of Supplementary Order No. 153 shall not apply to resales of articles covered by this second revised order.

(e) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a ceiling price adjusted in accordance with the terms of this order, the seller shall notify each purchaser in writing of the adjusted ceiling prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) *Effective date.* This order shall become effective on the 22d day of June 1946.

Issued this 21st day of June 1946.

Administrator.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133, it is ordered:

(a) *Manufacturer's maximum prices.* Continental Furniture Company, High Point, North Carolina, may increase its maximum prices properly established under Maximum Price Regulation No. 188 (exclusive of any adjustment charges), for articles of wood bedroom furniture, which it manufactures by 12.3 percent of each such maximum price.

(b) *Resellers' ceiling prices.* Resellers of articles which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Reguation No. 580, and a wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling price under that regulation as modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

If his suppliers invoice does not state an "unadjusted maximum price" the reseller shall calculate his ceiling prices by adding to his invoice cost the same percentage mark-up which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section shall reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or, thereafter, properly established under Office of Price Administration regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The manufacturer shall file the report described in section 5 of Supplementary Order No. 133 with the Office of Price Administration, Washington 25, D. C., and shall comply with the invoicing and reporting provisions of Order No. 4800 under Maximum Price Regulation No. 188.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 21st day of June 1946.

Issued this 21st day of June 1946.

PAUL A. PORTER,
Administrator.

When the maximum price set forth is expressed in terms of ½ cent, the price charged for a single unit sale at retail may be increased to the next even cent. An opportunity must, however, be given to each buyer to purchase two units for which the maximum price will be twice the single unit price. All sales at wholesale shall be considered multiple unit sales.

On home delivered sales each delivery of two or more units at one time shall be considered as a single sale. The maximum price for such sales shall be the total of the unit prices set forth above. When the total of the unit prices results in a price expressed in terms of ½ cent, and collection is made for each delivery, the price may be increased to the next even cent. However, if collection is made at one time for more than one delivery, the amount to be paid shall be the total of the maximum prices for each of the deliveries; if this total is expressed in terms of ½ cent, it may be increased to the next even cent.

(b) *Maximum distributor prices for sales to the Army and Navy.* The maximum price for the sale and delivery of fluid milk to the Army and Navy shall be the price at wholesale computed under paragraph (a) of this order for the particular size and type of container, plus whichever of the following provisions is the higher:

(1) One-half cent per quart or a proportionate amount for a part of a quart.

(2) The actual transportation costs from the seller's plant to the point of delivery at the lowest common carrier rate.

UNITED GAS IMPROVEMENT CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 20th day of June 1946.

The United Gas Improvement Company (UGI), a registered holding company, having filed an application and declaration, and an amendment thereto, pursuant to sections 10 and 12 of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder, regarding the following proposed transactions:

UGI proposes to advance not in excess of $650,000, with interest at 3% per annum, to Philadelphia Gas Works Company, its wholly owned subsidiary. Philadelphia Gas Works Company, in turn, proposes to utilize such $650,000, together with $1,850,000 of other cash, available under the lease arrangement, whereby Philadelphia Gas Works Company operates the municipal gas properties and facilities owned by the City of Philadelphia, to construct additions to existing plant and distribution facilities required to meet the increased demand for gas. The amount of $650,000 so advanced with interest at 3% per annum will be included in the expenses of operation of the Municipal Gas Works and will be repaid to Philadelphia Gas Works Company and, in turn, to UGI by charging the same to the cost of gas. Philadelphia Gas Works Company estimates that the revenue from additional sales, made possible by increasing the plant capacity, will be sufficient to allow the recovery of the amount advanced plus interest within five years without increasing the present gas rates; and

Said application and declaration having been filed on May 20, 1946 and an amendment thereto having been filed on June 14, 1946, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect thereto within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission that, insofar as applicable, no adverse findings are necessary under sections 10 (b) and 10 (c) (1) of the act, and that the proposed transaction has the tendency required by section 10 (c) (2); and

The Commission deeming it appropriate in the public interest and in the interests of investors and consumers to permit said declaration, pursuant to sections 12 (b), 12 (f) and Rule U-45 promulgated thereunder, to become effective:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application, as amended, be, and the same hereby is, granted forthwith, and that the aforesaid declaration, as amended, be, and the same hereby is, permitted to become effective forthwith; however, neither the granting of this application nor permitting the declaration to become effective shall be construed as prejudicing any action the Commission may deem appreciate or necessary to take in respect of the future status under section 11 of the act of the Philadelphia Gas Works Company in The United Gas Improvement Company holding company system, including the guaranty by UGI of the lease arrangement between Philadelphia Gas Works Company and the City of Philadelphia.

Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Ten (10) copies of answers shall be furnished. The original of all answers shall be signed in ink, by the respondent or by his attorney at law. Corporations or associations shall file answer through a bona fide officer or by an attorney at law. Answers shall show the office and postoffice address of the signer.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with § 2.24.

§ 2.9 *Intervention.* So far as the responsible conduct of public business shall permit, any interested person, after leave granted, may appear before the Commission, or its delegated responsible officer, for the presentation, adjustment, or determination of any issue, request, or controversy in any proceeding or in connection with any function of the Commission.

Any person, partnership, corporation, or association desiring to intervene in a contested proceeding shall make application in writing, setting out the grounds on which he or it claims to be interested.

The Commission may, by order, permit intervention by counsel or in person to such extent and upon such terms as it shall deem proper.

§ 2.10 *Motions.* Motions before the Commission or the trial examiner shall state briefly the purpose thereof and all supporting affidavits, records, and other papers, except such as have been previously filed, shall be filed with such motions and clearly referred to therein.

Motions in any proceeding before a trial examiner which relate to the introduction or striking of evidence, or with respect to procedure during the course of hearings, shall be made to the trial examiner and shall be ruled on by him.

Exception to any such ruling must be noted before the trial examiner in order to be urged before the Commission. All other motions in any proceeding before a trial examiner, except as otherwise provided in this part shall be addressed to and shall be ruled upon by the Commission.

Ten (10) copies of the motion, the original signed in ink, shall be filed, one copy of which shall be retained by or furnished to the trial examiner.

Prompt notice shall be given of the granting or denial, in whole or in part, of any written application; petition, or other request of any interested person made in connection with any formal pro-

ceeding. Except in affirming a prior denial or where the denial is self-explanatory, such notice shall be accompanied by a simple statement of grounds.

§ 2.11 *Continuances and extensions of time.* Except as otherwise expressly provided by law, the Commission, for cause shown, may extend any time limits prescribed for filling any papers, and may continue or adjourn any hearing. A hearing before a trial examiner shall begin at the time and place ordered by the Commission, but thereafter may be adjourned from time to time by the trial examiner or the Commission.

Applications for continuances and extensions of time should be made prior to the expiration of time prescribed by this part.

§ 2.12 *Documents*—(a) *Filing.* All documents required to be filed with the Commission in any proceeding shall be filed with the Secretary of the Commission.

(b) *Title.* Documents shall clearly show the docket number and title of the proceeding.

(c) *Copies.* Documents, other than correspondence, shall be filed in triplicate, except as otherwise specifically required by this part.

(d) *Form.* Documents not printed shall be typewritten, on one side of paper only; letter size, eight (8) inches by ten and one-half (10½) inches, left margin, one and one-half (1½) inches; right margin, one (1) inch.

Documents may be printed, in ten (10) or twelve (12) point type, on good, unglazed paper, of the dimensions and with the margins above specified.

Documents shall be bound at left side only.

The originals of all answers, briefs, motions, and other documents shall be signed in ink, by the respondent or his duly authorized attorney. Where the respondent is an individual or a partnership, the originals of said documents shall be signed by said individual or by one of the partners, or by his or its attorney. Where the respondent is a corporation, the originals of said documents shall be signed under the corporate name by a duly authorized official of such corporation, or by its attorney. Where the respondent is an association, the originals of said documents shall be signed under the association name for said association by a duly authorized official of such association, or by its attorney.

One copy of a brief or other document required to be printed may be signed as the original.

§ 2.13 *Admission as to facts and documents.* At any time after answer has been filed counsel or parties in any controversy may serve upon the opposing side a written request for the admission of the genuineness and authenticity of any relevant documents described in and exhibited with the request or the admission of the truth of any relevant matters of fact set forth in such documents.

Copies of the documents shall be delivered with the request unless copies have already been furnished. Each of the matters on which an admission is so requested shall be deemed admitted unless, within a period designated within the request, not less than ten days after service thereof or within such further time as the Commission or the trial examiner may allow on motion and notice, the party so served serves upon the party making the request, a sworn statement either denying specifically the matters of which an admission is requested, or setting forth in detail the reasons why he can neither truthfully admit nor deny those matters. Service required hereunder may be made upon a respondent either by registering and mailing or by delivering a copy of the documents to be served to the respondent or his attorney, or by leaving a copy at the principal office or place of business of either. Service upon the attorney supporting the complaint may be either by registering and mailing or by delivering a copy of the documents to be served to such attorney.

§ 2.14 *Trial examiners.* When evidence is to be taken in a proceeding upon complaint issued by the Commission, a trial examiner may be designated for that purpose by the Commission.

Trial examiners shall have the authority, subject to the published rules of the Commission and within its powers as follows:

(a) To administer oaths and affirmations.

(b) To rule upon offers of proof and receive relevant evidence.

(c) To regulate the course of the hearings.

(d) To hold conferences, before or during the trial, for the settlement or simplification of issues, by consent of the parties.

(e) To dispose of procedural requests or similar matters.

(f) Within his discretion or upon the direction of the Commission to certify any question to the Commission for its consideration and disposition.

(g) To submit to the Commission his recommended findings, conclusions and form of order in accordance with § 2.22.

(h) To take any other action consistent with law and the rules of the Commisson.

Trial examiners shall perform no duties inconsistent with their duties and responsibilities as such. Save to the extent required for the disposition of ex parte matters as authorized by law, no trial examiner shall consult any person or party as to any fact in issue unless upon notice and opportunity for all parties to participate.

Trial examiners shall not be responsible to, or subject to the supervision or direction of any officer, employee, or agent engaged in the performance of investigative or prosecuting functions for the Commission.

The trial examiner is charged with the duty of conducting a fair and impartial hearing and of maintaining order in form and manner consistent with the dignity of the Commission. He will note on the record any disregard by counsel of his rulings on matters of order and procedure and where he deems it necessary shall make special written report thereof to the Commission. In the event that counsel supporting the complaint or counsel for any respondent shall be guilty of disrespectful, disorderly, or contumacious language or conduct in connection with any hearing, the trial examiner may suspend the proceeding and submit to the Commission his report thereon, together with his recommendations as to whether any rule should be issued to show cause why such counsel should not be suspended or disbarred pursuant to § 2.7 or subjected to other appropriate action in respect thereto. A copy of such trial examiner's report shall be furnished to any counsel upon whose language or conduct such report is made, and the Commission will take disciplinary action only after an opportunity for hearing has been accorded such counsel.

§ 2.15 *Hearings in formal proceedings.* All hearings pursuant to formal complaint shall be public unless otherwise ordered by the Commission, and such hearings shall be subject to the following conditions and requirements:

(a) Every party respondent shall have the right of due notice, cross examination, presentation of evidence, objection, exception, motion, argument, appeal and all other fundamental rights.

(b) The taking of evidence and subsequent proceedings shall proceed with all reasonable diligence and with the least practicable delay.

(c) Not less than five (5) days notice of the time and place of any indefinitely postponed hearing shall be given to counsel of record or to parties, but in appointing such hearings due regard shall be had for the convenience and necessity of all parties or their representatives.

(d) The trial examiner may withdraw from a case when he deems himself disqualified, or he may be withdrawn by the Commission after timely affidavits alleging personal bias or other disqualification have been filed and the matter has been heard by the Commission or by a trial examiner whom it has delegated to investigate and report.

(e) Hearings shall be stenographically reported by the official reporter of the Commission under supervision of the presiding trial examiner. A transcript of said report shall be a part of the record and the sole official transcript of the proceeding. Transcripts will be supplied to respondents and to the public by the official reporter at rates not to exceed the maximum rates fixed by contract between the Commission and the reporter.

(f) All matters officially noticed by the presiding trial examiner shall appear on the record.

(g) Changes in the official transcript may be made only when they involve errors affecting substance and then only in the manner herein provided. No physical changes shall be made in or upon the official record or copies thereof in the custody of the Commission. Lists of changes agreed to in writing by opposing counsel may be incorporated into the record, if any when approved by the trial examiner, at the close of evidence in support of the complaint, or at the final hearing before the trial examiner, or at any time thereafter before he files his report, and at no other times. If any changes are ordered by the trial examiner without such written agreement between opposing counsel they shall be subject to objection in the same manner as provided under §§ 2.20 and 2.24.

§ 2.16 *Subpoenas.* Subpoenas requiring the attendance of witnesses from any place in the United States, at any designated place of hearing, may be issued by any member of the Commission. Application therefor may be made either to the Secretary or to the presiding trial examiner.

Subpoenas for the production of documentary evidence will be issued only upon application in writing to the Commission. The application must specify, as exactly as possible, the documents desired, and show their competency, relevancy, and materiality. An application by a respondent shall be verified by oath or affirmation.

§ 2.17 *Witnesses.* Witnesses shall be examined orally, except that for good and exceptional cause for departing from the general rule the Commission may permit their testimony to be taken by deposition.

Witnesses summoned by the Commission shall be paid the same fees and mileage as are paid witnesses in the courts of the United States.

Witnesses whose depositions are taken, and the persons taking such depositions, shall severally be entitled to the same fees as are paid for like services in the courts of the United States.

Witness fees and mileage, and fees for depositions, shall be paid by the party at whose instance witnesses appear.

§ 2.18 *Evidence*—(a) *In general.* Counsel supporting the complaint shall have the general burden of proof and the proponents of any factual proposition shall be required to sustain the burden of proof with reference thereto. All findings, conclusions and recommendations by trial examiners shall be based on the greater weight of the evidence. (The Commission also bases its findings and decisions on the greater weight of the evidence.) The trial examiner, subject to appeal to the Commission as provided in § 2.20, shall admit relevant, material and competent evidence, but shall exclude irrelevant, immaterial and unduly repetitious evidence. No order shall be recommended except upon consideration of the whole record, and except as it may be supported by and in accordance with reliable, competent and substantial evidence.

(b) *Documentary.* Where relevant and material matter offered in evidence is embraced in a document containing other matter not material or relevant and not intended to be put in evidence, such immaterial or irrelevant parts shall be excluded, and shall be segregated insofar as practicable.

(c) *Official notice of facts.* Where any recommended order of the trial examiner or any decision of the Commission, or part thereof, rests upon the taking of official notice of a material fact not appearing in the evidence in the record, any party shall, on timely motion, be afforded an opportunity to show the contrary.

(d) *Objections.* Objections to the evidence before a trial examiner, a Commissioner or the Commission shall be in short form, stating the grounds of objections relied upon, and the transcript shall not include argument or debate thereon except as ordered by the trial examiner, a Commissioner or the Commission. Rulings on such objections shall be a part of the transcript. An objection not urged or argued in the brief will be deemed to have been abandoned.

§ 2.19 *Depositions.* The Commission may order evidence to be taken by deposition in any proceeding or investigation pending at any stage of such proceeding or investigation. Such depositions may be taken before any person designated by the Commission and having power to administer oaths.

Unless notice be waived, no deposition shall be taken except after at least five (5) days' notice to the parties within the United States, and fifteen (15) days' notice when deposition is to be taken elsewhere.

Any party desiring to take the deposition of a witness shall make application in writing, setting out the reasons why such deposition should be taken, and stating the time when, the place where, and the name and post-office address of the person before whom it is desired the deposition be taken, the name and post-office address of the witness, and the subject matter or matters concerning which the witness is expected to testify. If good cause be shown, the Commission will make and serve upon the parties, or their attorneys, an order wherein the Commission shall name the witness whose deposition is to be taken and specify the time when, the place where, and the person before whom the witness is to testify, but such time and place, and the person before whom the deposition is to be taken, so specified in the Commission's order, may or may not be the same as those named in said application to the Commission.

The testimony of the witness shall be reduced to writing by the officer before whom the deposition is taken, or under his direction, after which the deposition shall be subscribed by the witness and certified in usual form by the officer. After the deposition has been so certified, it shall, together with three additional copies thereof made by such officer or under his direction, be forwarded by such officer under seal in an envelope addressed to the Commission at its office in Washington, D. C. Such deposition, unless otherwise ordered by the Commission for good cause shown, shall be filed in the record in said proceeding and a copy thereof supplied to the party upon whose application said deposition was taken, or his attorney.

Depositions shall be typewritten, on one side of paper only; letter size, eight (8) inches by ten and one-half (10½) inches; left margin, one and one-half (1½) inches; right margin, one (1) inch.

Depositions shall be bound at left side only.

§ 2.20 *Appeals to the Commission from rulings of trial examiners.* Parties shall not have the right to prosecute appeals from rulings of trial examiners during the course of hearings unless it be shown that the prompt decision of such appeal is necessary to prevent undue expenditure of time and expense in the event the examiner's ruling were later reversed, or for similar good cause. In all other situations appeals may be taken to the Commission only as follows:

At the close of the taking of the evidence in any proceeding any party may notify the trial examiner that he will move the Commission to reverse or modify one or more of the trial examiner's rulings to which timely exception has been taken. In such event the hearings for the reception of evidence in any such case shall not be deemed to have been concluded until, either the reception of further evidence under direction of the Commission shall have been completed, or the Commission shall have communicated its decision that no further evidence shall be taken. If any party shall elect to make such motion or motions, the same shall be filed within ten (10) days after the transcript of the entire record shall be filed. In such motions each exception shall be separately set out, with exact citations to each portion of the record involved and references to the principal authorities relied upon. Any matters not thus laid before the Commission shall be deemed waived.

§ 2.21 *Arguments before trial examiners and counsel's suggestions for findings and orders.* When, in the opinion of the trial examiner presiding in any proceeding upon complaint issued by the Commission, the size of the transcript or the complication or importance of the issues involved warrants, he may, either of his own motion or at the request of a party, announce at or before the close of the taking of testimony that he requests the presentation of oral argument at a time stated.

Whether oral argument be heard by the trial examiner or not, the parties within such time not exceeding fifteen (15) days after the closing of the taking of the evidence, as may be fixed by the trial examiner, shall if they desire, present statements in writing to the trial examiner setting forth, in concise outline, such forms of proposed findings and conclusions and, if desired, the reasons therefor, and such proposed forms of order as they may deem requisite in view of the facts, the law and the public interest.

Neither waivers of the right to submit said statements nor the election to file them shall change the time prescribed in § 2.22 for the filing of report by the trial examiner. A copy of any such statement of proposed findings, conclusions and order shall be furnished to all other parties by each party submitting the same, shall be certified to the Commission by the trial examiner, and shall be included in the record certified to the Commission.

§ 2.22 *Trial examiner's report.* The trial examiner, as soon as practicable and not later than thirty (30) days after receipt by him of the complete stenographic transcript of all testimony and all exhibits in the proceeding, shall make

and file his report, consisting of his report upon the facts, conclusions of fact, conclusions of law, and his recommended order. All such reports shall be advisory only as the Commission reserves to itself the decision in all cases brought before it.

Except where he shall have become unavailable to the Commission, the said report shall be made by the trial examiner who presided at the hearing.

No officer, employee or agent, engaged in the performance of investigative or prosecuting functions for the Commission in any case shall, in that or a factually related case, participate or advise as to the findings, conclusions or order to be recommended by the trial examiner, except as a witness or as counsel in public proceedings.

The trial examiners' reports shall become a part of the record.

The trial examiner shall recommend only such findings as he shall deem supported by the weight of the evidence (including facts of which he may take official notice pursuant to § 2.18), and he shall recommend no finding which is not supported by relevant, reliable and probative evidence.

A copy of the trial examiner's report shall be served upon each party, legal counsel or other representative who has appeared pursuant to § 2.7.

§ 2.23 *Exceptions.* Any party may, within ten (10) days after receipt of a copy of the trial examiner's report, file his exceptions thereto. Exceptions to the trial examiner's recommended findings as to the facts and to his recommended conclusions of fact shall specify the particular statements or parts thereof to which exception is taken; shall designate, by specific references, the portions of the record relied upon in support of such exceptions; shall set out specific findings and conclusions of fact proposed in lieu thereof and may propose findings and conclusions of fact additional to those recommended by the trial examiner. Exceptions to the trial examiner's recommended conclusions of law shall be specific, shall briefly cite the statutory provisions or the principal authorities relied upon, shall set forth conclusions suggested in lieu thereof and may propose additional conclusions. Exceptions both to recommended findings and recommended conclusions may if desired include the reasons therefor. Exceptions to the trial examiner's recommended form of order shall specify the portions thereof excepted to and set forth a form of order suggested in lieu of that recommended by the trial examiner.

Ten (10) copies of the exceptions, signed, in ink, shall be filed.

A copy of such exceptions shall forthwith be served upon each of the other attorneys and respondents who were served with a copy of the trial examiner's report.

If exceptions are to be argued, they shall be argued at the time of final argument upon the merits.

§ 2.24 *Briefs and oral arguments before the Commission*—(a) *Questions for presentation.* Questions which may be considered and decided by the Commission and presented include the following:

(1) Whether the findings and conclusions of fact recommended by the trial examiner are relevant to the issue and are supported by substantial probative evidence and by a preponderance of evidence.

(2) Whether additional findings, not recommended by the trial examiner, should be made either with or without sending the case back to the trial examiner for the reception of further evidence.

(3) Whether the trial examiner was justified in having taken official notice of any fact under § 2.18 and whether the Commission should take official notice of any other fact.

(4) Whether due process was observed and whether parties are estopped from urging any irregularity in procedure.

(5) Whether the facts show a violation of law and of the public interest lawfully amenable to redress by the Commission and what conclusions of law are justified and requisite in the premises; and

(6) Whether an order to cease and desist, an order of dismissal, or other order, should be entered and issued, and the substance and form thereof.

(b) *Briefs*—(1) *Filing.* Any party to a proceeding may file a brief with the Secretary of the Commission, in support of his contentions, within the time limits fixed by this part.

Briefs not filed on or before the time fixed in this part will be received only by special permission of the Commission.

Appearance of additional counsel in a case will not constitute grounds for extending time for filing briefs.

(2) *Time.* Opening brief shall be filed by the attorney supporting the complaint within twenty (20) days after service upon him of a copy of the report of the trial examiner.

Brief on behalf of respondent shall be filed within twenty (20) days after service upon respondent or respondent's attorney of copy of brief in support of the complaint.

Where respondent shall have filed an answer admitting all material allegations of fact, the time so limited shall begin to run at the time of filing such answer.

In the event permission is granted for filing reply brief in support of the complaint, it shall be filed within ten (10) days after filing of brief on behalf of respondent. No further reply brief on behalf of respondent shall be filed.

(3) *Number.* Twenty (20) copies of each brief shall be filed.

(4) *Contents.* Briefs, except the reply brief in support of the complaint, shall contain, in the following order:

(i) A concise abstract or statement of the case.

(ii) A brief of the argument, exhibiting a clear statement of the points of fact or law to be discussed, with references to the pages of the record and the authorities relied upon in support of each point.

(iii) The exceptions, if any, to the report of the trial examiner.

(5) *Index.* Briefs comprising more than ten (10) pages shall contain on their top fly leaves a subject index with page references. The subject index shall be supplemented by an alphabetical list of all cases referred to, with references to pages where references are cited.

(6) *Form.* Briefs shall be printed, multigraphed, or otherwise neatly processed on good unglazed white paper in type not smaller than ten (10) point double leaded, citations and quotations single leaded; footnotes not less than eight (8) point single leaded. Type page shall not be more than twenty-nine (29) picas wide by approximately forty-eight (48) picas deep and trimmed page shall be seven (7) inches by ten (10) inches, with an inside margin of not less than one (1) inch.

(7) *Signing.* At least one copy of each brief shall be signed in ink, by the respondent or his duly authorized attorney, as prescribed in § 2.12.

(c) *Oral arguments.* Oral arguments before the Commission shall be had as ordered, on written application of the chief counsel of the Commission, or of the respondent, or of attorney for respondent, filed within fifteen (15) days after filing of brief on behalf of respondent.

Appearance of additional counsel in a case will not constitute grounds for enlarging time for oral argument.

Oral arguments before the Commission shall be reported stenographically unless otherwise ordered by the Commission.

§ 2.25 *Reports showing compliance with orders and with stipulations.* In every case where an order to cease and desist is issued by the Commission for the purpose of preventing violations of law and in every instance where the Commission approves and accepts a stipulation in which a party agrees to cease and desist from the unlawful methods, acts, or practices involved, the respondents named in such orders and the parties so stipulating shall file with the Commission, within sixty days of the service of such order and within sixty days of the approval of such stipulation, a report, in writing, setting forth in detail the manner and form in which they have complied with said order or with said stipulation; *Provided, however,* That if within the said sixty (60) day period respondent shall file petition for review in a circuit court of appeals, the time for filing report of compliance will begin to run de novo from the final judicial determination; *And provided further,* That where the order prevents the use of a false advertisement of a food, drug, device, or cosmetic, which may be injurious to health because of results from such use under the conditions prescribed in the advertisement, or under such conditions as are customary or usual, or if the use of such advertisement is with intent to defraud or mislead, an interim report stating whether and how respondents intend to comply shall be filed within ten days.

Within its sound discretion, the Commission may require any respondent upon whom such order has been served and any party entering into such stipulation, to file with the Commission, from time to time thereafter, further reports in writing, setting forth in detail the manner and form in which they are complying with said order or with said stipulation.

Reports of compliance shall be signed in ink by respondents or by the parties stipulating.

§ 2.26 *Reopening proceedings.* In any case where an order to cease and desist or an order dismissing a proceeding has been issued by the Commission, the Comission may (a) in the case of an order to cease and desist, at any time until the transcript of the record in the proceeding has been filed in a circuit court of appeals of the United States upon a petition for review or enforcement, or after the expiration of the statutory time for filing of a petition for review where no such petition has been filed, or (b) in the case of an order dismissing a proceeding at any time thereafter, give reasonable notice to all respondents and to all intervenors, if any, of a hearing as to whether the said proceeding should be reopened. If after said hearing the Commission shall have reason to believe that conditions of fact or of law have so changed since the said order was made as to require, or that the public interest requires, the reopening of such proceeding, the Commission will issue an order for the reopening of the same.

§ 2.27 *Trade practice conference procedure*—(a) *Purpose.* The trade practice conference procedure has for its purpose the establishment, by the Commission, of trade practice rules in the interest of industry and the purchasing public. This procedure affords opportunity for voluntary participation by industry groups or other interested parties in the formulation of rules to provide for elimination or pevention of unfair methods of competition, unfair or deceptive acts or practices and other illegal trade practices. They may also include provisions to foster and promote fair competitive conditions and to establish standards of ethical business practices in harmony with public policy. No provision or rule, however, may be approved by the Commission which sanctions a practice contrary to law or which may aid or abet a practice contrary to law.

(b) *When authorized.* Trade practice conference proceedings may be authorized by the Commission upon its own motion or upon application therefor whenever such proceedings appear to the Commission to be in the interest of the public. In authorizing proceedings, the Commission may consider whether such proceedings appear to have possibilities (1) of constructively advancing the best interests of industry on sound competitive principles in consonance with public policy, or (2) of bringing about more adequate or equitable observance of laws under which the Commission has jurisdiction, or (3) of otherwise protecting or advancing the public interest.

(c) *Application.* Application for a trade practice conference may be filed with the Commission by any interested person, party or group. Such application shall be in writing and be signed by the applicant or the duly authorized representative of the applicant or group desiring such conference. The following information, to the extent known to the applicant, shall be furnished with such application or in a supplement thereto:

(1) A brief description of the industry, trade, or subject to be treated.

(2) The kind and character of the products involved.

(3) The size or extent and the divisions of the industry or trade groups concerned.

(4) The estimated total annual volume of production or sales of the commodities involved.

(5) List of membership of the industry or trade groups concerned in the matter.

(6) A brief statement of the acts, practices, methods of competition or other trade practices desired to be considered, or drafts of suggested trade practice rules.

(d) *Informal discussions with members of the Commission's staff.* Any interested person or group may, upon request, be granted opportunity to confer in respect to any proposed trade practice conference with the Commission's trade practice conference division, either prior or subsequent to the filing of any such application. They may also submit any pertinent data or information which they desire to have considered. Such submission shall be made during such period of time as the Commission or its duly authorized official may designate.

(e) *Industry conferences.* Reasonable public notice of the time and place of any such authorized conference shall be issued by the Commission. A member of the Commission or of its staff shall have charge of the conference and shall conduct the conference pursuant to direction of the Commission and in such manner as will facilitate the proceeding and afford appropriate consideration of matters properly coming before the conference. A transcript of the conference proceedings shall be made, which, together with all rules, resolutions, modifications, amendments or other matters offered, shall be filed in the office of the Commission and submitted for its consideration.

(f) *Public hearing on proposed rules.* Before final approval by the Commission of rules for an industry, and upon such reasonable public notice as to the Commission seems appropriate, further opportunity shall be afforded by the Commission to all interested persons, corporations or other organizations, including consumers, to submit in writing relevant suggestions or objections and to appear and be heard at a designated time and place.

(g) *Promulgation of rules.* When trade practice rules shall have been finally approved and received by the Commission, they shall be promulgated by official order of the Commission and published, pursuant to law, in the FEDERAL REGISTER. Said rules shall become operative thirty (30) days from date of promulgation or at such other time as may be specified by the Commission. Copies of the final rules shall be made available at the office of the Commission. Under the procedure of Commission a copy of the trade practice rules as promulgated by the Commission is sent to each member of the industry whose name and address is available, together with an acceptance form providing opportunity to such member to signify his intention to observe the rules in the conduct of his business.

(h) *Violations.* Complaints as to the use, by any person, corporation or other organization, of any act, practice or method inhibited by the rules may be made to the Commission by any person having information thereof. Such complaints, if warranted by the facts and the law, will receive the attention of the Commission in accordance with the law. In addition, the Commission may act upon its own motion in proceeding against the use of any act, practice or method contrary to law.

§ 2.28 *Public information.* The rules of practice of the Commission, and such amendments as may be made thereto, shall be published in the FEDERAL REGISTER and may be obtained from the Commission upon application.

The findings, conclusions of law, and final orders of the Commission in respective formal proceedings and a digest of accepted stipulations to desist from unlawful practices shall be published in the official reports of the Commission.

Trade practice conference rules for respective industries, issued under § 2.27 may be obtained upon application to the Commission and shall be published in the FEDERAL REGISTER.

Information concerning the activities of the Commission will be released from time to time under the direction or pursuant to the authority of the Commission.

In proceedings instituted by the issuance of formal complaint, the pleadings, transcript of testimony, exhibits, and all documents received in evidence or made a part of the record therein shall be available for inspection and copying by the public at the convenience of the Commission.

Documents, records, and reports made public by the Commission, including stipulations to cease and desist, certain trade practice conference records, and certain papers filed under the Wool Products Labeling Act, shall be available for inspection and copying at the convenience of the Commission.

The records and files of the Commission, and all documents, memoranda, correspondence, exhibits, and information of whatever nature, other than the documentary matters above described, coming into the possession or within the knowledge of the Commission or any of its officers or employees in the discharge of their official duties, are confidential, and none of such material or information may be disclosed, divulged, or produced for inspection or copying except under the following circumstances:

Upon good cause shown, the Commission may by order direct that certain records, files, papers, or information be disclosed to a particular applicant.

(a) Application by a member of the public for such disclosure shall be in writing, under oath, setting forth (1) the interest of the applicant in the subject matter; (2) a description of the specific information, files, documents, or other material inspection of which is requested; (3) whether copies are desired; and (4) the purpose for which the information or material, or copies, will be

used if the application is granted. Upon receipt of such an application the Commission will take such action thereupon as it shall deem expedient in the public interest.

(b) In the event that confidential material is desired for inspection, copying, or use by some agency of the Federal or a State Government, a request therefor may be made by the administrative head of such agency. Such request shall be in writing, and shall describe the information or material desired, its relevancy to the work and function of such agency and, if the production of documents or records or the taking of copies thereof is asked, the use which is intended to be made of them. The Commission will consider and act upon such requests, having due regard to the public interest and questions of expediency.

In cases in which an officer or employee of the Commission has been lawfully served with a subpoena duces tecum, material designated herein as confidential shall be produced only when and as authorized by the Commission. Service of such a subpoena shall immediately be reported to the Commission with a statement of all relevant facts. The Commission will thereupon enter such order or give such instructions as it shall deem advisable in the premises. PART 1010—SUSPENSION ORDERS

[Suspension Order S-941]

MILTON SEELIG

Milton Seelig of 3300 Netherland Avenue, Riverdale, Bronx, New York, is a civil engineer and is engaged in building construction on his own account. On or after March 27, 1946, without authorization from National Housing Administration or the Civilian Production Administration, he began the construction of a family residence located at Netherland Avenue between 252d and 254th Streets, Riverdale, Bronx, New York, at an estimated cost of $17,000, which amount exceeded the $400 limit permitted by Veterans Housing Program Order No. 1. The beginning and carrying on of this construction without authorization constituted a violation of Veterans Housing Program Order No. 1.

This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing facts, it is hereby ordered that:

§ 1010.941 *Suspension Order No. S-941.* (a) Neither Milton Seelig, his successors and assigns, nor any other person shall do any further construction on the premises located on Netherland Avenue between 252d and 254th Streets, Riverdale, Bronx, New York, including putting up, completing or altering the structure, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Nothing contained in this order shall be deemed to relieve Milton Seelig, his successors or assigns, from any restriction, prohibition or provision contained in any order of the Civilian Production Administration except insofar as the same may be consistent with the provisions hereof.

Issued this 24th day of June 1946.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-942]

CHOICE LIQUOR, INC.

Choice Liquor, Inc., is a corporation engaged in the sale and dispensing of liquor, with its present place of business at 3512 Westfield Avenue, Camden, New Jersey. Benjamin Asbell is the President and Rubin Ginsberg is the Secretary and Treasurer of the corporation. E. S. Phillips is a building contractor engaged principally in the construction of buildings in Camden, New Jersey and vicinity. On March 28, 1946, without authorization from the Civilian Production Administration, E. S. Phillips, on behalf of the Choice Liquor, Inc., began the construction of a cafe at the southeast corner of 36th Street and Westfield Avenue, Camden, New Jersey, at an estimated cost of $30,000, which amount exceeded the limit permitted by Order Veterans' Housing Program Order No. 1 for such construction. The beginning and carrying on of this construction without authorization from the Civilian Production Administration constituted a violation of the Veterans' Housing Program Order No. 1.

This violation has diverted critical material to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.942 *Suspension Order No. S–942.* (a) Neither Choice Liquor, Inc., Benjamin Asbell, Rubin Ginsberg, E. S. Phillips, their successors or assigns, nor any other person, shall do any construction on the premises located at the southeast corner of 36th Street and Westfield Avenue, Camden, New Jersey, including completing, putting up or the altering of any structure on the premises, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Nothing contained in this order shall be deemed to relieve Choice Liquor, Inc., Benjamin Asbell, Rubin Ginsberg, E. S. Phillips, their successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, as Amended June 25, 1946]

RESTRICTED PRIORITIES ASSISTANCE FOR NON-MILITARY PURPOSES

§ 944.49 *Priorities Regulation 28*—(a) *Background and purpose of this regulation.* With the exception of certain areas of critical shortages, such as the housing and apparel fields, the increased supply of many materials resulting from reduction in military procurement is generally adequate to meet demands. It is the declared policy of the Civilian Production Administration to remove priority controls as quickly as possible. In view of this situation and policy, the issuance of preference ratings by the CPA will be restricted to a minimum. Outside the areas of critical shortages mentioned above, limited priorities assistance may be given for non-military purposes only in specific instances where the need is clearly demonstrated as necessary to assist reconversion or insure the continued fulfillment of essential civilian or export needs. This regulation describes the conditions under which CC ratings will be assigned in such cases, except for textile fabrics or yarns for use in the United States which are covered by Priorities Regulation 28A.

Paragraph (b) below lists other regulations and orders which explain the assignment and use of preference ratings for purposes not covered by this regulation. Paragraph (c) states how applications should be filed under this regulation for use in this country. Paragraph (d) gives the general rules governing the assignment of such ratings, and paragraphs (e) through (h) cover the special situations where these ratings may be granted. Paragraph (i) explains how CC ratings are granted for export.

(b) *Other procedures for assigning ratings.* Priorities Regulation 1 explains in general the rating system, including the sequence of ratings and the purposes for which AAA and MM ratings are assigned. In addition, Priorities Regulation 28A, and certain orders in the M–317 and M–328 series, explain the assignment of CC ratings for certain textiles and related items, and Priorities Regulation 33 explains the assignment of HH ratings for housing.

(c) *How to apply for a CC rating.* Applications for a CC rating under this regulation for uses in the United States, its territories and possessions, should be made on Form CPA–541A addressed to the Civilian Production Administration, Washington 25, D. C., Ref: PR–28. Applications for textile yarns and fabrics covered by Priorities Regulation 28A should be made in accordance with that regulation, and applications for other textiles and related items for certain end uses should be made as explained in orders in the M–317 and M–328 series.

(d) *When the Civilian Production Administration will assign a CC rating under this regulation.* (1) When effective assistance of other kinds is not practicable (CPA may locate sources able to ship without ratings), CC ratings may be granted for specific items and quantities of materials in the limited classes of cases described in paragraphs (e) through (h) below, upon determination in each instance that all the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable;

(ii) Reasonable efforts have been made to get the required item without a rating; and

(iii) A rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and material available without a rating.

(2) In the case of production materials and operating supplies, the CPA will not generally assign ratings for more than a 60-day supply of the item in question. This 60-day limitation does not preclude later applications.

(3) Preference ratings will not be assigned for the procurement of items which will be resold without change in form.

(4) The CPA will not grant a CC rating under this regulation where it would preempt an undue proportion of the limited amounts of material available. If the material is in such short supply that it is generally hard to obtain the CPA may provide other procedures rather than a rating under this regulation.

(5) CC ratings will be denied where it appears that the item for which the rating is requested is available under different terms of sale or from a supplier other than the applicant's customary one.

(6) In certain cases, the assignment of CC ratings is governed by or forbidden by other orders of CPA. Thus, no CC ratings will be assigned for items on List A of Priorities Regulation 3, or for iron or steel during the effective period of Direction 13 to Priorities Regulation 1. However, CPA may in a few circumstances authorize the placing of a "certified order" for steel as explained in Direction 12 to Order M–21.

(7) Where it appears that a CC rating assigned under this regulation will have an undue impact on a single source of supply, the Civilian Production Administration may limit the amount of materials or equipment that may be ordered with the rating from a single source or ordered for delivery during one period of time.

(e) *Critical products.* The CPA may assign a CC rating as explained in Schedule I to this regulation to get material which is needed to sustain or increase production of an item or service listed on that Schedule which the CPA has determined to be in such tight supply that it is a serious threat to the economy.

(f) *Production materials, capital equipment and MRO.* Under the conditions stated in paragraph (d), the CPA may grant a CC rating to get production materials, capital equipment or maintenance, repair, and operating supplies (MRO) in the following cases:

(1) The CPA may assign a CC rating to get a "bottleneck" item where a great majority of the materials or of the equipment needed is on hand or is obtainable without priorities assistance and it is demonstrated that failure to receive it in the quantity and on the date requested will prevent an entire plant from beginning, resuming or maintaining operations at the minimum economic rate. The "minimum economic rate" of operation means the rate of operation at which the plant as a whole must operate to avoid incurring a financial loss, without regard to any particular product if the plant makes more than one. If a plant is currently operating at less than capacity without incurring a financial loss, the minimum economic rate of operation will not be considered a higher rate than the current one, even though some of the plant's regular products are not currently being produced.

(2) Special consideration, not limited to bottleneck items, will be given to the needs of small business and to the business needs of World War II Veterans up to the minimum economic rate of operation. For this purpose "small business" generally means a business in which not more than 250 persons are actively employed. A veteran who wants to get farm machinery or equipment listed in War Food Order 135 of the Department of Agriculture for use on a farm should apply under that order for a veterans' preference certificate. No farmer should apply under this regulation for such farm machinery or equipment unless he qualifies under paragraph (h) (4) below.

NOTE: Subparagraph (3) formerly subparagraph (4), redesignated June 25, 1946. Former subparagraph (3) deleted June 25, 1946.

(3) CC ratings, however, will not be ordinarily assigned under this paragraph (f) for specialized machinery or equipment designed and made solely for the production of a critical product listed in Schedule I to this regulation. CC ratings for such machinery and equipment will be assigned only under the criteria stated in paragraph (h) below, as it is considered that such specialized machinery or equipment will be used to better advantage for maximum production of critical products if it is sold through normal channels of distribution to the greatest extent possible.

(g) *Construction.* Under the conditions stated in paragraph (d), the CPA may assign CC ratings to get construction material and equipment in the following cases:

(1) A bottleneck item which is needed to complete non-housing construction, and which is to be physically incorporated in the structure. CC ratings will not be assigned under this paragraph (g) (1) for any materials listed on Schedule A to Priorities Regulation 33.

(2) An item of material not listed on Schedule A to Priorities Regulation 33 which will be physically incorporated in a dwelling and is needed to make the dwelling habitable.

(3) A person applying for a CC rating to get construction materials or equipment must show on his application Form CPA–541A that approval for the project has been granted on Form CPA–4386 or CPA–4423, or that the construction is exempt under Veterans Housing Program Order No. 1.

(h) *Additional assistance in special cases.* Paragraphs (e) through (g) state the provisions under which CC ratings will be given in most situations with the special restrictions and considerations applicable to those situations. In addition, under the conditions in paragraph (d) but without regard to special conditions in paragraphs (e) through (g), the CPA may grant a CC rating under this regulation to get material in the following cases:

(1) The item is needed to prevent a delay in the completion on time of military procurement, production or construction; or

(2) The item is needed for incorporation into a product to be delivered on a CC or HH rating, and the item is not on hand or available on order; or

(3) The item is needed for use by the applicant to eliminate serious hazard to the life, health or safety of a large number of people, or to maintain or establish essential public or other community service; or

(4) The item is essential to replace one which has been destroyed by flood, fire, tornado or other act of God, and the item (i) is to be used on a farm, or (ii) is essential to the continued operation of a plant, facility or service at the minimum economic rate; or

(5) The item is essential to the continued operation of a plant, facility or service at the minimum economic rate and is shown to fall in one of the following cases:

(i) It is needed in an emergency to replace equipment which has actually broken down and cannot be repaired; or

(ii) It is needed to replace equipment which is subject to recurring mechanical breakdowns and is out of service so frequently as to impede operations; or

(iii) It is needed to replace equipment which has been condemned as unsafe or illegal by public authority or insurance underwriters and which cannot be repaired and must be replaced under requirements of law or insurance contracts; or

(6) The item is needed as a repair part to prevent imminent breakdown of machinery or equipment; or

(7) Failure to obtain delivery of the item would result in exceptional community hardship or in unreasonable and exceptional hardship not suffered generally by others in the same industry or activity.

(8) The item is needed for emergency requirements for veterans educational facilities.

(9) The item is required to complete construction or equipment of a plant required for industrial food manufacturing, processing, packaging preservation and storage (except soft drinks, alcoholic beverages and chewing gum). CC ratings will ordinarily be granted for this purpose only where vital for famine relief, or processing or storage of this year's crops. Restaurants, hotels, retail stores and farms are not included in this category.

(i) *CC Ratings for export*—(1) *General.* In the case of materials for export (other than certain textiles and related items referred to in paragraph (i) (2) below), applications from Canada should be filed with the Priorities Officer of Canada, and will be handled on the same basis as United States applications. In the case of other exports, upon demonstration that a rating is required, a CC rating may be assigned for procurement in this country of materials for export to prevent serious injury to the minimum essential civilian economies of friendly foreign nations; or to aid in the restoration, development and maintenance of foreign sources of supplies vitally needed in this country; or for other reasons of public policy. Applications for such ratings should be made to the Office of International Trade, Department of Commerce on the forms prescribed by that agency.

(2) *Certain textiles and related items.* For exports, including shipments to Canada, of cotton broad woven fabrics for which set-asides are provided in the distribution schedules of Order M–317A, seine twine, fish netting, and cotton yarn, CC ratings may be granted, on specific applications only, to the extent of the export programs fixed by the CPA. Applications for such ratings should be made to the Office of International Trade, Department of Commerce, on the forms prescribed by that Agency; except that for shipments to Canada, applications should be filed with the Cotton Administrator of the Wartime Prices and Trade Board and will be acted on by the CPA.

PART 1369—METAL ORES

[RMPR 113, Amdt. 3]

IRON ORE PRODUCED IN MINNESOTA, WISCONSIN OR MICHIGAN

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Article II is amended to read as follows:

ARTICLE II—MAXIMUM PRICES AND ADJUSTMENTS

SEC. 7. *Maximum prices.* The maximum prices set forth herein may be charged for ore shipped on and after June 24, 1946, and for ore covered by adjustable pricing agreements authorized by Order No. 8 under Revised Maximum Price Regulation No. 113.

(a) *Standard ores*—(1) *Mesabi non-Bessemer.* The maximum Lake Erie price for Mesabi non-Bessemer ore having an iron content, natural, of 51.50% shall be $5.05 per gross ton delivered at Lower Lake ports.

(2) *Other standard ores.* The maximum Lake Erie prices per gross ton for standard ores, other than Mesabi non-Bessemer, having an iron content, natural of 51.50% and delivered at lower Lake ports shall be:

Mesabi Bessemer	$5.20
Old range non-Bessemer	5.30
Old range Bessemer	5.45
High phosphorus	5.05

(3) The maximum prices established in this paragraph (a) shall be adjusted for variations in iron, phosphorus and silica content in accordance with the provisions of section 8.

(b) *Special ores*—(1) *Manganiferous ore.* The maximum Lake Erie price per gross ton for manganiferous ore delivered at Lower Lake ports shall be the sum obtained by multiplying the combined natural iron and manganese analyses of such ore by the single Old Range non-Bessemer unit value of $0.10291 and adding thereto $0.15 for each unit of natural manganese in excess of 5%.

(2) *Siliceous ore.* The maximum price for siliceous ore shall be $3.20 per gross ton delivered at Lower Lake ports. Adjustments for low phosphorus content shall be made in accordance with section 8 (b).

(3) *Lump ore.* The maximum Lake Erie price for lump ore having an iron content, natural, of 51.50% shall be $5.30, plus $0.90 for lump quality, per gross ton delivered at Lower Lake ports. Adjustments for variations in iron content shall be made upon the basis of unit value of $0.12039.

(4) *Other special ores.* Such ores include off-grade and premium ores not specifically named in this paragraph (b). The maximum prices for each such ore shall be:

(i) The sum of:

(*a*) The seller's 1941 weighted average spot price for the ore or the price which was approved by the Office of Price Administration before the issuance of this regulation, plus

(*b*) The difference between the seller's 1941 weighted average spot price for standard ore and the maximum price established by this regulation for such standard ore.

(ii) If a maximum price cannot be determined under (i), the price established by the Office of Price Administration upon application by the seller. Such application may be made by letter addressed to the Metals Price Branch, Office of Price Admnistration, Washington, D. C., and shall contain a full description and analysis of the ore for which a maximum price is requested. The maximum price established by the Office of Price Administration pursuant to such application shall be in line with the maximum prices established by this regulation for other ores.

(c) *Ore sold for delivery other than at Lower Lake ports.* (1) When ore is sold for delivery at the mine, railroad weights shall govern and there shall be deducted from the maximum prices established by this regulation an amount equal to the total of:

(i) Upper Lake rail freight at the established rate for the mode of transportation customarily employed;

(ii) Lake freight to Lower Lake ports at the established rate for the mode of transportation customarily employed: *Provided,* That increases in such rates occurring in 1943 shall not be included unless actually paid;

(iii) A sum equal to the transportation tax computed on such Upper Lake rail and Lake freight; and

(iv) The sum of $0.05 per gross ton.

(2) When ore is sold for delivery at Upper Lake ports, vessel bill of lading weights shall govern and there shall be deducted from the maximum prices established by this regulation an amount equal to the total of:

(i) Lake freight to Lower Lake ports at the established rate for the mode of transportation customarily employed: *Provided,* That increases in such rates occurring in 1943 shall not be included unless actually paid;

(ii) A sum equal to the transportation tax computed on such Lake freight; and

(iii) The sum of $0.03 per gross ton: *Provided, however,* That in the case of lump ore, railroad weights minus 0.5 shall govern and an amount equal to the total of (i), (ii) and (iii) shall be deducted from the maximum prices established by this regulation.

(d) *Exchanges.* Exchanges of iron ore between producers, or between consumers, shall not be considered as sales under Revised Maximum Price Regulation No. 113. Producers making exchanges with consumers shall keep for a period of two years records showing: the names and addresses of the persons making the exchanges; the tonnages, names and classifications or grades; full analyses and guarantees (if any); the period within which the exchange is to be completed; the places and terms of delivery; and, if the exchange is on a basis of dollars value, the prices of the ores exchanged calculated to a Lower Lake Erie base.

(e) *Escalation clauses.* Provisions in contracts for the sale and delivery of iron ore which permit escalation or increases in prices shall be operative only to the extent that the prices so determined do not exceed the maximum prices established by this regulation.

SEC. 8. *Adjustments*—(a) *Differentials for variations in iron content.* The differentials for adjusting prices for variations in iron content, natural, of standard ores shall be the established unit values determined by dividing the maximum Lake Erie price for the particular standard ore by 51.50. The following table sets forth the unit values for the respective standard ores:

	Maximum Lake Erie price per gross ton	Unit value
Mesabi non-Bessemer	$5.05	0.0980
Mesabi Bessemer	5.20	.1007
Old range non-Bessemer	5.30	.1029
Old range Bessemer	5.45	.1058
High phosphorus	5.05	.0980

(1) When less than 51.50% and not less than 50.00% iron, deduct from the maximum Lake Erie price at the rate of one unit value for each unit or fraction thereof.

(2) When less than 50.00% and not less than 49.00% iron: from the price computed for 50.00% iron deduct at the rate of one and half times the unit value for the unit or fraction of a unit less than 50.00%.

(3) When less than 49.00% iron, deduct from the price computed for 49.00% iron at the rate of two times the unit value for each unit or fraction of a unit or iron less than 49.00%.

(4) When iron content exceeds 51.50%, add to the maximum Lake Erie price at the rate of one unit value for each unit or fraction of a unit of iron above 51.50%.

(b) *Premiums for low phosphorus content.* Bessemer ore is ore which contains not more than 0.045% phosphorus, dry. Premiums for phosphorus content less than 0.045% shall not exceed those set forth in the following standard phosphorus table:

Percent of phosphorus	Rate of progression	Phosphorus values

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[RMPR 187,[1] Amdt. 8 (§ 1347.401)]

CERTAIN PAPERBOARD PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 187 is amended in the following respects:

1. In section 1 (c) (1) a sentence is added at the end of subdivision (iii) to read as follows: "The provisions of this subdivision (iii) are not applicable where a manufacturer is computing his maximum price for corrugated fibre sheets, corrugated fibre boxes, solid fibre sheets, solid fibre boxes, pads, partitions and other corrugated and solid fibre paperboard products manufactured on the same converting equipment.

2. In section 1 (c) (3), a new subdivision (x) is added to read as follows:

(x) Notwithstanding the provisions of subdivisions (i) to (ix), inclusive, of this subparagraph (3), a manufacturer of corrugated fibre sheets, corrugated fibre boxes, solid fibre sheets, solid fibre boxes, pads, partitions and other corrugated and solid fibre paperboard products manufactured on the same converting equipment shall compute margin as defined in section 11 of RMPR 187 in the following manner:

(*a*) The manufacturer shall list separately all transactions in which the commodity was contracted to be sold during either March, 1946 or the first quarter of 1946, at his option, in order of the total square footage of each transaction, commencing with the transaction involving the largest square footage: *Provided, however,* That the listing shall not include any sales of commodities from a price list pursuant to Appendix A of this regulation. For the purposes of this subdivision a manufacturer shall determine what sales constitute separate transactions in accordance with the same practice he used in March 1946 or the first quarter of 1946 for computing margins on sales. For example, if he computed margin on each item in an invoice, each may be considered a separate transaction; or if he computed margin on several items invoiced as a unit, the sale of the unit is to be considered a separate transaction.

(*b*) After the transactions have been listed in the manner set forth in (*a*) above, the manufacturer shall list opposite the square footage of each transaction in separate columns, (*1*) the corresponding dollar-and-cent margin used, and (2) the cost of the raw materials used in estimating and the conversion charges applied, expressed in dollars and cents. If in the past margins have been computed on a percentage basis, the dollar value of the margins should be computed for each transaction for the purpose of this subdivision.

(*c*) After completing the listing in the manner prescribed in (*a*) and (*b*) above, the manufacturer shall separate the transactions into three categories of square footage by dividing the total square footage involved by three. Each of the resulting categories shall contain approximately the same square footage except that if the square footage in either of the two transactions at the dividing points in the list of transactions falls into two categories, it shall be permissible to include the total square footage of that transaction in the category in which a majority of its square footage falls.

(*d*) In each category of transactions the applicable margins and the costs of raw materials used in estimating and

conversion charges applied shall be totaled separately.

(e) To obtain the per cent of margin to be applied to all the transactions falling within the square footage classification of the particular category, the manufacturer shall divide the total dollar value of the margins used in that category by the total cost of the raw materials used in estimating and the conversion charges applied. Thereafter, the manufacturer may use a margin factor which does not exceed the appropriate percentage obtained by this method in computing the margin on all sales of the commodity which fall within each of the classifications as determined by the square footage involved in the transaction.

(f) If, after computing margins pursuant to subdivisions (a) to (e), inclusive, the manufacturer finds that the use of such margins will cause him to suffer substantial administrative hardship in their application to his transactions because of the unusual character of the quantitative distribution of the commodity among his customers or other unusual circumstances, he shall file with the Paper and Paper Products Branch, Office of Price Administration, Washington 25, D. C., an application for approval of a method of averaging margins which takes into consideration such unusual circumstances and is as nearly similar to the method set forth in subdivisions (a) to (e) as possible.

3. In section 6(b), a new subdivision (iii) is added to subparagraph (1) to read as follows:

(iii) Within 15 days from July 1, 1946, every manufacturer of corrugated fibre sheets, corrugated fibre boxes, solid fibre sheets, solid fibre boxes, pads, partitions and other corrugated and solid fibre paperboard products manufactured on the same converting equipment shall file with the Paper and Paper Products Branch, Office of Price Administration, Washington 25, D. C., his margins as calculated pursuant to section 1 (c) (3) (x) of this regulation and complete data with respect to the computation of the margins as well as the method used in determining a transaction to supplement his pricing formula already on file with the Office of Price Administration. The manufacturer may use such margins as soon as he files them, but until such margins have been approved by the Office of Price Administration, all prices charged which have been based on such margins shall be billed by the manufacturer subject to adjustment by him to conform with the margins established by the Office of Price Administration. Unless the Office of Price Administration or a duly authorized representative thereof shall, by letter order mailed to the applicant within 21 days from the filing of the margins approve, reject, adjust, amend, or extend the time within which to do any of the foregoing, such margins shall be deemed to have been approved subject to nonretroactive written rejection or adjustment at any later time by the Office of Price Administration.

4. In Appendix A a new paragraph (d) is added to read as follows:

(d) A manufacturer of corrugated fibre sheets, corrugated fibre boxes, solid fibre sheets, solid fibre boxes, pads, partitions and other corrugated and solid fibre paperboard products manufactured on the same converting equipment may add to a price established pursuant to paragraphs (a), (b) or (c) on or before June 30, 1946, an amount not in excess of 10% of such price.

5. In Appendix B (a) (1) the table of prices is amended to read as follows:

Style:	*Per box*
P. P.	$0.12
Single	.13
30–2	.19
30–3	.20
30–4	.21

This amendment shall become effective July 1, 1946.

NOTE: The reporting provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 25th day of June 1946.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 2, Amdt. 9 to Rev. Supp. 3]

BARLEY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

The first two undesignated paragraphs of section 9 are amended to read as follows.

SEC. 9. *Maximum prices for sales by country shippers.* "Country shipper" is defined in section 5 (b) (7) as a person who purchases and receives the barley from a producer at any point, other than a terminal base point, in any quantity, before any movement by rail or barge, and delivers it to his customer at a point which is neither on the farm where grown, nor at roadside near such farm, and delivers it in any manner other than as a trucker-merchant or a retailer.

This section sets forth the maximum prices for the ordinary "country shipper" marketing transactions. If, however, your transaction is a sale and delivery of malting barley or pearling barley, you may add 1¼ cents per bushel to the maximum price which would otherwise apply under this section, but in that case you are subject to all the rules and restrictions set forth in section 2.7 of Food Products Regulation No. 2. This extra markup for malting barley and pearling barley is not subject to the limitation on mark-ups provided in section 12 of this supplement. To the prices determined under this section, you may be entitled to add various charges which you may incur, or allowances for special handling of the barley, under the rules provided in section 13. Subject to such additions, the maximum prices per bushel, bulk, for sales by a country shipper, are as follows:

This amendment shall become effective July 1, 1946.

Issued this 25th day of June 1946.

PAUL A. PORTER,
Administrator.

Sec.
10. Modification of provisions of this regulation.
11. Provisions of Article III of Territorial Consumer Goods Regulation No. 1 applicable to this supplement.

ARTICLE I—EXPLANATION OF THE SUPPLEMENT

SECTION 1. *Explanation of the supplement.* (a) This supplement covers all new consumer type radio receivers and electric phonographs. This includes, among others, articles such as household, portable, and automobile receivers (including television receivers); electrically amplified phonographs, wired or wireless record players, sound recording and reproducing devices, alone or in combination with a radio receiver; as well as chassis for those articles. The articles covered by this supplement are referred to as "radios."

SEC. 2. *Applicability of Territorial Consumer Goods Regulation No. 1.* (a) The provisions of Territorial Consumer Goods Regulation No. 1 which are applicable to this supplement are listed by section number in appropriate places in the following provisions and they are just as much a part of this supplement as if they were printed here in full. In addition, the "explanation of the regulation" contained in Territorial Consumer Goods Regulation No. 1 is also a part of this supplement. When any applicable section of Territorial Consumer Goods Regulation No. 1 is amended, the amendment also is applicable to this supplement.

If a particular section of Territorial Consumer Goods Regulation No. 1 is not listed by section number in the following provisions as being applicable to this supplement, it, of course, has no effect here.

SEC. 3. *Definitions.* (a) When used in this supplement, the term:

(1) "Manufacturer" means the person who makes the first sale of radio, including any person who ordinarily operates as a distributor or dealer.

(2) "Distributor" means any person who buys radios and resells them in the same form to persons other than consumers.

(3) "Dealer" means a person who buys radios and resells them in the same form to consumers. Dealers who purchase from a Hawaiian distributor are classified in two groups:

(i) Group I—dealers to whom the distributor sells in the largest dollar volume and who belong to the class which enjoyed the maximum discount in customary pre-war practice.

(ii) Group II—includes all dealers who do not fall in Group I.

(4) "Person" includes an individual, corporation, or any other organized group, their legal successors or representatives.

(5) "Factory price to distributors" is the manufacturer's maximum price f. o. b. factory to distributors (exclusive of Federal Tax).

(6) "Classes of radios" are radios which are grouped according to their factory price to distributors or their retail ceiling price as follows:

(i) Radios grouped according to their factory price to distributors f. o. b. factory (exclusive of Federal tax);

Class I—Where the factory price is less than $41.01.

Class II—Where the factory price is more than $41.00 but less than $31.01.

Class III—Where the factory price is more than $31.00.

(ii) Radios grouped according to their retail ceiling price (including Federal Tax) when bought through a distributor:

Class I—Where the retail ceiling price in Zone I is less than $20.25 and in Zone II less than $21.26.

Class II—Where the retail ceiling price in Zone I is more than $20.24 but less than $60.77 and in Zone II, more than $21.25 but less than $63.81.

Class III—Where the retail ceiling price in Zone I is more than $60.76 and in Zone II more than $63.80.

(iii) Radios grouped according to their retail ceiling price (including Federal Tax) when bought by a dealer direct from a manufacturer:

Class I—Where the retail ceiling price in Zone I is less than $20.25 and in Zone II less than $21.26.

Class II—Where the retail ceiling price in Zone I is more than $20.24 but less than $60.77, and in Zone II more than $21.25 but less than $63.81.

Class III (a)—Where the retail ceiling price in Zone I is more than $60.76 and less than $270.01 and in Zone II is more than $63.80 and less than $283.51.

Class III (b)—Where the retail ceiling price in Zone I is more than $270.00 and in Zone II more than $283.50.

(7) "Landing costs" include the amounts permitted in the following subdivisions, when actually incurred by the purchaser. (If any of the amounts or any part thereof, specified in any of these subdivisions has already been included in another subdivision, it may not again be added.)

(i) An amount equal to the transportation charges for transportation from the factory to the mainland port of shipment (including Federal Transportation tax and terminal charges) not in excess of public (common or contract) carrier rates.

(ii) An amount equal to mainland storage charges and insurance in connection therewith, not in excess of three months' charges.

(iii) An amount equal to cartage charges for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(iv) An amount equal to charges for ocean freight, war risk and marine insurance and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading.

(v) An amount equal to cartage charges for cartage from dock to the establishment of purchaser, not in excess of public (common or contract) carrier rate or rates established by any applicable price regulation: *Provided;* That the commodity is moved from the dock at the purchaser's expense.

In cases where the article has been shipped from one island to another in the Territory of Hawaii, the transportation costs incurred in shipment from the establishment of the seller to the establishment of the buyer may be added to the maximum distributor's and dealer's prices as computed under sections 5 and 6 of this supplement. The transportation costs incurred for one inter-island shipment only may be added to the maximum price and not for any subsequent inter-island shipment.

(8) Zone I is that area of the following two in which the radio is manufactured. Zone II is that area of the following two in which the radio is *not* manufactured.

(i) One area consists of the states of Arizona, New Mexico, California, Washington, Oregon, Idaho, Nevada, Utah, Colorado, Wyoming, Montana and the following counties in Texas: El Paso, Hudspeth, Culberson, Jeff Davis, Presidio, Brewster, Terrell, Pecos and Reeves.

(ii) The other area consists of the remaining counties of Texas, all the other states in the United States and the District of Columbia.

SEC. 4. *Revocation of certain maximum prices.* Regardless of any provisions of the General Maximum Price Regulation for the Territory of Hawaii, Revised Maximum Price Regulation 373, or any written approval or order previously issued thereunder by the Office of Price Administration, all maximum prices established prior to the effective date of this supplement for radios are hereby revoked. New maximum prices for sales and deliveries of these commodities on and after the effective date of this supplement must be established in accordance with the applicable sections of this supplement.

ARTICLE II—PRICING PROVISIONS

SEC. 5. *Maximum prices for sales by distributors.* (a) The distributor's maximum prices for the sale of radios in the Territory of Hawaii, f. o. b. distributor's warehouse, are calculated as follows (for meaning "factory price to distributors" see sec. 3 (a) (5)):

(1) For sales to Group I dealers, multiply the sum of the factory price to distributors (exclusive of Federal Tax) plus the "landing costs" by the following multiplication factors, and then add to the result the Federal Tax deducted above:

(i) For Class I by 1.20.
(ii) For Class II by 1.23.
(iii) For Class III by 1.27.

(2) For sales to Group II dealers, multiply the sum of the factory price to distributors (exclusive of Federal Tax) plus the "landing costs" by the following multiplication factors, and then add to the result the Federal Tax deducted above.

(i) For Class I by 1.25.
(ii) For Class II by 1.27.
(iii) For Class III by 1.33.

(3) Where a maximum price at wholesale has been established under this supplement for a shipment of radios and where "landing costs" on a subsequent shipment do not vary more than 2% up or down, a new price need not be established. Where the "landing costs" vary more than 2% up or down, new prices must be established.

(4) If the distributor furnishes any delivery to the dealer, he may bill the dealer in a separate item on the invoice for such delivery charges not in excess of public (common or contract) carrier rates or rates established by any applicable price regulation.

SEC. 6. *Maximum prices for sales by dealers.* (a) Dealers' maximum prices for the sale of radios bought from a distributor must be furnished by the distributor and are calculated as follows:

(1) Add to the mainland Zone I retail ceiling price which is tagged on the radio the following amounts:

(i) For Class I—Landing costs multiplied by 1.74.
(ii) For Class II—Landing costs multiplied by 1.86.
(iii) For Class III—Landing costs multiplied by 2.05.

(b) Dealers' maximum prices for the sale of radios bought from a manufacturer are calculated as follows:

(1) Add to the mainland Zone I retail ceiling price which is tagged on the radios the following amounts:

(i) For Class I—Landing costs multiplied by 1.49.
(ii) For Class II—Landing costs multiplied by 1.62.
(iii) For Class III (a)—Landing costs multiplied by 1.70.
(iv) For Class III (b)—Landing costs multiplied by 1.90.

(c) If a Zone II retail ceiling price only is tagged on the radio, limit the "landing costs" to subdivisions (iii), (iv) and (v) of section 3 (a) (7) to apply the above multiplication factors.

(d) The Territorial gross income tax may be added to the maximum retail price computed under (a), (b) and (c) above.

(e) To the maximum retail price computed under (a), (b), (c) and (d) above may be added any delivery charge appearing on the wholesaler's invoice and actually charged the retailer. Subject to the limitations contained in section 11 below, there may also be added any charge actually incurred by the retailer for delivery to a customer at a rate not in excess of the public (common or contract) carrier rate or rates established by any applicable price regulation.

SEC. 7. *Provisions of Article II of Territorial Consumer Goods Regulation No. 1, applicable to this supplement.* The following provisions of Territorial Consumer Goods Regulation No. 1 are applicable to this supplement:

(a) Maximum prices for commodities covered by an applicable supplement which cannot be priced because of the seller's inability to determine his maximum price under the applicable pricing provision contained in such supplement. (Section 2.2)

(b) Treatment of Federal and Territorial Taxes. (Section 2.7)

ARTICLE III—MISCELLANEOUS PROVISIONS

SEC. 8. *Sales invoices.* (a) Every distributor must furnish each purchaser of radios for resale with an invoice or similar written evidence of purchase showing the following:

(1) Name of seller and purchaser and date of sale.

(2) Model number or other identification of each radio sold.

(3) Hawaiian distributor's maximum price (including Federal Excise Tax).

(4) Any delivery charges to retail establishment charged by the distributor not in excess of public (common or contract) carrier rates, as permitted under section 3 (a) (7) (v) above.

SEC. 9. *Certain practices forbidden.* It shall be a violation of this supplement to charge a price above the applicable maximum price in connection with any sale of a radio, either alone or in conjunction with any other consideration even though the price increase appears only indirectly.

The following is illustrative of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of a radio, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts, or services so as to increase the total compensation above the radio's ceiling price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring, or trading in any other radio, product or commodity. Where there is an exchange transfer or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the radio, product or commodity exchange, transferred, or traded in, which is less than its reasonable value.

FEDERAL TRADE COMMISSION.

[Docket No. 5446]

JACQUES KREISLER MFG. CORP.

NOTICE OF HEARING

In the matter of Jacques Kreisler Manufacturing Corporation, a corporation, Jacques Kreisler, President, and Tobias Stern, Secretary and Treasurer, of Jacques Kreisler Manufacturing Corporation.

Complaint. The Federal Trade Commission, having reason to believe that the parties respondent named in the caption hereof, and hereinafter more particularly designated and described, since June 19, 1936 have violated and are now violating the provisions of subsection (a), section 2 of the Clayton Act, as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. Title 15, Sec. 13), hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondent, Jacques Kreisler Manufacturing Corporation, is a corporation organized and existing under the laws of the State of New Jersey with principal office and place of business located at 9015 Bergenline Avenue, North Bergen, New Jersey.

PAR. 2. Respondent, Jacques Kreisler, is the president, and respondent, Tobias Stern, is the secretary and treasurer of the respondent, Jacques Kreisler Manufacturing Corporation.

PAR. 3. Respondents are now, and have been since prior to June 19, 1936, engaged in the business of manufacturing jewelry products which they distribute and sell to retail jewelers located throughout the various states of the United States other than the State of New Jersey, causing said jewelry products, when sold, to be transported from the place of manufacture within said State of New Jersey to the purchasers thereof located in states other than the State of New Jersey. There is, and has been at all times herein

mentioned, a continuous current of trade and commerce in said jewelry products across state lines between respondents' factory and the purchasers of such products. Said jewelry products are distributed and sold for use, consumption and resale within the various states of the United States and the District of Columbia.

PAR. 4. Respondents, in the course and conduct of their business since June 19, 1936, have been and are now in substantial competition with other corporations, individuals, partnerships and firms engaged in the business of manufacturing, distributing, and selling jewelry products in commerce between and among the various states of the United States and the District of Columbia. Respondents' sales of jewelry products in 1945 amounted to approximately $2,500,000.

PAR. 5. In the course and conduct of their business, as aforesaid, since June 19, 1936, respondents have been, and are now, discriminating in price between different purchasers of their jewelry products of like grade and quality, which products are sold by respondents for use, consumption and resale within the various states of the United States, in that respondents have been, and are now, selling such products to some of their purchasers at lower prices than the prices given or allowed by respondents to other purchasers competitively engaged with the favored customers.

Respondents' discriminations in prices have included the granting and allowing certain purchasers larger discounts from list prices in the form of cash or credit invoices than those given or allowed by respondents to other purchasers. The extent of said discriminations in prices varies from differentials of 2½% to 25% from the list prices.

PAR. 6. Respondents, in early 1939, initiated and made effective their so-called "Kreisler Retro-Active Quantity Discount Plan". Under said Plan, customers of respondents were given and allowed a retroactive quantity discount based upon their total purchases of jewelry products during the calendar year as follows:

	Percent
$500	2½
$750	5
$1,000	7½
$1,500	10
$2,500	12½
$3,500	15
$5,500	17½
$7,500	20
$11,250	22½
$15,000 or over	25

Many of respondents' customers do not qualify to earn any retroactive quantity discounts; other customers qualify to earn a retroactive quantity discount from 2½% to 25%. Whether a customer qualifies to earn such a discount or not, respondents' methods in soliciting and receiving orders from all customers is the same. Respondents' salesmen customarily call on the customers at their respective and geographically separated places of business throughout the country and solicit and receive orders; such orders are transmitted to respondents who invoice and ship the merchandise to the purchasers at their respective places of business.

Many of respondents' customers are members of or affiliated with so-called chain organizations or other group buying organizations; even though such customers are separate, distinct and independent legal and business entities, doing business with respondents as aforesaid, respondents treat all the purchasers who are members of or affiliated with each such chain or group buying organization collectively, as constituting the purchases of a single customer, and grant to each of said customers the retroactive quantity discount which respondents have determined are applicable to a single purchaser who purchases the amount purchased by all collective members of each of the respective chain or group buying organization.

Respondents, on all purchases of solid gold jewelry, limit the customer to a maximum cumulative discount of 10% even though the total purchases of such products would place the customer in a higher discount bracket. However, the customer's purchases of solid gold jewelry are figured into the customer's total annual purchases of all jewelry products and thus the customer will receive a higher cumulative discount on the non-solid gold products.

Respondents, under their said retroactive discount plan, pay said discounts at the end of a calendar year in the form of a check or a letter of credit. One half of the discount earned is paid by the respondents, the other half is borne by the salesman covering the territory in which the customer is located. In 1945 approximately $141,510.82 was paid out under the said retroactive discount plan. Respondents made a special exception in connection with the purchases of three large retail customers by allowing the discount to be deducted from each purchase, viz., Kay Jewelry Stores, Washington, D. C. was allowed to deduct a discount of 25% from each invoice; Busch Credit Jewelers, Pittsburgh, Pa. and Finlay Strauss Stores, New York, N. Y., were allowed respectively to deduct a discount of 20% from each invoice. Under this special arrangement an adjustment would be made at the end of the calendar year if the said customers were entitled to a greater or a lesser discount. In the year 1945: Kay Jewelry Stores and Finlay Strauss Stores earned the discounts so deducted; Busch Credit Jewelers earned a discount of 25% and an adjustment was so made.

The following are representative of respondents' customers who received a retroactive discount for 1944, the percent of discount allowed and the actual amount of discount paid:

Name, City and State, Percent and Discount	
Lewis Jewelry Co., Cleveland, Ohio, 15	$588.68
Checel Jewelry Co., Cleveland, Ohio, 7½	107.49
Associated Barr Stores, Philadelphia, Pa., 17½	1,071.78
J. E. Caldwell Co., Philadelphia, Pa., 2½	13.20
R. Harris & Co., Washington, D. C., 5	494.59
Benson Jewelry Co., Washington, D. C., 5	40.90
Roberts Credit Jewelers, Inc., Baltimore, Md., 15	620.09
Reliable Store Corp., Baltimore, Md., 20	1,690.45
George Gerber Co., Providence, R. I., 15	699.92
Baird-North, Inc., Providence, R. I., 7½	77.24
Markson Bros., Boston, Mass., 15	807.20
Homer's, Inc., Boston, Mass., 7½	83.48
B. Spector & Bros., Inc., New Haven, Conn., 17½	1,010.55
Sykes & Libby, New Haven, Conn., 5	44.90
Moses Dyckman, New York, N. Y., 22½	1,542.13
Home Jewelry Co., New York, N. Y., 10	167.94

PAR. 7. The effect of the discriminations in prices as hereinabove set forth may be substantially to lessen competition in the sale and distribution of jewelry products in the respective lines of commerce in which respondents and their customers are engaged, and has been, and may be, to injure, destroy or prevent competition in the sale and distribution of said products with the respondents and with their customers who receive the benefits of such discriminatory prices.

Such discriminatory prices by the respondents between different purchasers of jewelry products of like grade and quality in interstate commerce in the manner and form aforesaid are in violation of the provisions of subsection (a) of section 2 of the Clayton Act described in the preamble hereof.

Wherefore, the premises considered, the Federal Trade Commission on this 17th day of June A. D. 1946, issued its complaint against said respondent.

Notice. OFFICE OF PRICE ADMINISTRATION.

[Rev. SO 119, Order 265]

STIMPSON COMPUTING SCALE CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Stimpson Computing Scale Company, Logan and Breckinridge Streets, Louisville 4, Ky., may compute its adjusted ceiling prices for the meat choppers, mail scales and counter computing scales which it manufactures, as follows:

(1) For mail scale in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 15.0%.

(2) For meat choppers and counter computing scales in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 15.2%.

(3) For a meat chopper, mail scale or counter computing scale not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular scale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(4) For a meat chopper, mail scale or counter computing scale which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(5) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

The adjustment charge determined in accordance with this order must be separately stated by the manufacturer on each invoice to a purchaser for resale.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjusted charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he had paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage markup which he has on the "most comparable article" for which he has properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under Section 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

The provisions of Supplementary Order No. 153 shall not apply to resale prices determined under this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 25th day of June 1946.

Issued this 24th day of June 1946.

PAUL A. PORTER,
Administrator.

[Rev. SO 119, 2d Rev. Order 51]

DURHAM MFG. CO.

ADJUSTMENT OF MAXIMUM PRICES

Revised Order No. 51 under Revised Supplementary Order No. 119 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Durham Manufacturing Company, Muncie, Ind., may compute its adjusted ceiling prices for all articles of metal household furniture which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 4.3 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this revised order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this revised order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this revised order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this revised order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this revised order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price" the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iii) Both it and the article being priced were purchased from the same class of supplier.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this revised order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this revised order.

(c) *Terms of sale.* Ceiling prices adjusted by this revised order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, on and after the effective date of this revised order showing prices adjusted in accordance with this revised order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this revised order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this revised order are hereby denied.

(f) This revised order may be revoked or amended by the Price Administrator at any time.

(g) This revised order shall become effective June 24, 1946.

Issued this 24th day of June 1946.

PAUL A. PORTER,
Administrator.

It is the policy of the Solid Fuels Administration for War to authorize shipment of bituminous coal on the U. S. Treasury Department's export program only from those mines which have demonstrated to the satisfaction of SFAW that the coal loaded at such mines is of a merchantable quality.

C., the total tonnage shipped from each mine on the authorization during the period.

No change of or departure from the terms of any authorization may be made, except upon written approval of the Washington Office of SFAW.

The furnishing of any false or misleading information in connection with the submission of any offer, or the shipment of coal found not to be in substantial conformity with the representations made, may result in the immediate cancellation of any unfilled portions of the authorization, the rejection of the shipment before dumping into vessels, and the withholding of any future authorizations.

Any offer submitted will be given consideration only if it is accompanied by the following information:

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 6, as Amended June 26, 1946]

USE OF HH RATINGS FOR COMMON AND FACE BRICK AND COMMON AND FACE STRUCTURAL TILE IN THE VETERANS' EMERGENCY HOUSING PROGRAM

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of building materials and building supplies for defense, for private account and for export; and the following direction is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) *Purpose of this direction.* Priorities Regulation 33 provides for the assignment to builders of HH preference ratings to secure materials listed on Schedule A of that regulation, which are required for use in the Veterans' Emergency Housing Program. Among these are common and face brick and common and face structural tile. This direction explains the use of the HH rating and also what the restrictions are in connection with the shipment of brick and tile by producers and dealers.

(b) *Definitions.* For the purpose of this direction:

(1) "Brick" means common and face clay brick of any size or type. Refractory brick is not included.

(2) "Tile" means common and face structural tile.

(3) "Producer" means a person owning or operating facilities in which brick or tile are manufactured.

(4) "Dealer" means a person who buys brick or tile for resale as such.

(c) *Extendibility of HH ratings.* A person, other than a producer, who receives an HH rated order for brick or tile may extend the rating to get the brick or tile which he will deliver on that order. A producer who receives an HH rated order for brick or tile may not extend the rating.

(d) *Producers to ship 60% of production against HH orders.* (1) A producer must accept and fill rated orders (AAA, MM, CC and HH) for brick and tile in accordance with the provisions of Priorities Regulation 1, subject to the following rule: A producer must accept during any calendar month, in preference to all other rated orders, except AAA, all HH rated orders which he receives before the 20th day of the month calling for shipment during that month up to 60% of his scheduled production of brick and 60% of his scheduled production of tile for that month. No producer, however, is required to accept HH rated orders for more than this percentage of his production of brick or tile in any month. This Direction does not require any set-aside of brick or tile by a producer.

(2) If an HH rated order is received after the 20th day of the month in which shipment is required, or if at least 60% of that month's scheduled production has been shipped or is scheduled for shipment on HH orders, then the producer need not accept the HH order. But he must promptly notify his customer telling him approximately when he could make the shipment, based on the requirement of paragraph (d) (1) above.

(e) *Producers and dealers may refuse HH orders from purchasers outside their areas.* A producer or dealer may refuse to accept an order for brick or tile bearing an HH rating offered to him for use on Veterans' Emergency Housing projects in any area to which he has not delivered brick or tile in the five years preceding receipt of that order. A new producer or dealer may not apply this basis for refusal to accept HH rated orders for use in his local trading area.

(f) *Dealers' handling of HH rated orders.* A dealer must accept and fill rated orders (AAA, MM, CC and HH) for brick and tile in accordance with Priorities Regulation 1. However, if he receives a supply of brick or tile for which he did not extend ratings and if he places that supply in his yard inventory, he need not use more than 20% of that supply to fill HH rated orders. HH ratings on orders filled from that supply must not be extended by the dealer to get replacements.

(g) *Exclusive sales arrangements.* A producer who has an arrangement, made before June 26, 1946, for the sale of all, or substantially all, of his production of brick or tile to a single dealer, may sell pursuant to that arrangement and without regard to paragraph (d) of this direction. However, in such a case, the dealer becomes subject to the producers' provisions in this direction, just as if he were a producer.

(h) *Calculations of quantities.* Quantities of brick should be figured in thousands. Quantities of tile should be figured in short tons.

Issued this 26th day of June 1946.

Recording Secretary.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 7, as Amended June 26, 1946]

USE OF HH RATINGS FOR CONCRETE BLOCKS IN THE VETERANS' EMERGENCY HOUSING PROGRAM

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of building materials and building supplies for defense, for private account and for export; and the following direction is deemed necessary and appropriate in the public interest and to promote the national defense.

(a) *Purpose of this direction.* Priorities Regulation 33 provides for the assignment to builders of HH preference ratings to secure materials listed on Schedule A of that regulation, which are required for use in the Veterans' Emergency Housing Program. Among these are concrete blocks. This direction explains the use of the HH rating and also what the restrictions are in connection with the shipment of concrete blocks by producers and dealers.

(b) *Definitions.* For the purposes of this direction:

(1) "Producer" means a person owning or operating facilities in which concrete blocks are manufactured.

(2) "Dealer" means a person who buys concrete blocks for resale as such.

NOTE: Subparagraph (3) formerly subparagraph (2) redesignated June 26, 1946.

(3) "Concrete blocks" means light weight and heavy weight aggregate concrete blocks. Light weight aggregate includes such materials as cinders, burned clay or shale, and blast furnace slag. Heavy weight aggregate includes such materials as sand, gravel, and crushed stone.

(c) *Extendibility of HH ratings.* A person, other than a producer, who receives an HH rated order for concrete blocks may extend the rating to get the concrete blocks which he will deliver on that order. A producer who receives an HH rated order for concrete blocks may not extend the rating.

(d) *Producers to ship 60% of production against HH orders.* (1) A producer must accept and fill rated orders (AAA, MM, CC and HH) for concrete blocks in accordance with the provisions of Priorities Regulation 1, subject to the following rule: A producer must accept during any calendar month, in preference to all other rated orders, except AAA, all TT rated orders which he receives before the 20th day of the month calling for shipment during that month up to 60% of his scheduled production of concrete blocks for that month. No producer, however, is required to accept HH rated orders for more than this percentage of his production of concrete blocks in any month. This direction does not require any set-aside of concrete blocks by a producer.

(2) If an HH rated order is received after the 20th day of the month in which shipment is required, or if at least 60% of that month's scheduled production has been shipped or is scheduled for shipment on HH orders, then the producer need not accept the HH order. But he must promptly notify his customer telling him approximately when he could make the shipment, based on the requirement of paragraph (d) (1) above.

(e) *Producers and dealers may refuse HH orders from purchasers outside their areas.* A producer or dealer may refuse to accept an order for concrete blocks bearing an HH rating offered to him for use on Veterans' Emergency Housing projects in any area to which he has not delivered concrete blocks in the five years preceding receipt of that order. A new producer or dealer may not apply this basis for refusal to accept HH rated orders for use in his local trading area.

(f) *Dealers' handling of HH rated orders.* A dealer must accept and fill rated orders (AAA, MM, CC and HH) for concrete blocks in accordance with Priorities Regulation 1. However, if he receives a supply of concrete blocks for which he did not extend ratings and if he places that supply in his yard inventory, he need not use more than 20% of that supply to fill HH rated orders. HH ratings on orders filled from that supply must not be extended by the dealer to get replacements.

(g) *Exclusive sales arrangements.* A producer who has an arrangement, made before June 26, 1946, for the sale of all, or substantially all, of his production of concrete blocks to a single dealer, may sell pursuant to that arrangement and without regard to paragraph (d) of this direction. However, in such a case, the dealer becomes subject to the producers' provisions in this direction, just as if he were a producer.

(h) *Calculations of quantities.* Quantities of concrete blocks should be figured in thousands (8 x 8 x 16 equivalent).

PART 1349—ELECTRICAL GENERATION, TRANSMISSION, CONVERSION AND DISTRIBUTION APPARATUS

[MPR 82, Amdt. 12]

WIRE AND CABLE

A statement of the considerations involved in the issuance of this amendment has been filed with the Division of the Federal Register.

The example in section 16 (h) (1) is amended to read as follows:

Example: Assume that on June 3, 1946, the OPA effectuates an industry-wide increase of 3¢ per pound in the price of lead. Assume that the maximum net price of the applicable lead covered cable would be 1,000 dollars for each 1,000 feet without considering the provisions of this paragraph, and further assume the inside diameter of the lead sheath to be one inch, with the thickness of the lead sheath being one-fourth of an inch. The amount the manufacturer may add to the aforesaid net price would be obtained as follows:

$177 \times (\frac{1}{4} \pm 1) \times \frac{1}{4} \times 3$, or $165.93, which, when rounded out to the nearest ten cents, becomes $165.90.

The new maximum net price therefore becomes $1,165.90 for the thousand feet.

This amendment shall become effective July 1, 1946.

Issued this 26th day of June 1946.

[Reg. 20,[1] Order 1]

PART 8320—SURPLUS MARINE INDUSTRIAL REAL PROPERTY

APPROVING DELEGATION OF DISPOSAL AUTHORITY TO NAVY DEPARTMENT WITH RESPECT TO SHIPYARDS AT SEATTLE, WASH., AND AUTHORIZING EXCHANGE OF INTERESTS WITH TODD SHIPYARDS CORPORATION IN SHIPYARDS AT TACOMA, WASH.

It is represented by the Bureau of Ships, Navy Department, that under facilities contract designated NObs-48 the Government has heretofore provided certain ship-repair facilities having a total estimated cost of $5,887,750 as additions to a shipyard owned and operated by Todd Shipyards Corporation, at Seattle, Washington. Such facilities so provided include two floating drydocks, a parcel of land, and buildings, machinery, and equipment located partly on contractor-owned land, and partly on the Government-owned land.

It is further represented that pursuant to another facilities contract designated

[1] SPA Reg. 16 (10 F.R. 14204, 14628, 14866; 11 F.R. 2603, 4164, 4585).

[2] SPA Rev. Reg. 10 (11 F.R. 949, 2713, 3302, 4868).

[1] SPA Reg. 20 (11 F.R. 162, 561, 3302).

NObs–779, the Government has provided certain shipbuilding facilities having a total estimated cost of $14,374,747 as additions to a shipyard owned and operated by Todd Shipyards Corporation and its wholly-owned subsidiary, Todd Pacific Shipyards, at Tacoma, Washington. The latter facilities include eight parcels of land, and building ways, piers, buildings, machinery, and equipment located partly on contractor-owned land and partly on the Government-owned land.

It is further represented by the Bureau of Ships that the Todd Shipyards Corporation, under its contract with the Government, has a valid option to acquire the Government's interest on all of the installations at the Seattle shipyard, except the drydocks, and has indicated its intention of exercising its option. The Bureau of Ships desires to acquire the interest of Todd Shipyards Corporation at Tacoma in order that the Navy Department may have the full ownership of that installation as a permanent naval establishment. The Bureau of Ships does not desire to retain the Government's interest in the Seattle property.

Negotiations heretofore carried on between the representatives of the Bureau of Ships and the Todd Shipyards Corporation indicate that an exchange of interests may be effected by negotiation, which will afford the Government full ownership of the Tacoma shipyards, and the Todd Shipyards Corporation the full ownership of the Seattle shipyards; and the Bureau of Ships has requested that authority be given to effectuate the same.

Pursuant to the authority of the Surplus Property Act of 1944 (58 Stat. 765; 50 U. S. C. App. Sup. 1611), Public Law 181, 79th Congress, 1st Session (59 Stat. 533), Executive Order 9689 (11 F.R. 1265), and Public Law 375, 79th Congress, 2d Session, *It is hereby ordered*, That:

1. Upon a declaration of surplus by the Navy Department of the Government's interest in the Seattle shipyards, subject to the option in favor of the Todd Shipyards Corporation; and upon notice by the Todd Shipyards Corporation of its election to exercise its option to acquire the Government's interest therein, approval is hereby given to War Assets Administration to delegate the disposal functions with respect to said Government's interest in said shipyards to the Navy Department.

2. Upon a delegation made by the War Assets Administration to the Navy Department of a disposal authority with respect to the Seattle shipyards, the Navy Department shall establish its estimate of the fair value of the Government's interest in the Seattle shipyards, and also its estimate of the fair value of the interest of the Todd Shipyards Corporation in the Tacoma shipyards, which estimates shall be reported to the War Assets Administration for approval.

3. The Navy Department, under its delegation from the War Assets Administration, if it determines that the Todd Shipyards Corporation has a valid option on said property, may dispose of the Government's interest in the Seattle shipyards to said corporation in pursuance of the terms of its option; and, pursuant to the provisions of section 15 of the Surplus Property Act of 1944, if it deems it to be in the interest of the Government, is authorized to accept in exchange for said property the interest of the Todd Shipyards Corporation in the Tacoma shipyards, with an appropriate adjustment for any difference in the fair values of said properties, so that the Government will receive the fair value of its property in the Seattle shipyards, the Todd Shipyards Corporation paying in cash any sum by which the fair value of the Government's interest in the Seattle shipyards exceeds the fair value of the Todd Shipyards Corporation's interest in the Tacoma shipyards.

4. After acquiring the interest of the Todd Shipyards Corporation in the Tacoma shipyards, the Navy Department, under the delegation of authority, may effect a transfer of said property to the Navy Department upon its payment of the fair value thereof to the War Assets Administration.

5. Any cash payment by Todd Shipyards Corporation representing the excess value as provided by paragraph 3 hereof, and funds representing the fair value of the interest acquired by the Navy Department in the Tacoma shipyards, shall be deposited in the War Assets Administration Special Fund Account in the Treasury of the United States.

6. A complete statement of the proposed disposal of the Government's interest in the Seattle shipyards to the Todd Shipyards Corporation shall be made available to the Attorney General before the transaction is completed in compliance with the provisions of section 20 of the act.

7. When the transaction is completed the Navy Department shall make a full report thereof to the War Assets Administration.

This order shall become effective June 21, 1946.

E. B. GREGORY,
Administrator.

Exhibit A: List of production equipment in short supply.

AUTHORITY: §§ 8321.1 to 8321.13, inclusive, issued under the Surplus Property Act of 1944 (58 Stat. 765; 50 U.S.C. App. Sup. 1611), Public Law 181, 79th Cong., 1st Sess. (59 Stat. 533), Executive Order 9689 (11 F.R. 1265), and Pub. Law 375, 79th Cong., 2d Sess.

§ 8321.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Production materials" as used in this part means those raw or semi-finished materials which are themselves generally employed in the fabrication of end products or incorporated therein. Such materials customarily move from a manufacturer to an industrial user or distributor whose function combines that of a wholesaler and retailer. "Production materials" does not include finished products which may be incorporated in end products but customarily move to the consumer through wholesalers and retailers. These latter products are governed by the pricing and distribution policy provided for in Revised Special Order 24.[1]

(2) "Production equipment" means machine tools, plant equipment and attachments thereto except land and buildings, whether located in Government-owned or privately owned plants or property.

(3) "Facilities contract" means a lease, rental agreement, or other contract or contract provision, specifically governing the acquisition, use, or disposition of Government-owned machinery, tools, building installations, or other property furnished to or acquired by a war contractor for any war production purpose except incorporation in end products.

(4) "Small business" means any commercial, industrial, or manufacturing enterprise or group of enterprises, under common ownership and control, which does not on the date of acquisition of any property pursuant to this part have more than five hundred (500) employees, or any such enterprise which by reason of its relative size and position in a particular industry is determined by the War Assets Administration to be a small business.

(5) "Integrated plant" means land, buildings, and production equipment capable of operation as a complete unit.

§ 8321.2 *Scope.* This part applies to disposals of production materials and production equipment as contractor inventory, or pursuant to the provisions of other applicable regulations of the Administrator, located in the continental United States, its territories and possessions, except disposals to priority claimants as provided in Part 8302[2] and nonprofit institutions and instrumentalities as provided in Part 8314.[3]

§ 8321.3 *Basic policy.* The Congressional policy announced by the Surplus Property Act of 1944 is to discourage monopolistic practices, to foster wide distribution of surplus commodities to consumers at fair prices, and to strengthen and preserve the competitive position of small business concerns by utilizing normal channels of trade to the extent consistent with efficient and economical distribution of property. This part is intended to implement that policy by providing a method for the pricing and distribution of production materials and production equipment as defined herein, and in the case of production equipment in short supply, to limit effectively inequitable distribution which may occur by reason of advantages now enjoyed by war contractors in possession of such production equipment under facilities contracts containing options or other purchase rights by which such contractors may acquire title to production equipment on specified terms or on terms to be negotiated, including the right of first refusal as well as the right to acquire production equipment in short supply as contractor inventory.

§ 8321.4 *Methods of sale.* (a) Generally, fixed price sales shall be used for national programs, regional sales projects, and sales at the site in preference to all other methods. The fixed price method of sale shall be used when property is in new condition, is available in inventory in large quantities, and is either a standard commercial item or is readily marketable; and may be used whenever property, either new or used, can best be moved by this method. Production equipment which is subject to the fixed price formula provided for in Part 8313[4] shall be disposed of pursuant to the provisions of such part.

(b) Other methods of sale may be used when it is not practicable to use the fixed price method of sale. The following additional standards shall be used as a guide in the choice of these other methods:

(1) *Sealed bid.* The sealed bid method shall be used where the property is a nonstandard commercial item, or is of unknown marketability, or is available only in mixed lots or small quantities.

(2) *Spot sale.* The spot sale method shall be used when rapid clearance of a site is necessary, or when the experience of the disposal agency has shown this to be the best method of disposing of the specific type of property involved. In conducting such sales, fixed prices, competitive bids, or public auction may be used.

(3) *Negotiated sale.* Negotiated sales shall be used:

(i) When the proposed purchaser can perform certain functions necessary to make the property salable, such as repairing, rehabilitating, sorting, grading, or testing, more economically and effectively than the disposal agency or others;

(ii) When the property is non-standard and has no apparent civilian use;

(iii) When the property is such a hazard to health and property as to require immediate disposition;

(iv) When the property will spoil or deteriorate so rapidly as to jeopardize any disposal unless immediately sold;

(v) When another method of sale has proved unsuccessful; or,

(vi) When the property is to be sold to a foreign government at the request of the State Department.

§ 8321.5 *Prices and pricing methods.* In the fixed price method of sale, prices shall be established as close to the current market price as practicable, recognizing that they must be attractive enough to move the property in volume and compensate for any unusual features of the property which may add to the difficulty of reselling. Methods of distributing both production materials and production equipment vary in accordance with the nature of the property and the established commercial practices applicable to different types of property. As a consequence, pricing methods must likewise conform to such trade practices and distribution methods.

(a) *Production materials.* (1) In general, sales of production materials are governed by fixed prices both to ultimate users and to distributors. In the case of most such commodities, the price to the distributor and the user is the same for a specified minimum quantity at which the property may be economically disposed. Consequently, such commodities will be disposed of at one price for one minimum quantity, and only one level of trade shall be applicable. (Examples: commodities which are disposed of in bulk, such as toluene, gasoline and sulfuric acid.)

(2) Certain production materials follow a trade practice whereby the manufacturer sells in a minimum quantity to both the distributor and the user, allowing a discount to the distributor. In such cases a similar discount will be allowed the distributor by the disposal agency. (Example: steel pipe.)

(3) It is recognized that packaging may be a determinant as to whether any particular material is adaptable for sale to ultimate users through the normal channels of trade including wholesalers and retailers, or for sale to industrial users and distributors. For example, turpentine in tank cars is customarily sold to industrial users and distributors while the same material in five (5) gallon containers is customarily sold through wholesalers and retailers. The disposal agency shall determine, in accordance with customary trade practice, and its packaging, whether any particular material is to be disposed of as a production material pursuant to the provisions of this part or as consumer goods under Revised Special Order 24.

(b) *Production equipment.* (1) Sales of production equipment are likewise governed by fixed prices, a substantial portion being subject to the fixed pricing formula provided for in Part 8313. Production equipment subject to such fixed pricing formula normally moves predominantly from the manufacturer to an ultimate user or distributor at a uniform price without a discount.

(2) Production equipment which is not subject to the pricing formula provided for in Part 8313 is governed by fixed prices to ultimate users or distributors as follows:

(i) Much production equipment generally moves from the manufacturer to an industrial user without the intermediate distributive function of a distributor. Such equipment shall be disposed of at a single price for one minimum quantity and without a discount. (Example: large industrial equipment such as furnaces, mills.)

(ii) Certain production equipment is sold by manufacturers in accordance with a trade practice to industrial users and distributors, allowing a discount to the distributor.

(iii) Finally, some industrial equipment is sold by manufacturers only through the regular and established channels of trade. As a consequence, discounts will be permitted to each level of trade for the distributive function performed. (Example: small industrial tools.)

§ 8321.6 *Minimum quantities.* The minimum quantity, i. e., the minimum lot size, which should be offered for sale by the disposal agency should to the extent feasible be a quantity which will enable small independent purchasers to participate. Such minimum quantities may be larger when (a) large quantities of merchandise are packaged in military cartons or in bulk containers and it would be uneconomical to repackage the property to provide for sales in smaller quantities, or (b) it is necessary to consolidate several packages in order to assure an equitable or appropriate distribution of the property to each purchaser.

§ 8321.7 *Precedence for small purchasers.* In any fixed price method of sale when the total supply of a commodity is less than the amount ordered, consideration shall be given to the needs of other purchasers before large quantities are sold to one or a few purchasers. Precedence shall be given to orders received from small purchasers and from distributors who serve small independent purchasers.

§ 8321.8 *Classes of purchasers.* The following conditions shall be observed for the classes of purchasers specified below:

(a) Sales may be made exclusively to the original producer of the surplus property only when the original producer can perform certain necessary functions, such as repairing, rehabilitating, sorting, grading, or testing, more effectively than the disposal agency or others.

(b) Commercial exporters and purchasing commissions representing foreign governments shall be permitted to participate in sales of production materials and production equipment, except that items in critically short supply in the domestic economy may be considered for export only in accordance with the objectives of the act, and made available only when determined to meet such objectives by the Administrator or such other person as he may designate.

(c) Purchasing agents (including resident buyers, commission men, brokers, and other agents) who perform the purchasing function for the principals they represent, shall be permitted to participate in disposals of surplus property. Sales made through these agents shall be made only in the name of the

principal they represent and in program sales and sales at the site, at the level of distribution of the principal. Such agents may be required to present a written authorization from the principal for each purchase.

(d) All purchasers who may participate in program sales shall also be eligible to acquire property offered by any other method.

(e) Ultimate consumers (persons who buy for their own personal use) are not ordinarily expected to purchase surplus property directly from the disposal agency except when such property is offered in suitable lots or units under circumstances which will not complicate the work of disposal; or where sales to ultimate consumers, for example, through rural farm auctions, would be more effective than offerings by other methods.

§ 8321.9 *Disposals of production equipment in short supply by owning agencies.* Production equipment which the Administrator has determined to be in short supply is listed in Exhibit A of this part. Such exhibit may be amended from time to time to reflect changing circumstances in the supply of production equipment. To assure equitable distribution of this type of property, disposal thereof shall be made only pursuant to the conditions prescribed herein.

(a) *Sales to contractors in possession under facilities contracts.* Owning agencies empowered to dispose of plant equipment as contractor inventory to contractors in possession pursuant to the provisions of Part 8306,[5] shall make such disposals only in accord with the following:

(1) No item of production equipment in short supply may be disposed of to a contractor in possession unless at the time of sale, or previously thereto, such contractor has released and waived any and all options or other purchase rights to any and all production equipment, including any rights of first refusal provided for by the particular facilities contract.

(2) Subject only to the provisions of paragraph (a) (3) of this section, a contractor may acquire no more than twenty-five (25) percent in number of each item of production equipment in short supply listed in Exhibit A of this part. In computing such allowance, the base upon which such percentage shall be computed shall include all the items which at the time of sale are owned by the Government under the particular facilities contract, and which are located in the war contractor's plant.

(3) A contractor in possession who is engaged in a small business as defined herein and who desires to acquire for his own use and not for resale production equipment from an owning agency may acquire the production equipment covered by the particular facilities contract without limitations as to short supply items, *Provided*, That the total cost to the Government of the production equipment covered by that particular facilities contract does not exceed $300,000.

(b) *Retention as contractor inventory.* In those cases where contractors, by pretermination agreements or otherwise, have indicated an intention to retain any production equipment pursuant to the provisions of Part 8309[6] and listed in Exhibit A of this part, then in such event, owning agencies shall be governed by the provisions of paragraph (a) of this section notwithstanding that options or other purchase rights do not exist, when such retention is for the use of such equipment by the contractor, *Provided, however*, That retentions for resale by the contractor of any item of production equipment in short supply is not authorized hereunder, and instead such property shall be declared surplus to the appropriate disposal agency pursuant to the applicable regulations of the Administrator.

§ 8321.10 *Disposals of production equipment in short supply by disposal agencies.* (a) In those cases where a contractor seeks to acquire from the disposal agency only a portion of the production equipment acquired by the Government under a facilities contract which provides for options or other purchase rights in the contract, then in such event, and in return for a full release and waiver of any and all options or other purchase rights to any and all production equipment, including the right of first refusal as to all the production equipment covered by such facilities contract, the disposal agency may dispose of not more than twenty-five (25) percent in number of each item of production equipment in short supply as listed in Exhibit A of this part and which are owned by the Government at the time of sale under the particular facilities contract.

(b) In the case of purchasers or lessees of land and buildings being disposed of as industrial or transportation real property pursuant to the provisions of Part 8310,[7] or as airport property pursuant to Part 8316,[8] or as marine industrial real property pursuant to the provisions of Part 8320,[9] and who desire to acquire only a portion of any production equipment located on the premises or used in the operation of any plant situated on such premises, the disposal agency may dispose of production equipment in short supply as listed in Exhibit A of this part and situated on such premises only upon a written representation from the purchaser that he intends to use such equipment in connection with the productive operation of the land and buildings and that he is not purchasing the production equipment in short supply for the purpose of reselling it, directly or indirectly, at a profit.

§ 8321.11 *Disposals of integrated plants.* Whenever an integrated plant is disposed of pursuant to the provisions of Part 8310 or Part 8320, such disposal may include all items of production equipment in short supply which are a part of the integrated plant and located therein, *Provided*, That the purchaser makes a representation in writing that he intends to use such equipment in an integrated plan of operation and that he is not acquiring the production equipment for the purpose of selling it, directly or indirectly, at a profit.

§ 8321.12 *Leases and donations of production equipment in short supply.* Surplus production equipment in short supply as listed in Exhibit A of this part may not be leased by the disposal agency or donated by owning and disposal agencies under the Surplus Property Act, or any other law, for other than instructional purposes without the approval of the Administrator or such other person as he may designate.

§ 8321.13 *Interpretation of fractions.* When determining the number of items of production equipment in short supply hereunder by application of a fixed percentage, fractions shall be disregarded and not included in the amount authorized for any purchaser.

This part shall become effective June 27, 1946.

E. B. GREGORY,
Administrator.

REVOKING PUBLIC LAND ORDERS NOS. 33 AND 150, WITHDRAWING PUBLIC LANDS FOR USE IN CONNECTION WITH THE PROSECUTION OF THE WAR

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943; it is ordered, as follows:

Public Land Order No. 33 of August 20, 1942, and Public Land Order No. 150 of July 17, 1943, withdrawing certain public lands from all forms of appropriation under the public land laws, and reserving such lands for use in connection with the prosecution of the war, are hereby revoked.

This order shall become effective immediately so as to permit the issuance of a coal lease to the Reconstruction Finance Corporation under the provisions of the act of February 25, 1920 (41 Stat. 438, 30 U.S.C. sec. 201), but shall not otherwise become effective to change the status of the lands until 10:00 a. m. on the 63d day from the date on which it is signed. At that time the land shall, subject to valid existing rights, and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) For a period of 90 days, commencing on the day and at the hour named above, the public land affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. sec. 282), subject to the requirements of applicable law, and (2) application under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) For a period of 20 days immediately prior to the beginning of such 90-day period, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on the first day of the 90-day period, shall be treated as simultaneously filed.

(c) Commencing at 10:00 a. m. on the 91st day after the land becomes subject to application, as hereinabove provided, any of the land remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public land laws.

(d) Applications by the general public may be presented during the 20-day period immediately preceding such 91st day, and all such applications, together with those presented at 10:00 a. m. on that day, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for this land, which shall be filed in the District Land Office at Salt Lake City, Utah, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circ. 324, May 22, 1914, 43 L. OFFICE OF PRICE ADMINISTRATION.

[Rev. SO 119, Order 267]

BOETSCH BROS.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Boetsch Brothers, 221 East 144th Street, New York 51, N. Y., may compute its adjusted ceiling prices for portable acoustic phonographs of its manufacture by increasing by 9 percent the ceiling prices to each class of purchaser as established by Maximum Price Regulation No. 188.

As used in this paragraph "ceiling prices as established under Maximum Price Regulation No. 188", shall mean the ceiling prices established under that regulation without the inclusion in those ceiling prices either directly or indirectly of any adjustment, either individual or industry-wide.

(b) *Ceiling prices of purchasers for resale.* (1) A purchaser for resale, who had an established ceiling price prior to the effective date of this order for any article, whose manufacturer's ceiling price was adjusted in accordance with the provisions of this order, may increase that established ceiling price by 9 percent.

(2) A purchaser for resale who had no established ceiling price prior to the effective date of this order for any article whose ceiling price is subject to this order, shall determine his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration, however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the resale ceiling price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted ceiling prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests contained in the application for price adjustment filed by Boetsch Brothers, assigned OPA Docket No. 6069–SO 119–76c, not specifically granted by this order are hereby denied.

(f) The provisions of Supplementary Order No. 153 shall have no application to any sale or delivery of any article subject to this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 26th day of June 1946.

Issued this 25th day of June 1946.

CONTINENTAL CASKET CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simltaneously herewith and filed with the Division of the Federal Register, and pursuant to section 5 of Supplementary Order No. 148, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain caskets manufactured by the Continental Casket Company, 3737 So. Michigan Avenue, Chicago 15, Ill.

(1) For all sales and deliveries of the following caskets by the manufacturer to the class of purchaser indicated below, the adjusted maximum prices are as follows:

Article and Model No.:	*Maximum price to funeral director (each)*
Casket, 1246	$19.93
Casket, 1249	23.55
Casket, 2483	26.21
Casket, 2486	31.50
Casket, 3666–D	32.50

(2) For sales and deliveries by the manufacturer to all other classes of purchasers, the maximum prices are the adjusted maximum prices set forth in paragraph (a) (1), adjusted to reflect the manufacturers' customary differentials for sales to those other classes of purchasers.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to, his supplier.

(2) If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(3) If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(4) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of the article covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Change in resellers' margins.* Resellers' maximum prices adjusted in accordance with this order are subject to further adjustments which may result from any change in resellers' margins which may be effected by the Office of Price Administration to obtain absorption by resellers of any industry-wide increase in manufacturers' maximum prices.

(e) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

The amount of the adjustment in maximum prices granted by this order must be stated separately on invoices to all classes of purchasers, except for sales at retail.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 26th day of June 1946.

Issued this 25th day of June 1946.

PAUL A. PORTER,
Administrator.

[SO 133, Order 57]

FORBERT CORP.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133, it is ordered:

(a) *Manufacturer's maximum prices.* Forbert Corporation, McGaheysville, Virginia, may increase its maximum prices properly established under Maximum Price Regulation No. 188 (exclusive of any adjustment charges) for articles of wood furniture which it manufactures by 20.5 percent of each such maximum price.

(b) *Resellers' ceiling prices.* Resellers of articles which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling price under that regulation as modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price" the reseller shall calculate his ceiling prices by adding to his invoice cost the same percentage mark-up which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section shall reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or, thereafter, properly established under Office of Price Administration regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The manufacturer shall file the report described in section 5 of Supplementary Order No. 133 (which shall include a beginning and ending physical inventory) with the Office of Price Administration, Washington 25, D. C., and shall comply with the invoicing and reporting provisions of Order No. 4800 under Maximum Price Regulation No. 188.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 25th day of June 1946.

Issued this 25th day of June 1946.

Administrator.

department or agency or his designated representative for the employee's or former employee's transfer under Executive Order 9721. A general release for employment elsewhere or a release granted other than for the specific purpose of transfer under Executive Order 9721 shall not be construed as "consent" under Executive Order 9721.

§ 28.3 *Submission of request.* A request for the transfer of an employee or former employee under Executive Order 9721 shall be submitted by the public international organization in writing directly to the agency or department in which such employee is serving or last served.

§ 28.4 *Approval of transfer.* The head of the department or agency concerned or his designated representative shall, if he determines to consent to transfer under Executive Order 9721, give such consent in writing and address it to the requesting public international organization. The letter of consent shall specifically mention that consent is given under Executive Order 9721. A copy of the letter of consent shall be placed in the agency personnel files, and a copy shall be delivered to the transferee. The agency or department concerned may set the date on which the consent becomes valid.

§ 28.5 *Separation from service.* Upon transfer under Executive Order 9721 the employee shall be separated and his "separation by transfer under Executive Order 9721" shall be reported to the Commission on the regular report of personnel changes.

§ 28.6 *Filling vacancy.* The appointment, reassignment, promotion, or transfer of an employee to fill a vacancy created by the transfer of an employee under Executive Order 9721 shall be limited to the return of the specific employee transferred under the order: except that this section shall not apply in any case where the provisions of Section 4 of the order are made applicable to a former employee of a Federal agency serving with a public international organization at the time of issuance of the order, and where the position he left in the agency had already been filled prior to the time the provisions of section 4 of the order were made applicable to him.

§ 28.7 *Acquisition of status.* Any employee who is transferred from a war service indefinite appointment under Executive Order 9721 and who meets the other conditions for acquisition of civil service status under section 2 of Executive Order 9721 shall be deemed to have acquired such status provided those conditions are met on or before May 10, 1949. Determination of status will be made by the Commission on request of a Federal agency or the transferee. Unless all conditions precedent to acquisition of civil service status under section 2 of Executive Order 9721 have been met on or before May 9, 1949, no rights accrue under that section. Determination that such conditions were so met may be made after that date.

§ 28.8 *Reemployment.* An employee transferred under Executive Order 9721 must meet the following conditions in order to have a right to reemployment under that order:

(a) He must have been serving under a probational or permanent civil service appointment prior to such transfer or he must have met the conditions for acquisition of a classified civil service status under section 2 of the order. When reemployment rights depend on acquisition of status under section 2 of the order, request for such determination shall be presented to the Commission by the agency concerned promptly after receipt of application for reemployment, unless such determination was made theretofore.

(b) He must have been terminated without prejudice by the public inter-

national organization to which transferred within three years of the date of his separation for transfer to such international organization or within three years of the date of Executive Order 9721, whichever is later;

(c) He must apply for reemployment to his former agency or department (or its successor) within 90 days of his termination by such international organization.

(d) He must be qualified physically to perform the duties of his former position or one of like seniority, status and pay.

Upon meeting the conditions for reemployment under Executive Order 9721, the transferee's former agency or department (or its successor) shall reemploy him within 30 days of his application for reemployment. Such reemployment shall be in the employee's former position or in a position of like seniority, status and pay.

Upon reemployment under Executive Order 9721, an employee shall be given the seniority and, to the extent consistent with law, the pay to which he would have been entitled had he remained continuously with the agency in his former position. He shall be considered as having civil service status and tenure and shall be given full credit for completion of probation for service in the international organization since acquisition of status. Any sick leave to his credit at the time of his separation for transfer under the order shall be recredited to him.

§ 28.9 *Report to the Commission.* (a) A transfer under Executive Order 9721 shall be reported to the Commission on the regular report of personnel changes. In any case where the provisions of the Executive Order are, with the consent of the Federal agency in which he was formerly employed, made applicable to a former employee of the agency, the action shall be reported as a transfer effective as of the date the employee left the Federal agency to take employment with the public international organization.

(b) A reemployment under Executive Order 9721 shall be reported to the Commission on the regular report of personnel changes.

§ 28.10 *Appeals to the Commission.* There shall be no appeal to the Commission from a denial by the head of the agency or department or his designated representative of transfer under the order. (6) "Filled cream" means any milk, cream, or skim milk, whether or not condensed, evaporated, concentrated, powdered, dried, or desiccated, to which there has been added, or with which there has been blended or compounded, any fat or oil other than milk fat, so that the resulting product is an imitation of cream or in semblance thereof, whether or not such resulting product contains any other ingredient.

(7) "Milk fat," sometimes known as "butterfat," means the fat of milk; the proportionate content of such milk fat in milk or cream to be determined by the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fifth Edition, 1940, page 287, under "Fat, Babcock Method—Official."

(8) "Frozen dairy foods" means any frozen or partially frozen food products (including ice cream, French ice cream, ice milks, milk ices, frozen custards, sherbets, and other similar preparations) containing milk fat and sugar, together with stabilizers, extracts, fruits, nuts, coloring or flavoring materials.

(2) No person shall sell or deliver, except to a handler, any cream or cream product which has been fortified, with, or to which there has been added, or with which there has been blended or compounded, evaporated milk, condensed milk, dried whole milk, or dried skim milk.

(3) No handler shall use any cream or cream product having a milk fat content in excess of 19 percent, except in the processing of milk or cream, in the manufacture of a dairy product, or in the production of filled cream: *Provided*, That any handler may use for all purposes cream having a milk fat content not exceeding by more than 1 percent the minimum milk fat content required by State law or administrative regulation in effect at the time of such use in the State where such use takes place.

(4) Notwithstanding the provisions of (b) (1) and (b) (2) hereof, any person may sell or deliver to any restaurant, hotel, bakery, or similar establishment any cream or cream product having a milk fat content in excess of that permitted by (b) (1) hereof or any cream or cream product of the type described in (b) (2) hereof, if the purchaser certifies in writing to the seller that such cream or cream product is to be used in the manufacture of frozen dairy foods.

(5) No restaurant, hotel, bakery, or similar establishment shall use any cream or cream product having a milk fat content in excess of 19 percent, except in the manufacture of frozen dairy foods: *Provided*, That any such restaurant, hotel, bakery, or similar establishment may use for all purposes cream having a milk fat content not exceeding by more than 1 percent the minimum milk fat content required by State law or administrative regulation in effect at the time of such use in the State where such use takes place.

(2) Upon application by one or more persons in any area or region and after demonstration to the satisfaction of the Administrator that compliance with the provisions of (b) (1) hereof will not tend to conserve milk fat for defense and essential civilian needs, or upon the initiative of the Administrator, the Administrator may grant an exemption from the provisions of (b) (1) hereof to any or all persons in such area or region, or to any or all persons in any area or region specified by the Administrator.

(d) *Audits and inspections.* The Administrator shall be entitled to make such audits or inspections of the books, records and other writings, premises, or stocks of cream, cream products, or filled cream of any person, and to make such investigations as may be necessary or appropriate, in the Administrator's discretion, to the enforcement or administration of the provisions of this order.

(e) *Records and reports.* (1) The Administrator shall be entitled to obtain such additional information from, and to require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Administrator's discretion, to the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Administrator may designate), maintain an accurate record of his transactions in cream and cream products, and filled cream.

(f) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to the Order Administrator, War Food Order No. 149, Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. Petitions for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator on the petition, he shall obtain, by requesting the Order Administrator therefor, a review of such action by the Administrator. The Administrator may, after said review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (f) shall not be construed to deprive the Administrator of authority to consider originally any petition for relief from hardship submitted in accordance herewith. The Administrator may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(g) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using cream or cream products. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

[SO 165 (§ 1305.193)]

IMPORTED HIDES AND SKINS

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

SECTION 1. *Imported hides and skins.* Notwithstanding any other regulation or order of the Office of Price Administration:

[1] 10 F.R. 14954, 15170; 11 F.R. 296, 297, 881, 1102, 1467, 2378, 2640, 2989, 2927, 3247, 3396, 4021, 4090, 4861, 5066, 5353, 5598, 5599, 5539, 5650, 5740, 5868, 5781, 6232.

(a) The maximum price for imported hides or skins applicable both before and after importation to any sale or purchase thereof for delivery to a person within the continental United States and to any such delivery, shall be 105% of the importer's "landed cost".

(b) Except as provided in paragraph (a) above, no maximum price shall apply to the sale or purchase of any foreign hides or skins situated outside the continental United States.

SEC. 2. *Definitions.* The following definitions shall be applicable wherever the words or terms defined are used in this supplementary order:

(a) "Imported hides or skins" means hides or skins originating in, and cured, semi-cured or otherwise treated with a preservative agent, in any country other than the continental United States, and shall include all goat skins and sheep skins specified in Revised Maximum Price Regulation 357.

(b) "Foreign invoice price" means the price charged by the seller-shipper located outside the continental United States for the sale and delivery to a person within the continental United States (irrespective of whether the latter person is the importer), minus any charges included in such price for transportation, marine insurance, war risk insurance, export taxes, customs duties, import taxes, or any other expenses incurred in connection with the movement of commodities from the point of shipment abroad to the point of delivery in the continental United States.

(1) If the foreign invoice price is stated in a foreign currency, it shall be converted into United States dollars at the rate or rates of exchange paid or to be paid.

(2) In case a seller located outside the continental United States imports a commodity into the continental United States and sells it after importation either directly or through an agent its current market selling price minus any foreign taxes not paid on exports prevailing at the place of shipment at the time of shipment shall be used as the foreign invoice price.

(c) "Landed costs" shall be (1) the foreign invoice price plus (2) all costs and expenses, including (i) transportation, (ii) customs duties or import taxes, (iii) other commodity taxes, (iv) customs clearance, (v) dock charges, (vi) insurance, (vii) letter of credit expenses, and (viii) any customary buying commission to a purchasing agent outside the continental United States (or, where the importer maintains, either himself or cooperatively, buying offices abroad, a charge to cover the cost of maintaining such offices determined in the same manner as he customarily employed prior to April 1942) incurred by the importer if customarily incurred in connection with the movement of commodities from the point of shipment abroad to the point of delivery to the importer in the continental United States, except (3) the following: (i) cable charges, (ii) financing costs, (iii) other general overhead costs, (iv) charges incurred in storing the imported commodities in a foreign trade zone, a customs bonded warehouse, or a public warehouse in the continental United States for any period in excess of 60 days and (v) any amounts paid over the foreign invoice price as markups on sales after shipment from the country of origin and before arrival in the continental United States which shall not be included.

Where it is necessary, for the purpose of determining the total landed costs of an item contained in a shipment, transportation, insurance and other costs, except duties or import taxes, may be allocated to the particular item as a percentage average in accordance with customary practice in the trade.

SEC. 3. *Applicability.* This supplementary order shall not apply to any commodity the maximum price of which is determined under Maximum Price Regulation 553, nor to any commodity enumerated in Supplementary Order 126.

This supplementary order shall become effective June 26, 1946.

Issued this 26th day of June 1946.

PART 1305—ADMINISTRATION

[SO 118, Amdt. 16]

RECONVERSION PRICING FOR SMALL VOLUME MANUFACTURERS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order No. 118 is amended in the following respects:

Appendices A, B, C and D are revised to read as follows:

APPENDIX A

This appendix lists "reconversion products." From time to time the Administrator will add other products to this list.

For a product or product line to be listed in this appendix, the Administrator must find

(a) That in 1944 its production was approximately one-half or less of its production in its last representative period of peacetime production;

(b) That this reduction in dollar volume resulted from (1) governmental restrictions on the manufacture of products or on the use of materials, facilities, or manpower, or (2) the use of facilities for the production of war goods, or (3) other direct needs of the war effort.

The Administrator may omit from the list a product which meets the above tests if in his judgment the purposes of the order will be effectuated, as to that product, without its being listed.

The list indicates the commodity price branch of the National Office having jurisdiction over the products listed.

APPENDIX C

Form 611-2489

(Copies of Form 611-2489 may be obtained from any OPA Regional or District Office.)

APPENDIX D

In this appendix there are listed profit factors, each of which represents one-half the average margin over cost for the years 1936-1939 for the industry or industry group designated, as determined by the Administrator. You must use the factor which applies to the product for which you are calculating new maximum prices, wherever the form on which you are calculating them directs you to enter one-half the industry's 1936-1939 profit rate or margin.

The profit factors are collected in two lists. In List I are factors for specified industries. In List 2 are factors for groups of industries. As further studies of specific industries are completed, factors for those industries will be added to List I, and the products made by those industries will thereafter be priced by the List I factor instead of the List 2 factor. If there is a factor in List I which applies to the industry making the product whose ceiling you are adjusting, you must use that factor rather than a factor in List 2 which might otherwise be applicable.

The factors listed in this Appendix will be the subject of continuing review and may be revised from time to time. If you find that a profit factor which you have used in calculating the maximum prices of a product has been increased by such a revision or in connection with the specification of the product in List I, you may apply to your OPA District Office for a recalculation of your maximum prices, using the new factor in place of the factor you originally used.

NOTE: Attention is directed to the fact that the factors listed do not disclose the relative profitability of the industries or industry groups listed. Profitability is measured by rate of return on net worth or investment. This in turn depends not merely on the ratio of the margin between net sales income and total costs to total costs, which is reflected in the listed factors, but also on the rate of turn-over of the product and the net worth of, or investment in, the industry. Thus, an industry with a profit factor of 4.0 may be more profitable than an industry with a profit factor of 8.0.

Attention is also directed to the fact that the inclusion of a profit factor for an industry or an industry group does not necessarily mean that the products made by this industry are eligible for adjustment. A product is eligible for adjustment only if it is listed in Appendix A or B, or covered by one of the regulations listed in section 2.

Supplementary Regulation No. 2 to General Maximum Price Regulation for the Territory of Hawaii is amended by adding a new section 6 to read as follows:

SECTION 6. *Permitted additions to maximum prices in certain cases.* (a) Any seller may increase his maximum price for any commodity covered by the General Maximum Price Regulation for the Territory of Hawaii under the following conditions:

(1) The price at the source of supply on the mainland is increased under authority of an Office of Price Administration regulation or order; and

(2) Under the provisions of such regulation or order (or one related thereto) processors and/or resellers are permitted to increase their maximum prices.

(b) In the foregoing cases revised maximum prices for processors and/or resellers subject to the General Maximum Price Regulation for the Territory of Hawaii shall be arrived at as follows:

(1) Each seller may add to his maximum price established under the General Maximum Price Regulation for the Territory of Hawaii the amount by which the maximum price of the most nearly equivalent class of processors or reseller on the mainland is increased by the aforementioned regulation or order. (Example: A mainland manufacturer of floor wax is given an increase in his maximum price of $0.03 per pound jar, and the Office of Price Administration order in such case provides that wholesalers and retailers may increase their prices by designated amounts. Wholesalers and retailers in the Territory may under this section 6 increase their maximum prices by the same amounts without further authorization from the Territorial Office of the Office of Price Administration.)

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order 77-F]

PART 12—AMATEUR RADIO SERVICE

PART 13—COMMERCIAL RADIO OPERATORS

RENEWAL OF LICENSES

At a session of the Federal Communications Commission, held at its office in Washington, D. C., on the 20th day of June 1946;

Whereas, § 12.27 of the Commission's rules governing amateur radio service and § 13.28 of the Commission's rules governing commercial radio operators require a showing of service or use as a condition precedent to the renewal, respectively, of an amateur or commercial operator license; and

Whereas, the Commission by its Order No. 77-E, dated November 28, 1945, suspended until June 30, 1946 § 12.26 of its former rules governing amateur radio stations and operators (subsequently replaced by § 12.27 of the Commission's rules governing amateur radio service adopted April 1, 1946) and § 13.28 of its rules governing commercial radio operators, insofar as those sections require a showing of service or use as a condition precedent to the renewal, respectively, of an amateur or commercial operator license; and

Whereas, it appears that it would be advisable to extend for an additional period of six months the suspension of the showing of service or use requirement in order to provide a cushion for the full return to normal peace-time procedures;

Now, therefore, it is ordered. That § 12.27 of the Commission's rules govern-

ing amateur radio service and § 13.28 of its rules governing commercial radio operators be, and they hereby are, suspended until further order of the Commission, but in no event beyond December 31, 1946.

[Order 128–A]

PART 13—COMMERCIAL RADIO OPERATORS

APPLICATIONS FOR RENEWAL OF LICENSES

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 20th day of June 1946:

Whereas, The Commission by its Order No. 128, adopted August 28, 1945 (10 F.R. 11526), provided that under certain conditions applications filed or mailed not later than June 30, 1946 for the renewal of certain commercial radio operator licenses, which were valid on December 7, 1941 and had expired, might be acted upon by the Commission notwithstanding the provisions of § 13.11 of the Commission's rules governing commercial radio operators; and

Whereas, It appears that the provisions of Commission Order No. 128 should be continued for an additional period of six months in order to provide for the renewal of numerous expired commercial radio operator licenses held by persons serving or who have served in the armed forces of the United States or the United States Maritime Service, or who are or have been employed outside the continental limits of the United States; and

Whereas, The Commission by its Order No. 77–F, adopted today, effective July 1, 1946, has suspended until December 31, 1946 § 13.28 of the Commission's rules insofar as that section requires a showing of service or use as a condition precedent to the renewal of a commercial operator license;

It is ordered, That any application filed or mailed not later than December 31, 1946, for the renewal of a commercial radio operator license (other than a Temporary Emergency Radiotelegraph Second Class Operator License) which was valid on December 7, 1941 and has expired by its own terms without having been cancelled or suspended, may, until the further order of the Commission, be acted upon, notwithstanding the provisions of § 13.11, if a statement is filed as part of the renewal application showing that (1) the applicant is serving in the armed forces of the United States or has been honorably discharged therefrom since December 7, 1941; or (2) the applicant is serving in the United States Maritime Service or has voluntarily left that Service since December 7, 1941; or (3) the applicant is or has been employed outside the continental United States and has been unable to file timely application for renewal of license because of such employment outside the continental United States.

It is further ordered, That all licenses issued under the authority of this order shall be dated as of the date the application for renewal is granted by the Commission and not as of the date of the expiration of the former license.

This order shall become effective July 1, 1946.

By the Commission.

Secretary.

[Order 136]

PART 13—COMMERCIAL RADIO OPERATORS

SHIPBOARD RADIOTELEGRAPH OPERATORS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of June 1946;

The Commission having under consideration its Orders No. 97 dated May 19, 1942 (7 F.R. 3830), and No. 123 dated October 9, 1944 (9 F.R. 12360), temporarily relaxing the requirements of the Commission's rules governing commercial operators aboard ships and establishing respectively the temporary limited and temporary emergency radiotelegraph second class operator licenses; and

It appearing that the war-time emergency demand for shipboard radiotelegraph operators which led to the adoption of Order 97 and Order 123 has now been alleviated to the extent that there is no longer any demand for radiotelegraph operators which led to the adoption is that they hold a license issued under Order 97 or under Order 123; and

It further appearing that the issuance of additional licenses under the authority of either Order 97 or Order 123 should be discontinued but that it would be advisable for outstanding licenses issued under either of those orders to remain valid according to their respective terms;

Now, therefore, it is ordered, That on and after the effective date of this order, Order 97 and Order 123 shall be cancelled, *Provided, however*, That all temporary limited and temporary emergency radiotelegraph second class operator licenses which are outstanding at the time of such cancellation shall remain valid according to the respective terms thereof.

The effective date of this order shall be June 30, 1946.

§ 21.1 *Authority to act.* (a) The Department of the Interior is designated by Part 8301 of Title 32 (Regulation 1 of the Surplus Property Administration), issued pursuant to section 10 of the Surplus Property Act as the disposal agency for all real and personal property (except aircraft, property peculiar to aircraft, merchant vessels, vessels capable of conversion to merchant use and marine industrial real property) located in the territories and possessions of the United States. In turn the Secretary of the Interior, by Departmental Order No. 2061, has authorized the Division of Territories and Island Possessions within the Department to carry out the Department's functions in this respect. For this purpose, the Surplus Property Office of the Division has been organized, headed by a Director in the Washington, D. C., Office, with additional offices, each in charge of a territorial surplus property officer, in San Juan, Puerto Rico, Honolulu, Hawaii, and Anchorage, Alaska.

§ 21.2 *Scope.* (a) The regulations in this part apply only to surplus personal property declared for sale in the territories and possessions of the United States, as described in Part 8301 of Title 32 (Regulation 1 of the Surplus Property Administration), including Puerto Rico, the Virgin Islands, Hawaii, and Alaska.

§ 21.3 *Sales activities.* (a) All sales shall be conducted in the territories and possessions by the respective offices for the disposal of such surplus property as may be declared to each office. However, commodities which prove excess to the needs of the respective territories and possessions, and commodities as to which joint selling efforts are deemed appropriate by the Director, may be sold by or with the specific direction of the Washington Office.

§ 21.4 *Sales conditions.* (a) Each sale consummated by the Surplus Property Office of the Division including those made in Washington, shall, subject to any qualification which may be made in writing in the solicitation of bids or otherwise, be made subject to the following sales conditions, commonly referred to as Sales Conditions No. 1 of September 1, 1945:

1. All sales are on a cash basis and payment in full must be made promptly after award and prior to the removal of the property.

2. Property must be removed at the purchaser's expense within ten days (or such other period as may at any time be specifically allowed in writing) after the date of mailing by the Government of the Bill of Sale, which will be the purchaser's authorization to obtain delivery of the property. Without limiting any other rights it may have, the Government may require the payment of storage charges with respect to property not removed within the required time and reserves the right to cancel the contract with respect to any such property. The purchaser shall be responsible for any damage to surrounding property, including buildings, resulting from the removal of the property.

3. It is expected that the Government agency in possession will exercise its usual care for the protection of the property, but the Government will not be liable in the event of loss, damage, or destruction from any cause whatsoever. The Government, however, will refund to the purchaser any amount paid with respect to property lost or destroyed during the period allowed for removal and prior to actual removal.

4. The Government warrants its title to the property sold but makes no other warranty, express or implied, by way of description of the property or otherwise. All property is sold "as is" and "where is."

5. No representative of the Government is authorized to make any statement or representation as to quality, character, condition, size, or kind of any material offered for sale, and any representation or statement made by any representative of the Government, concerning any such material, will not be binding on the Government; nor will it be considered as grounds for any claim for adjustment or rescission of any sale.

6 No Member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of any contract of sale or to any benefit that may arise therefrom unless it be made with a corporation for its general benefit.

7. In case of error in the extension of prices to the "Total Price" column in the bid, the unit price will govern.

8. The Government reserves the right to reject any or all bids or parts thereof, and to waive technical defects therein. The Government also reserves the right to withdraw from sale any property prior to the removal thereof without incurring any liability except to refund to the purchaser any amount paid with respect to such property. The Government further reserves the right to cancel the contract without liability if made on behalf of any principal whose name and address are not set forth in the bid.

It is the responsibility of bidders to inspect property and they are urged to do so prior to submitting bids:

§ 21.5 *Types of sales.* (a) Revised Special Order 24 of March 16, 1946,[1] issued by the War Assets Corporation as successor to the Surplus Property Administration, sets out the types of sales for consumer goods which shall be used by disposal agencies in carrying out their functions under the act. The same types of sales shall also be used in selling all other goods, such as producer and capital goods. As stated in the order these are:

Fixed price sales. Generally a fixed price sale is preferred to all other methods. This type of sale shall be used when property is in new condition, is available in inventory in large quantities, and is either a standard commercial item or is readily marketable; and may be used whenever property, either new or used, can best be moved by this method.

Other methods of sale may be used when it is not practicable to use the fixed price method of sale. The following additional standards shall be used as a guide in the choice of these other methods:

(1) Sealed bid—where the property is a non-standard commercial item; or is of unknown marketability; or is available only in mixed lots or small quantities.

(2) Spot sale (by fixed price or competitive bid) or public auction—where the property is not suitable for fixed price offering; when rapid clearance of a site is necessary; or when the experience of the disposal agency has shown this to be the best method of disposing of the specific type of property involved.

(3) Negotiated sale—(a) When the proposed purchaser can perform certain functions necessary to make the property salable, such as repairing, rehabilitating, sorting, grading, or testing, more economically and effectively than the disposal agency or others; (b) When the property is non-standard and has no apparent civilian use; (c) When the property is such a hazard to health and property as to require immediate disposition; (d) When the property will spoil or deteriorate so rapidly as to jeopardize any disposal unless immediately sold; (e) When another method of sale has proved unsuccessful; or, (f) When the property is to be sold to a foreign government pursuant to a recommendation of the State Department.

(b) Where, because of the remote location and type of property involved, other methods of sale are impracticable in carrying out the functions of the Surplus Property Office, negotiated sales may be used.

(c) The selection of the type of sale in specific instances, whether the commodity involved is consumer goods or otherwise, and the price to be charged therefor, shall be determined by the particular office handling the sale.

§ 21.6 *Priority claimants*—(a) *Government agencies.* (1) The act, section 12 (a), gives a priority to Government's agencies in the acquisition of surplus property for their own use and not for transfer or disposition. Government agencies shall exercise their priority within twenty (20) days from the time public notice is given of the availability of the surplus property for disposal to Government agencies. Transfer will be made at the fair value fixed by the Surplus Property Office unless transfer without reimbursement or transfer of funds is authorized by any law approved subsequent to June 21, 1944, to be made to the Government agency desiring such property.

(2) These transfers are given priority over all other disposals except disposals to veterans of property reserved exclusively for veterans, as described in paragraph (b) of this section.

(b) *Veterans.* (1) The act, section 16 (a) gives a priority to veterans second to that given to Government agencies in the acquisition of surplus property to enable veterans to establish and maintain their own small business, professional, or agricultural enterprises.

(2) The act, section 16 (b), requires that certain property shall be set aside which has been determined to be appropriate for exclusive disposal to veterans for their own personal use, and to enable them to establish and maintain their own small business, professional, or agricultural enterprises. All the property on Exhibit A, attached hereto, will be set aside for this purpose. Such property will be held for disposal to veterans, who properly qualify in accordance with the provisions of subparagraph (3) of this paragraph, for a period of not less than fifteen (15) days after public notice of its availability for such disposal. Any balance remaining undisposed of thereafter will be available for disposal in accordance with the other provisions of these regulations. The Surplus Property Office may establish maximum and minimum quantities to be disposed of to veterans hereunder.

(3) In each territorial office an employee has been charged with the duty of certifying veterans' priorities. That employee, a veterans' priority officer, is authorized to obtain from the veteran and other suitable sources all information pertinent to granting a priority under the act and Part 8302 of Title 32 (Regulation 2 of the War Assets Corporation). A record of this information shall be kept in the territorial office in connection with the application form filled out by the veteran. It is advisable that veterans make application and secure their priority certificates prior to the time they actually wish to purchase. The priority certificates shall bear the time and date of issuance. The following certificate shall be signed by the applying veteran, who shall indicate whether subsection (5) is applicable and, if not, the appropriate alternative clause in subsection (3) and subsection (4) thereof:

VETERANS' PRIORITY CERTIFICATE

I hereby certify (1) that all the statements contained in my application for veterans' priority and in this certification are true to the best of my knowledge and belief; (2) that I served in the active military or naval services of the United States on, or after, September 16, 1940, and prior to the termination of World War II, and was discharged or released therefrom under honorable conditions; (3) that I am, or will be, directly or indirectly or beneficially, a proprietor of the enterprise described herein, and that no person or persons, other than veterans, have or will have any proprietary interest in the enterprise, singly or together, directly or indirectly, amounting to 50 percent or more of either the capital invested in the enterprise or of the net income thereof; or that the property described herein is required as a condition of my employment by others; (4) I hereby certify that the surplus property herein applied for is to be used in and as part of the enterprise described; or that the surplus property is required for resale and is the initial stock necessary, within reasonable limits, for the enterprise; (5) I hereby certify that the surplus property herein applied for is for my own personal use; (6) I further certify that I have not heretofore ap-

plied for or received any surplus property, on the basis of a veterans' preference or priority except at the following times and places:

(Type of business)

(Property requested)

(Signature)

Date: ----------

(4) Priority shall not be granted to veterans seeking to buy merely as agents or brokers. Veterans may not exercise their priorities to purchase in quantities less than the smallest lot customary in commercial practice for the commodity involved. Applications for priority by a veteran or by a group of veterans to buy in excess of $25,000 fair market value of surplus property must be submitted, together with all pertinent data secured by the veterans' priority officer, to the Washington Office for action by the Director.

(c) *Other small business priorities.* The act, section 18 (e), gives a priority, following that given to Government agencies and to veterans, to purchases by the Reconstruction Finance Corporation, as successor to Smaller War Plants Corporation, for resale to small businesses.

(d) *States and local Governments.* (1) The act, section 13 (f) gives the next priority, following those given to Government agencies, veterans, and purchases by the Reconstruction Finance Corporation, in that order, to States, territories, or possessions of the United States, the District of Columbia, and political subdivisions or instrumentalities thereof.

(2) Pursuant to Part 8302 of Title 32 (Regulation 2 of the Surplus Property Administration), effective May 3, 1946, which should be consulted for a comprehensive treatment of this subject, a government requirements officer has been appointed in each of the three territorial offices and in the Washington Office. On the basis of estimated needs submitted, it is the duty of the requirements officers in the territorial offices to give notice to government agencies and State and local governments of the availability of specified surplus property and the basis on which it will be sold, to the end that priority claimants may have adequate time to make arrangements to purchase those items in which they are interested. In the case of priority claimants located in Alaska, the requirements officer shall give claimants notice in the nature of a letter forecast at least once each month stating the general types of surplus property which the territorial office has available. This will enable claimants so located to make known to the territorial office their desire to purchase certain items.

(e) *Nonprofit institutions.* (1) The act, section 13 (a), and Part 8314 of Title 32 (Regulation 14 of the Surplus Property Administration) provide that certain nonprofit institutions shall be given an opportunity to acquire surplus property in order to fulfill, in the public interest, their legitimate needs. Part 8314 of Title 32 has delegated to the Federal Security Agency the responsibility of certifying those institutions which should be granted this preference in buying. Pursuant to that part, the Federal Security Agency has designated the officer in charge of the United States Public Health Service in Puerto Rico, Hawaii, and Alaska to certify all institutions, except educational, which may apply for preference certification in the respective territories and possessions and such adjacent islands as are within the scope of those regulations. Certification of educational institutions are presently handled for the Puerto Rican area by the Acting Commissioner of Education at San Juan, in Hawaii by the Deputy Superintendent, Department of Public Instruction at Honolulu, and in Alaska by the Commissioner of Education at Juneau. Institutions desiring to obtain certification should contact the appropriate officer herein designated before attempting to purchase surplus property.

(2) A 40% discount from fair value is established by Part 8314 of Title 32 only on orders by or for such nonprofit institutions as may be certified as educational or public-health institutions and which are exempt from taxation under section 101 (6) of the Internal Revenue Code.

(f) *Disposals for claimants' own use.* Except in the case of transfers to Reconstruction Finance Corporation as successor to Smaller War Plants Corporation for resale and disposals to veterans of property to be resold with or without processing or fabrication in the regular course of business, transfers or disposals to priority claimants shall be for their own use only and not for transfer or disposition by them to others and priority claimants may be required to so certify.

§ 21.7 *Qualified buyers at fixed price sales of consumer goods.* (a) After priority claimants have been given an opportunity to fill their needs by the purchase of surplus property, sales shall be made to small retailers and wholesalers who serve small independent retailers, to industrial users, and to all other wholesalers in that order and in quantities and at price differentials suitable to the trade level of the buyer. See Revised Special Order 24 of March 16, 1946, referred to in § 21.5. Pursuant to said order such sales to commercial purchasers shall be known as program sales and the following classes of purchasers are qualified buyers in the circumstances indicated:

(a) Sales may be made exclusively to the original producer of the surplus property only when the original producer can perform certain necessary functions, such as repairing, rehabilitating, sorting, grading, or testing, more effectively than the disposal agency or others.

(b) Manufacturers who perform the distributive functions of serving small independent retailers may buy as wholesalers under program sales subject to the rules applicable to purchases made by wholesalers.

(c) Wholesalers and manufacturers who own, operate, or control retail stores are required to buy as retailers, under program sales, for their company owned or controlled retail stores.

(d) Buying offices of associated groups of retail stores operated on the voluntary chain system of buying will buy as retailers under program sales.

(e) Commercial exporters and purchasing commissions representing foreign governments shall be permitted to participate as wholesalers under program sales, except that items in critically short supply in the domestic economy may not be available to them for export.

(f) Cooperative organizations shall be permitted to participate in sales of consumer goods at the same time and under the same conditions as other commercial enterprises under program sales. In determining the level of trade at which a particular cooperative organization will buy consideration should be given solely to its functions as a wholesaler or retailer and not the features of cooperative ownership.

(g) Industrial users, i. e., manufacturing or commercial enterprises of a class which normally purchases property for its own use and not for resale shall be permitted to participate in program sales at the retail level, or at the wholesale level (at the minimum quantity specified for wholesalers who agree to use their best efforts to sell to small independent retail establishments) if such class customarily buys from manufacturers at the same price as wholesalers: *Provided*, That in either case the property so purchased it not resold in its present form except after incorporation into an end product. Orders of commercial and industrial purchasers shall be filled after retailers and wholesalers who serve small retailers.

(h) Purchasing agents (including resident buyers, commission men, brokers, and other agents) who perform the purchasing function for the principals they represent, shall be permitted to participate in disposals of surplus property. Sales made through these agents shall be made only in the name of the principal they represent and in program sales at the level of distribution of the principal. Such agents may be required to present a written authorization from the principal for each purchase.

(i) All purchasers who may participate in program sales shall also be eligible to acquire property offered by any other method.

(j) Ultimate consumers (persons who buy for their own personal use) are not ordinarily expected to purchase surplus property directly from the disposal agency except when such property is offered in suitable lots or units under circumstances which will not complicate the work of disposal or where sales to ultimate consumers, for example, through rural farm auctions, would be more effective than offerings by other methods.

(b) The following certification shall be signed by all commercial purchasers to establish their qualification as buyers at fixed price sales. The certification shall become a permanent record in each office where the purchaser wishes to buy. It may be amended to show a change of classification and/or additional commodities, items or products, upon an appropriate showing.

Not more than twenty (20) days shall be given to Government agencies and not less than fifteen days to veterans after the date of public notice of availability of property. The following order of priority shall be observed: (1) Federal Government agencies; (2) Veterans; (3) Reconstruction Finance Corporation, as successor to Smaller War Plants Corporation, for resale to small businesses; (4) Governments of the territories and possessions, political subdivisions and instrumentalities thereof; (5) Nonprofit institutions; (6) Small retailers and wholesalers serving small independent retailers; (7) Industrial users, whether purchasing as retailers or wholesalers; and (8) All other wholesalers. If sales cannot be concluded to any group other than Government agencies in the time allotted, their orders may be taken during that time and the property reserved from sale to others until such time as the formalities of sale may be completed. In subsequent sales provision may be made for the additional time allotment needed for a particular group.

(b) *Excess property set aside for veterans.* Any property remaining from that reserved exclusively for veterans after the time period allotted to them to purchase will be disposed of after clearance with War Assets Administration.

(c) *Allocation of insufficient quantities at fixed price sales*—(1) *Veterans.* Each of the above named groups may exhaust by purchase the entire amount of property available at the time prescribed for sale to them. Where the amount of property available is insufficient to satisfy all demands of any one group, the following method of awarding the property available shall govern: In disposing of property set aside exclusively for veterans, the territorial offices may establish the maximum and minimum quantities which may be acquired by any one veteran at any one time during a given period of time. If the supply of property is still insufficient, equitable distribution will be accomplished in accordance with the date of certification or registration. The public notice of availability of surplus property shall so state. Equitable distribution between personal use applicants and applicants for small business or agricultural or professional enterprises, will be made by the territorial office. In disposing of property not set aside exclusively for veterans equitable distribution of insufficient quantities will be made by the territorial office.

(2) *All others.* Allotments within other groups shall be made on the basis of the sequence in which the orders were received, or on such other equitable basis as the territorial surplus property office may determine.

(d) *Property unsold after fixed price sale.* As to property remaining unsold after being offered on a fixed price basis to all potential buyers, the territorial office offering the property shall determine, (1) whether a reoffering at a reduced price shall be made to all classes of purchasers in the usual manner or (2) whether an offering by sealed bid, auction or negotiation shall be made, (3) whether the property shall be offered direct to consumers, or (4) whether a disposition by other appropriate means shall be made.

(e) *Sealed bid sales.* (1) All priority and preference claims for the commodities involved shall have been met before such commodities are sold by sealed bid or at auction, or by negotiated sale except in the case of perishable items.

(2) Consequently in the case of sealed bid sales, the notice of sale shall specify a time certain for the public opening of all bids. A substantial security payment not to exceed one-fourth of the purchase price, either by money order or certified or cashier's check, shall be required to accompany the bid. Bids shall be received in the Surplus Property Office holding the sale up to the time specified in the notice of sale. An award to the highest qualified bidder for each item or lot sold, shall be made within a reasonable time, not to exceed ten working days, after public opening of bids. Failure to complete the transaction after award shall result in the retention by the Surplus Property Office of the deposit as liquidated damages.

(3) The Government reserves the right to reject any or all bids or parts thereof and to withdraw from sale any property prior to the removal thereof without liability except to refund to the purchaser any amount paid with respect to such property.

(4) Discretion to offer any commodity for rebidding, after proper public notice thereof, shall rest with the territorial surplus property officer or the Director in Washington, depending upon the office handling the sale.

(f) *Auction sales.* Sales at auction shall be conducted in the customary manner, unless the notice of sale shall indicate specific requirements.

(g) *Negotiated sales.* (1) Sales by negotiation shall be conducted in the customary manner, by continuing contact with interested buyers until an offer to pay a price reflecting as nearly as possible the market value of the commodity is obtained.

(2) The minimum one day notice prescribed in § 21.8 for negotiated sales of property subject to rapid deterioration shall be construed as adequate notice to priority and preference claimants, small retailers and wholesalers.

(h) *Qualified buyers.* Before any bidder at a sealed bid, spot sale or public auction or negotiated sale shall take delivery of any property awarded to him he shall have completed and placed on file as a permanent record at the appropriate surplus property office a certification as to his category as a purchaser on Form SPO–129 "Certification of Commercial Purchaser of Surplus Property" (See § 21.7 above).

§ 21.10 *Approval of sales.* (a) All proposed sales made by territorial offices which involve a total sales price of $50,000 or more shall be referred to the Washington Office for approval of the Director. All negotiated sales which involve a total sales price of $50,000 or more shall be referred with the recommendation of the Director to the Secretary for approval.

(b) Any proposed sale involving circumstances of a peculiar nature or a conflict between private purchasers may be referred by the territorial surplus property office to the Washington Office, and in the discretion of the Director, to the Secretary for approval.

§ 21.11 *Method of payment.* (a) The Surplus Property Office and its territorial offices are not staffed to make sales on a credit basis. Therefore all sales shall be made on a cash basis, as specified in paragraph 1 of the Sales Conditions (see § 21.4), except:

(1) That bank checks issued or certified by appropriate officers, and money orders will be accepted, and

(2) That irrevocable, unconditional letters of credit subject to sight draft by the Surplus Property Office making the sale will be accepted.

(b) Where the property in question is unlikely to be again available as surplus property or is unique in character and Federal Government agencies and Territorial Governments or their political subdivisions and instrumentalities can furnish evidence that there is a reasonable probability of their having the purchase money available within three months, and said claimants execute a purchase order at the time of offering, immediate transfer of the property may be made to them upon execution of a proper custodial bond, or upon execution of a three month lease at nominal rental reserving in the lessor the right of cancellation at any time.

§ 21.12 *Refunds.* (a) Since all sales are made by this office on an "as is, where is" basis, without representation as to quality and with no responsibility as to preparation for shipment and transportation, few instances in which a refund may be claimed should arise. However, should the Surplus Property Office, or the owning agency having custody, be unable to deliver the total quantity of an item sold, or should other appropriate circumstances arise, such as set out in paragraph 3 of the Sales Conditions (see § 21.4), refunds may be made only after joint approval by the territorial surplus property officer and the regional counsel of the territorial office, or if no regional counsel is on duty, by the territorial surplus property officer and chief of merchandising and sales in the territory.

(b) All refunds, except those for inability to deliver the quantity of goods originally contracted for, which involve $1,000 or more must be submitted to the Director in Washington for final approval.

Effective date: June 25, 1946.

J. M. BARRINGER,
Director, Surplus Property.

Approved: June 25, 1946.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

FEDERAL POWER COMMISSION.

[Docket No. G-731]

MICHIGAN GAS STORAGE CO.

NOTICE OF APPLICATION

JUNE 25, 1946.

1. Notice is hereby given that on June 10, 1946, an application was filed with the Federal Power Commission by the Michigan Gas Storage Company (hereinafter sometimes referred to as "Applicant" or "Michigan Gas"), a Michigan Corporation with its principal office at Jackson, Michigan, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of certain facilities, and the acquisition and operation of certain other facilities, all as more fully described below:

(a) Applicant seeks authorization to acquire the following facilities from the Consumers Power Company (hereinafter sometimes referred to as "Consumers Power"), which facilities are located in the State of Michigan, and to operate the same:

(1) A 12-inch natural gas transmission pipe line approximately 65 miles in length extending from the Muskegon River Compressor Station of Consumers Power at the Winterfield Gas Field southeasterly to a point of connection with a natural gas transmission pipe line of Panhandle Eastern Pipe Line Company (hereinafter sometimes referred to as "Panhandle Eastern") at Zilwaukee Junction, near the City of Saginaw;

(2) An 8-inch natural gas transmission pipe line approximately 4¼ miles in length extending from the Cranberry Lake Gas Field southerly to said Muskegon River Compressor Station;

(3) An 8-inch natural gas transmission pipe line approximately 34 miles in length extending westerly from the junction of State Highways M–20 and M–30 to the Two Rivers Compressor Station of Consumers Power located at the Broomfield Gas Field;

(4) Two parallel 6-inch natural gas transmission pipe lines approximately 13 miles in length extending from said Two Rivers Compressor Station southwesterly to a point in the Six Lakes Gas Field, and a 2 mile section of 8-inch pipe line connecting such parallel lines with the Six Lakes Compressor Station of Consumers Power;

(5) A 10-inch natural gas transmission pipe line approximately 60 miles in length extending from said Six Lakes Compressor Station southeasterly to a point near the City of Lansing;

(6) Muskegon River Compressor Station having an installed capacity of 4,000 horsepower, and including, among other things, gas cleaners, after-coolers and dehydration equipment;

(7) Two Rivers Compressor Station having an installed capacity of 1,850 horsepower, and including, among other things, gas cleaners;

(8) That portion of the Six Lakes Compressor Station which is owned by Consumers Power, being approximately one-half thereof, or 2,100 horsepower. (This station, which is operated by Consumers Power, has an installed capacity of 4,050 horsepower. It is jointly owned by Consumers Power and Michigan Consolidated Gas Company.)

(9) The Six Lakes Field Gate Metering and Regulating Station located on Section 23, Belvidere Township, Montcalm County;

(10) The Six Lakes Field Gate Metering Station located on Section 27, Millbrook Township, Mecosta County;

(11) The Blanchard City Gate Metering Station located on Section 18, Rolland Township, Isabella County;

(12) The Six Lakes Field Gate Metering Station located on Section 16, Belvidere Township, Montcalm County;

(13) The Zilwaukee Junction Metering Station located on Section 35, Tittabawassee Township, Saginaw County;

(14) The M–20–M–30 Metering Station located on Section 13, Lee Township, Midland County;

(15) Well lines, field lines, metering stations, gas wells, materials stock, and other facilities and equipment used in the operation of the Winterfield and Cranberry Lake Gas Fields;

(16) Leaseholds, contracts and other rights and interests for the production, storage, and purchase of gas in the Winterfield and Cranberry Lake Gas Fields;

(17) Consents, permits, contracts, easements, rights-of-way and other interests in property pertaining to or exclusively used in connection with the gas production, gas lines compressor stations, metering stations, and other facilities to be acquired from Consumers Power, but not including any franchises or equipment used in conducting a local gas distribution business.

(b) Applicant seeks authorization to construct or acquire and operate the following facilities:

(1) Metering equipment to be constructed at the Zilwaukee Junction con-

trol station of Consumers Power, located near the City of Saginaw at a point of connection between natural gas transmission pipe lines of Consumers Power and Panhandle Eastern;

(2) A compressor station of approximately 2,400 horsepower to be constructed at Freedom Junction at the Junction of the so-called "West Line" and "North Line" of Panhandle Eastern.

(3) A compressor station of 3,200 horsepower to be constructed at North Bradley on the existing 12-inch natural gas transmission line described in paragraph (a) (1) herein which Applicant proposes to acquire;

(4) Approximately 60 additional wells to be drilled and connected in the Winterfield and Cranberry Lake Gas Fields in connection with their conversion to gas storage fields;

(5) Gas rights, overriding and royalty interests and storage rights in the Winterfield and Cranberry Lake Gas Fields to be acquired from oil companies and others than Consumers Power Company having a major interest in such fields.

2. Michigan Gas Storage Company is a newly formed organization. Its stated purpose, according to the application, is to develop the business of purchasing, receiving, producing, storing, transmitting and selling natural gas in the State of Michigan in such manner as to enable it to receive and store natural gas during the summer season and to withdraw from storage and sell natural gas during the winter months, thereby meeting the day to day requirements of Consumers Power Company, its parent corporation, and other public utility customers, if any, while purchasing natural gas from the Panhandle Eastern Pipe Line Company at a high annual load factor.

3. In this application Michigan Gas requests the issuance of a temporary certificate of public convenience and necessity authorizing the acquisition, construction, and operation of the facilities described hereinbefore. Applicant states that, an application for a permanent certificate of public convenience and necessity will be made, subject to issuance by the Securities and Exchange Commission and the Michigan Public Service Commission of such consents and authorizations as may be requisite to the establishment and conduct of Applicant's proposed business, and the transfer by Consumers Power Company to Applicant of the properties hereinbefore described. Such application for a permanent certificate it is stated will include the facilities covered in the instant application, and also certain additional facilities which Michigan Gas proposes to construct in order to complete its plan of development and operation.

4. In support of its request for a temporary certificate Applicant states that an emergency situation exists which can be alleviated only if its proposed facilities and operations are authorized. It is said that the Winterfield and Cranberry Lake Gas Fields have been and are a major source of supply for meeting the requirements of the northern divisions of Consumers Power Company, and that during the war their depletion was accelerated to permit gas which would normally have been delivered to Michigan markets by Panhandle Eastern to be diverted to the Appalachian areas for war purposes pursuant to directives of the War Production Board. Furthermore, that during the next two years it will be necessary for Applicant to repressure those gas fields for storage purposes, while at the same time meeting the minimum market requirements of Consumers Power. In the opinion of the Applicant, the quantity of gas which will be available to it from Panhandle Eastern will not be enough even under the most favorable circumstances to meet Applicant's full requirements in the next two years. In order to minimize the deficit, Applicant proposes to commence deliveries into storage at the earliest possible date, stating in support of such proposal that even if deliveries into storage are commenced immediately there will still be a critical point in late March of 1947 and another in 1948 when the storage fields will have been unduly depleted, and heavy withdrawals necessary to meet maximum day requirements late in the winter season may produce dangerously low well-bottom flowing pressures with the serious risk of drawing bottom-hole water into the gas formations.

5. Applicant estimates that the total overall capital cost of the proposals for which it seeks a temporary certificate will be $8,213,698. This total estimate includes: $3,708,523 for acquisitions from Consumers Power Company; $3,850,000 for other acquisitions and new construction; $530,175 for gas purchases to repressure the storage fields; and $125,000 normal working capital. Michigan Gas proposes to finance its acquisitions from Consumers Power by the issuance of stock. The balance of the facilities covered by the instant application will be financed by the sale of stock of Applicant to Consumers Power Company and the Panhandle Eastern Pipe Line Company.

6. Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

7. Any person desiring to be heard or to make any protest with reference to the application of Michigan Gas Storage Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of this publication, a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Secretary.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1319]

DERBY GAS & ELECTRIC CORP. ET AL.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of June, A.D. 1946.

In the matter of Derby Gas & Electric Corporation, The Derby Gas & Electric Company, The Danbury and Bethel Gas and Electric Light Company, The Wallingford Gas Light Company, File No. 70-1319.

Notice is hereby given that Derby Gas & Electric Corporation ("Derby"), a registered holding company, and its subsidiaries, The Derby Gas and Electric Company ("Derby Connecticut"), The Danbury and Bethel Gas and Electric Light Company ("Danbury") and The Wallingford Gas Light Company ("Wallingford") have filed an application and declaration pursuant to sections 6, 7, 9, 10 and 12 of the Public Utility Holding Company Act of 1935 and the applicable rules thereunder. All interested persons are referred to said application and declaration, which are on file in the office of the Commission, for a full statement of the transactions therein proposed, which are summarized below:

Derby's funded debt consists of $2,450,000 principal amount of 3% Debentures, Series due 1949, and $1,410,000 principal amount of 3% Debentures, Series due 1954, all of such debentures being owned by The Equitable Life Assurance Society of the United States ("Equitable"). Derby's outstanding capital stock consists of 200,660 shares of no par value common stock. Derby Connecticut and Wallingford have no outstanding funded debt, whereas Danbury has outstanding $150,000 principal amount of 5% First Refunding Mortgage Gold Bonds due in 1953. All of the shares (other than directors' qualifying shares) of the outstanding capital stocks of these three companies, consisting of common stocks, are owned by Derby.

Derby Connecticut, Danbury and Wallingford propose to construct certain gas manufacturing, transmission and storage facilities at an estimated cost to these companies of $650,000, $595,000 and $95,000, respectively, or an aggregate of $1,340,000. The cost of such new construction will be met by available cash on hand for such purpose and by borrowing from the parent, Derby, from time to time as additional cash is needed, such borrowing to be evidenced by demand notes to be issued to Derby. When the construction work has been completed, it is proposed that Derby will surrender for cancellation such demand notes to each of said subsidiaries in consideration of the issuance to Derby of stock of such subsidiary in an amount (taken at the par or stated value of $25 per share in each case) equal to the principal amount of said demand notes of each such subsidiary to be so surrendered by Derby.

In connection with the aforesaid construction programs and the inter-company financial arrangements incident thereto, Derby proposes the following transactions:

1. Derby will redeem its outstanding $2,450,000 principal amount of 3% Debentures, Series due 1949, at 101½% of the principal amount thereof, and simultaneously issue and sell to Equitable $2,450,000 principal amount of new 2¾% Debentures, Series due 1956, at 101½% of the principal amount thereof.

2. In order to provide funds to make the aforesaid loans to its subsidiaries, Derby will also issue and sell to Equitable an additional $500,000 principal amount of new 2¾% Debentures Series due 1956 at 102⅜% of the principal amount thereof.

3. Additional cash funds required by Derby to supply to its said subsidiaries in connection with the aforesaid construction programs will be obtained by Derby's issuance of new shares of common stock. Derby will offer to its stockholders the right to subscribe to one additional share of common stock, without par value, for each ten shares of its common stock held by such stockholders at a price equal to $4.00 less than the "average bid" price of Derby's common stock on the over-the-counter market. The "average bid" price is defined to mean "20% (computed to the nearest even one-quarter of a dollar below the resulting figure) of the aggregate of the bid prices quoted in The New York Times on the five trading days immediately preceding the second business day prior to the date on which the offer to subscribe is made by the mailing of a notice, prospectus and the subscription warrants to Derby's stockholders advising them of said right to subscribe". Said offer will be effective for a period of eighteen days following the date on which said notice, prospectus and warrants are mailed to such stockholders. It is further stated that if all the shares of common stock of Derby offered to its stockholders are purchased, the result will be that Derby will increase its outstanding common stock by 20,066 shares, and it will receive, based on the present market, approximately $460,000 for such shares.

Applicants-declarants consider sections 6 (a), 6 (b), 7, 9 (a) (1), 10, 12 (c) and 12 (d) of the act and Rules U-42 and U-44 as applicable to the proposed transactions. Applicants-declarants state that the proposed issue by Derby of new debentures and additional common stock are excepted from the competitive bidding requirements of Rule U-50 by virtue of paragraphs (a) (2) and (a) (4) thereof, respectively, and that the proposed issue by the subsidiaries of Derby of demand notes and common stock are excepted by virtue of paragraph (a) (3) of the rule.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the matters set forth in the application and declaration and that said application shall not be granted nor said declaration permitted to become effective except pursuant to further order of this Commission:

It is ordered, That a hearing on said application and declaration under the applicable provisions of the act and the general rules and regulations promulgated thereunder be held at 10:00 a. m., e. d. s. t., on the 8th day of July, 1946, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date, the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in these proceedings shall file with the Secretary of the Commission on or before July 5, 1946 his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That notice of said hearing be given to Derby, Derby Connecticut, Danbury, Wallingford and the Connecticut Public Utilities Commission by registered mail and to all other interested persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for all releases issued under the Public Utility Holding Company Act of 1935 and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That, without limiting the scope of the issues presented by these proceedings, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the new 2¾% Debentures, Series due 1956, proposed to be issued and sold by Derby and the new common stock proposed to be issued and offered to stockholders of Derby are reasonably adapted to the security structure and earning power of the company and are necessary and appropriate to the economical and efficient operation of the business or businesses in which the company is engaged.

2. Whether the prices proposed to be paid by Equitable for said new debentures are reasonable, and whether the other terms and conditions of said transaction are detrimental to the public interest or the interest of investors or consumers.

3. Whether the terms and conditions of the proposed subscription offer of Derby's common stock are fair and reasonable.

4. Whether Derby, Connecticut, Danbury and Wallingford are entitled to the exemptions from the provisions of section 7 of the Act which they have asserted under section 6 (b) thereof in connection with the proposed issuance and sale by such companies to Derby of demand notes and of additional shares of common stock.

5. Whether the proposed acquisitions by Derby of demand notes and shares of additional common stock of Derby Connecticut, Danbury and Wallingford meet the applicable provisions of the Act.

6. Whether it is necessary or appropriate to impose terms or conditions in the public interest or for the protection of investors or consumers in connection with the proposed transactions.

7. Whether the proposed accounting entries to be recorded in connection with the proposed transactions are proper and conform to sound accounting principles.

8. Generally, whether, in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the act or the rules, regulations or orders promulgated thereunder.

By the Commission.

Assistant to the Secretary.

[Rev. SO 119, Order 269]

E. R. WAGNER MFG. CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* E. R. Wagner Manufacturing Company, 4611 N. Thirty Second Street, Milwaukee 9, Wisconsin, may compute its adjusted ceiling prices for carpet sweepers of its manufacture by increasing by 8 percent the ceiling prices to each class of purchaser as established by Maximum Price Regulation No. 188.

As used in this paragraph "ceiling prices as established under Maximum Price Regulation No. 188," shall mean the ceiling prices established under that regulation without the inclusion in those ceiling prices either directly or indirectly of any adjustment, either individual or industry-wide.

(b) *Ceiling prices of purchasers for resale.* (1) A purchaser for resale, who had an established ceiling price prior to the effective date of this order for any article, whose manufacturer's ceiling price was adjusted in accordance with the provisions of this order, may increase that established ceiling price by 8 percent.

(2) A purchaser for resale who had no established ceiling price prior to the effective date of this order for any article whose ceiling price is subject to this order, shall determine his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration, however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the resale ceiling price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(4) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted ceiling prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests contained in the application for price adjustment filed by E. R. Wagner Manufacturing Company, assigned OPA Docket No. 6069 SO 119–79C, not specifically granted by this order are hereby denied.

(f) The provisions of Supplementary Order No. 153, shall have no application to any sale or delivery of any article subject to this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 26th day of June 1946.

Issued this 26th day of June 1946.

PAUL A. PORTER,
Administrator.

Concrete and Cinder Block in Baltimore, Md. Trading Area

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region II by the Emergency Price Control Act of 1942 as amended, by section 23 of Maximum Price Regulation 592 as amended and the Revised Procedural Regulation No. 1, it is hereby ordered:

Section 1. *What this order does.* This order establishes maximum prices for all sellers of Grade "A" and Grade "B" cinder and concrete block when produced and delivered in the Baltimore, Maryland Trading Area.

The Baltimore, Maryland Trading Area, for the purposes of this order, consists of the City of Baltimore and environs within a radius of 10 air miles of the City Hall in Baltimore, Maryland.

Sec. 2. *Items covered by this order—*(a) *Grade "A" cinder and concrete block.* Grade "A" block must meet a compressive strength of 1,000 pounds per square inch gross, in accordance with ASTM Standard Specifications for Hollow Load Bearing Concrete Masonry Units C90–44.

(b) *Grade "B" cinder and concrete block.* Grade "B" block must meet a compressive strength of 700 pounds per square inch gross in accordance with ASTM Standard Specifications for Hollow Load Bearing Concrete Masonry Units C90–44.

Sec. 3. *Relation to maximum prices previously established under other regulations.* The maximum prices fixed by this order supersede maximum prices previously fixed by Maximum Price Regulation 592 and the General Maximum Price Regulation, or orders thereunder.

Sec. 4. *Maximum prices—*(a) *Manufacturers' maximum prices.* The maximum prices for 8 x 8 x 16 cinder and concrete block covered by this order are set forth in Table 1, annexed to and made part of this order. These prices are established at varying levels, depending upon the group category to which the manufacturer belongs. These groups are based upon the manufacturer's approximate rated machine capacity per day described as follows

Group A: Machine rated capacity—10,000 block or over.

Group B: Machine rated capacity—5,000 block to 9,999 incl.

Group C: Machine rated capacity—1,000 block to 4,999 incl.

Group D: Machine rated capacity less than 999.

If the manufacturer had an established differential in price during the month of March 1942 for other sizes of block, he may convert the prices granted in Table I for the 8 x 8 x 16 block on the basis of the conversion factors or formulae in use by him during March 1942 in establishing price differentials between the standard size block and other sizes.

(b) *Resellers' maximum prices.* The maximum prices for resellers of the commodities covered by this order shall be the same as the maximum prices established for the manufacturer who supplies him with these commodities.

Sec. 5. *Discounts and allowances.* The maximum prices prescribed by this order are subject to all customary cash and trade discounts, allowances or other differentials all of which must be preserved.

Sec. 6. *Reports.* Before offering for sale or delivery any item covered by this order, the manufacturer must file a report with the Baltimore District Office of the Office of Price Administration setting forth his plant's or plants' machine rated capacity, the group to which he belongs and the maximum prices applicable to him.

Sec. 7. *Posting.* Every seller making sales covered by this order shall post a copy of that portion of Table 1 which is applicable to him in each of his places of business in the Baltimore, Maryland Trading Area, in a manner plainly visible to all purchasers.

Sec. 8. *Sales slips and records.* (a) Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of the items sold and the price paid. If he customarily prepared the sales slips in more than one copy, he must keep, for at least six months after delivery, a duplicate copy of each sales slip delivered by him pursuant to this section.

For any sale of $25 or more, each seller regardless of previous custom must keep records showing at least the following: (1) name and address of buyer, (2) date of transaction, (3) place of delivery and (4) complete description of each item sold and price charged.

(b) *Maximum prices for insufficiently described items.* Where the sellers' records or sales slips upon the sale of any commodity in the area covered by this order do not contain a sufficiently complete description to identify the exact type or size of the commodity and thus determine the maximum price fixed by Table 1 of this order the maximum price applicable to such sale shall be the lowest maximum price that can be computed under Table 1 of this order in accordance with the incomplete description.

(c) *Resellers' records.* Each and every reseller of the commodities covered by this order must preserve for examination by representatives of the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records showing the sources of his purchases, quantities purchased and the prices paid therefor.

Sec. 9. *Amendment.* This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective May 27, 1946.

Issued this 23d day of May 1946.

Leo F. Gentner,
Regional Administrator.

[Region IV Basic Order 3, Under Order G–17 Under RMPR 251]

INSTALLED RE-SIDING AND RE-ROOFING MATERIALS AND INCIDENTAL CONSTRUCTION WORK IN ATLANTA REGION

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator for Region IV by section 9 of Revised Maximum Price Regulation No. 251, it is hereby ordered:

1. *What this order does.* This basic order puts into one document the provisions which will be common to all future orders establishing flat dollars-and-cents maximum prices for installed re-siding and re-roofing and related and incidental construction work to be issued by the Atlanta Regional Office and/or by the District Offices in Region IV, pursuant to the authority contained in Section 9 of Revised Maximum Price Regulation No. 251. The orders to be issued under this basic order are referred to herein as "adopting orders" and when issued will expressly adopt the provisions of this basic order. The provisions of Revised Maximum Price Regulation No. 251 cover all sales of installed residing and re-roofing and related and incidental construction work in all areas not covered by these orders unless and until adopting orders are issued under this order. When such adopting orders are issued they will supersede the provisions of sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to installed sales of re-siding and re-roofing and related and incidental construction work.

2. *Transactions to be covered by this order.* This order covers all sales of composition re-siding and re-roofing on an installed basis together with accessories on residential structures and also will include related and installed construction work when sold by installers of re-siding and re-roofing whether such sale is made as a part of a general contract or not.

3. *Relationship of this order and all adopting orders to Revised Maximum Price Regulation No. 251.* The provisions of this order when and if adopting orders are issued supersede sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of re-roofing and composition re-siding on an installed basis on residential structures and with respect to related and incidental construction work sold by installers of composition re-siding and re-roofing on an installed basis in the areas affected by such adopting orders. All other provisions of Revised Maximum Price Regulation No. 251 are applicable to transactions subject to this order unless otherwise provided in this order.

On and after the effective date of any adopting order issued under this basic order, regardless of any contract or other obligation no person shall sell, offer to sell or deliver composition re-siding and re-roofing on residential structures on an installed basis or related and incidental construction work as herein defined in the area covered by such adopting order at prices higher than those established by such adopting order: *Provided*, That deliveries made not more than thirty (30) days after the effective date of any such adopting order on bona fide contracts executed prior to the effective date of such adopting order shall not be considered violations of such adopting order or of this order.

An employer paying or about to pay labor rates higher than those in effect for him on the effective date of any adopting order under this basic order by reason of the predetermination of wage rates by the Secretary of Labor under the Davis-Bacon Act or any order or authorization of the Wage Adjustment Board, National War Labor Board, Economic Stabilization Director or any Board or officer performing the functions of the Boards and officers above named may file an application for an amendment of such adopting order to reflect such increased labor rates. Such a petition for amendment shall conform in all respects to the provisions of Revised Procedural Regulation No. 1 except that it shall be filed with the Atlanta Regional Office of the Office of Price Administration.

4. *Definitions.*

(a) The term "composition re-siding" includes asphalt shingle re-siding, asbestos cement re-siding, insulated brick or stone re-siding and roll brick re-siding but shall not include wood shingles or wood re-siding.

(b) The term "re-roofing" includes composition re-roofing such as asphalt shingles and mineral surface roll re-roofing and smooth surface roll re-roofing but does not include wood, metal, or slate re-roofing.

(c) The terms "related" and "incidental" construction work mean any installation of building materials or construction work other than installed re-roofing and re-siding, when sold by installers of re-roofing and re-siding.

5. *Pricing provisions applicable to adopting orders.* The maximum prices to be fixed by adopting orders under this basic order shall be upon a price per square basis for re-roofing and re-siding and separate charges will be stated for extras.

6. *Guaranteed price.* A seller may sell a composition re-siding or re-roofing job covered by any adopting order issued under this basic order on the basis of a guaranteed price but such guaranteed price must not be higher than the maximum price figured in accordance with the pricing methods and requirements of the applicable adopting order and of this basic order. The seller shall stamp or otherwise mark conspicuously on each invoice or contract a statement in substantially the following form: "Prices are at or below ceiling prices set by O. P. A. Regional Order G–17 under RMPR 251."

7. *Related and incidental construction work.* If on any job, any installed building materials are furnished or any construction service performed by the seller, other than composition re-siding and re-roofing, the cost of such work shall not be included in the cost of installed composition re-siding and re-roofing, but shall be separately priced and billed on all invoices. The maximum price of any such related and incidental work shall be determined under Revised Maximum Price Regulation No. 251.

8. *Measurements.* It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. A "measurement with reasonable accuracy" shall be considered to have been made if the price based on such estimate does not vary by more than 10% from the maximum price computed under the terms of this order and of the applicable adopting order.

9. *Notification.* Every person making sales subject to an adopting order issued under this basic order shall, if requested by the purchaser, make available to the purchaser a copy of this order, applicable adopting order, and a copy of Revised Maximum Price Regulation No. 251. Upon completion of any contract for installed re-siding and/or re-roofing, and/or related and incidental construction work, the seller must furnish to the purchaser an itemized statement showing the number of squares, the maximum price per square of re-siding and re-roofing installed, a list of all extras and the quantities and price of each and a separate statement of any related and incidental construction work other than installed re-siding and re-roofing giving a description of such work and an itemized statement of the prices thereof. The seller shall also include in such statement the date on which the installation was completed, the names and addresses of the sellers and buyers and the terms of sale.

10. *Records.* All sellers of installed composition re-siding and re-roofing and/or related and incidental construction work covered by any adopting order issued under this basic order must keep records concerning each sale subject to such order, including the name and address of the purchaser, the location of the job, the date of the transaction, a description of the materials and services involved, the number of squares and price per square of re-siding and re-roofing, a list of all extras permitted under such order with the quantity and price of each, and a separate statement of any related and incidental construction work. All such records shall be made available for inspection by representatives of the Office of Price Administration so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

11. *Evasion.* Any practice or device (including "tie-in" sales) which results in a higher price to the purchaser of composition re-siding and re-roofing on an installed basis and/or related and incidental construction work than is permitted by an applicable adopting order under this order is as much a violation as an outright over-ceiling charge and subjects the seller to all the penalties provided by Revised Maximum Price Regulation No. 251.

12. *Revocation or amendment.* This order may be revised, amended, revoked or modified at any time by the Office of Price Administration.

This order shall become effective in each area when adopted by an order covering that area.

Issued June 7, 1946.

ALEXANDER HARRIS,
Regional Administrator.

The minimum credit for leave shall be 4 hours, and additional credits shall be in multiples thereof.

(b) Temporary employees shall be credited with leave of 2½ days for each month of service.

(c) Because of the difference in crediting leave to temporary and permanent employees the following method shall be followed in crediting leave when a temporary appointment is converted to a permanent appointment prior to the end of the service month: Service as a permanent employee shall be counted as temporary service for the purpose of completing the month of service. Leave shall thereafter be credited as a permanent employee.

§ 54.202 *Accumulated annual leave.* Accumulated annual leave may be carried forward for use in succeeding years until it totals not exceeding 60 days: *Provided*, That during the period of the present emergency 30 days additional leave may be accumulated: *Provided further*, That when accumulated leave equals or exceeds 60 days, further increase in accumulated leave shall be limited to 15 days in any succeeding years.

§ 54.203 *Grant of annual leave.* Annual leave shall be granted to an employee at such times as the heads of the departments and agencies may prescribe: *Provided*, That an employee who is to be placed on furlough in contemplation of separation by reduction of force shall be granted immediately prior to furlough, upon his request, any annual leave to which he is entitled. Permanent employees during their first year of service shall not be granted leave in excess of the amount accrued to their credit. Temporary employees shall not be granted leave until immediately prior to the end of the month in which it is earned. The minimum charge for annual leave shall be one hour, and additional leave shall be charged in multiples of one hour.

shall not be charged against annual leave but should be recorded as "court leave."

SUBPART C—SICK LEAVE

§ 54.301 *Accrual of sick leave.* (a) Permanent employees shall be credited with sick leave at the rate of 1¼ days per month, which may be credited at the beginning of the calendar month, or at the beginning of the first pay period following the first day of the calendar month. The minimum credit for sick leave shall be one hour, and additional credits shall be in multiples thereof.

(b) Temporary employees shall be credited with 1¼ days of sick leave for each month of service.

(c) Sick leave accruing during any month of service shall be available at any time during that or any subsequent month.

§ 54.302 *Accumulated sick leave.* Unused sick leave shall be cumulative and available for future use: *Provided*, That the balance to the credit of the employee at the end of any month shall not exceed 90 days.

§ 54.303 *Grant of sick leave.* Sick leave shall be granted to employees when they are incapacitated for the performance of their duties by sickness, injury, or pregnancy and confinement, or for medical, dental or optical examination or treatment, or when a member of the immediate family of the employee is afflicted with a contagious disease and requires the care and attendance of the employee, or when, through exposure to contagious disease, the presence of the employee at his post of duty would jeopardize the health of others. The minimum charge for sick leave shall be 1 hour, and additional leave shall be charged in multiples of 1 hour.

§ 54.304 *Notification of superior.* An employee who is absent on account of sickness shall notify his supervisor as early as practicable on the first day of such absence, or as soon thereafter as possible. Failure to give such notice may result in the absence being charged to annual leave or leave without pay, as the circumstances may justify. Requests for sick leave for medical, dental, or optical examination or treatment shall be submitted for approval prior to the beginning of the leave.

§ 54.305 *Application for sick leave.* Written application on the prescribed form for grant of sick leave shall be filed within 2 days after the employee returns to duty. In no case shall a medical certificate be required to support the application for periods of absence of 3 days or less. For periods of absence in excess of 3 work days the application must be supported by a medical certificate, or other evidence administratively acceptable, which must be filed within 15 days after return to duty: *Provided*, That in lieu of a medical certificate, a signed statement of the employee indicating the nature of the illness and the reason why a medical certificate is not furnished may be accepted whenever it is unreasonable to obtain such certificate because of a shortage of physicians, remoteness of locality, or because the circumstances surrounding the employee's illness do not require the services of a physician. The agency shall determine administratively whether the statement of the employee in lieu of a medical certificate shall be considered sufficient evidence to support the request for sick leave. All applications for sick leave for medical, dental, or optical examination or treatment shall be supported by a certificate of the employee that he has received such examination or treatment and shall include the name and address of the physician, dentist, or other practitioner visited and the date and hour of visit.

§ 54.306 *Sickness during annual leave.* When sickness occurs within a period of annual leave and lasts 5 or more consecutive work days, the period of illness may be charged as sick leave and the charge against annual leave reduced accordingly. Application for such substitution of sick leave for annual leave shall be made within 2 days after return to duty and shall be supported by a medical certificate, or other evidence administratively acceptable to the same extent as provided in § 54.305.

§ 54.307 *Sick leave advanced.* In cases of serious disability or ailments, and when the exigencies of the situation so require, sick leave may be advanced to permanent employees not in excess of 30 days: *Provided*, That no advances of sick leave shall be made to any employee unless the absence from duty on account of illness is for a period, or periods, of 5 or more consecutive work days; that every application for advance leave shall be supported by a medical certificate; that the total of such advances shall be charged against sick leave subsequently credited. Sick leave may be advanced irrespective of whether the employee has annual leave to his credit.

§ 54.308 *Sick leave not advanced.* Sick leave shall not be advanced to an employee holding a limited appointment, or one expiring on a specified date, in excess of the total sick leave that would accrue during the remaining period of such appointment.

SUBPART D—GENERAL PROVISIONS

§ 54.401 *Change in hours of duty.* Whenever the number of hours of duty in an employee's work day is permanently changed the leave standing to his credit shall be converted to the proper number of hours based upon the new work day.

§ 54.402 *Leave-with-pay status.* (a) Leave shall accrue to an employee while in a leave-with-pay status, provided he returns to duty, or provided that failure to return to duty is due to death, disability (evidence of which shall be supported by an acceptable medical certificate), retirement for disability, or reduction in force.

(b) Employees who entered military, naval or merchant marine service between January 13 and December 21, 1944, and who are restored in accordance with statutory provisions after such service may be credited with leave accrued during the period of terminal leave granted immediately prior to entry into active military, naval, or merchant marine service.

§ 54.403 *Nonpay status.* Whenever a permanent employee's absence in a nonpay status totals the equivalent of the base-pay hours in 1 bi-weekly pay period, the credits for annual leave shall be reduced 1 day and for sick leave ⅝ day for each such period. The total deductions in sick leave credits on account of nonpay status in any one calendar year shall not exceed 15 days: *Provided*, That when an employee absent because of injury received in line of duty requests to be carried on leave-without-pay, he shall, upon his return to duty, receive credit for accrued leave covering the period for which he was paid disability compensation by the Employees' Compensation Commission.

§ 54.404 *Days for which leave charged.* Leave shall be charged only for absence upon days which an employee would otherwise work and receive pay and shall be exclusive of Sundays which do not occur within a regular tour of duty, holidays, and all nonwork days established by Federal statute or by Executive or administrative order: *Provided*, That when a holiday is declared by general administrative orders to be a work day, an employee who absents himself from work without permission that day day shall be subject to a deduction of 1 day's pay.

§ 54.405 *Absences of less than 30 minutes.* Under ordinary circumstances unavoidable or necessary absence from duty not in excess of 30 minutes, and tardiness, shall be excused for adequate reasons, or handled administratively by requiring additional work, or by a charge against any compensatory time which the employee may have to his credit as a result of overtime previously worked. In the event that this privilege is abused such absences, and tardiness, shall be handled administratively by a charge against annual leave, or by disciplinary action.

§ 54.406 *Separation of employees indebted for unearned leave.* In case of the separation of an employee who is indebted for unearned leave, the employee shall refund the amount paid him for the period of such excess, or deduction therefor shall be made from any salary due him. This section shall not apply in cases of death, retirement for disability, or reduction of force, or in case an employee is unable to return to duty because of disability, evidence of which shall be supported by an acceptable medical certificate.

§ 54.407 *Leave without pay.* Leave without pay may be granted to an employee for a period not exceeding 12 months regardless of whether he has leave standing to his credit: *Provided:* That an employee absent because of injuries received in line of duty may be carried on leave without pay for the period for which he is paid disability compensation by the Employees' Compensation Commission.

§ 54.408 *Transfer from permanent to permanent position.* When a permanent employee is appointed, reappointed, or transferred to another position as a permanent employee, with no break in service or a break of less than 90 days, his leave account shall be disposed of as follows:

(a) If the position is within the purview of the leave acts of March 14, 1936, the leave account shall be certified to the employing agency for credit or charge to the employee.

(b) If the position to which he is appointed, reappointed, or transferred is not within the purview of the leave acts of March 14, 1936, the employee shall be furnished with a statement of his sick leave account and if he is subsequently appointed, reappointed, or transferred to a position within the purview of such acts, with no break in service or a break of less than 90 days, the leave shown to be due shall be credited to his account.

(c) Any person who was appointed, reappointed, or transferred prior to January 1, 1945 to a position not within the purview of the leave acts of March 14, 1936, who is or has been appointed, reappointed, or transferred to a position within the purview of such acts with no break in service, or with a break of less than 30 days if the reappointment occurred between December 31, 1944 and March 1, 1946, or less than 90 days if the reappointment occurred on or after March 1, 1946, shall be credited with leave shown to be due.

§ 54.409 *Transfer from permanent to temporary position.* When a permanent employee is appointed, reappointed, or transferred to a temporary position with no break in service, or a break of less than 90 days, his leave account shall be disposed of as follows:

(a) If the position is in the same agency he shall be credited with such leave as may be due him or charged with any unliquidated leave which may have been advanced.

(b) If the position is in a different agency he shall be furnished with a statement of his leave account and if subsequently he becomes a permanent employee of the same or a different agency with no break in service, or a break of less than 90 days, the leave shown to be due shall be credited to his account: *Provided*, That in the discretion of the agency to which transferred, the leave shown to be due him may be credited to him in the temporary position.

§ 54.410 *Temporary employees who become permanent.* Temporary employees who subsequently become permanent employees either in the same or a different agency, with no break in service or a break of less than 90 days, shall be credited with such leave as may be due them.

§ 54.411 *Restoration of veterans.* (a) Any permanent employee who leaves or has left a position to enter military, naval, or merchant marine service, and is or has been reemployed as a permanent employee within 120 days after his release from military, naval, or merchant marine service, shall be entitled to such leave as remained to his credit.

(b) Any permanent employee who is or has been restored to a position as a result of appeal under section 14 of the Veterans' Preference Act of 1944, or as a result of formal appeal under any other authority or procedure, shall be entitled to any sick leave which remained to his credit upon separation.

§ 54.502 *Employees who have uncommon tours of duty.* The head or governing body of any governmental agency which has employees who work 24-hour shifts, or other uncommon tours of duty, is authorized to promulgate supplemental regulations consistent with the regulations in this part for administering leave for such employees.

§ 54.503 *Employees outside the continental United States.* Nothing in this part shall be construed to prevent the continuance of any leave differential existing prior to January 1, 1936, for the benefit of employees of the Federal Government stationed without the continental limits of the United States. However, any department may, if it so desires, apply the regulations in this part to employees stationed without the continental limits of the United States, subject to the continuance of such leave differential.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter IX—Transport

PART 903—TRANSPORTATION OF INDIVIDUALS

TRANSPORTATION OF REMAINS

Section 903.6 (a) is rescinded and the following substituted therefor:

§ 903.6 *Remains, including civilian employees' remains—(a) Effective 1 July 1946, from points outside continental limits of United States, including Alaska, to ports of debarkation in United States—(1) Remains.* Transports will be availed of wherever possible for the shipment of remains from points outside the continental limits of the United States, including Alaska, to ports of debarkation in the United States. For any distance that transports or other means of Government transportation cannot be used, shipment will be made by commercial transportation other than airplane. See §§ 306.50–306.52.

(2) *Attendants.* Subject to subparagraph (3) of this paragraph, transportation, including berth when an extra charge is made therefor, may be furnished one relative in the capacity of an attendant to the remains of each person from the place of death or an intermediate point to the port of debarkation in the United States, to place of interment in the United States, including Alaska, and return to place of death. No military attendant will be furnished when a relative acts in that capacity. In any case where the relative attendant will not accompany the remains the entire distance, a military attendant will be furnished to accompany the remains for that portion of the journey where the remains will not be accompanied by such relatives. Under such conditions officer attendants are entitled to the allowance specified in Army Regulations in both directions, and all other military attendants will be furnished transportation in kind in both directions. Transportation expenses of an escort for remains of those civilian employees who are referred to in § 306.50 will not be allowed. However, this will not be construed to prohibit the use by an escort of one of the two tickets required to ship the remains as baggage by railroad.

(3) *Dependents of certain deceased from overseas.* Where transportation is furnished for dependents from oversea points when specifically authorized under the provisions of § 903.1 (a) the commanding officer will determine in each case whether one dependent can act in the capacity of an attendant to the remains. If a dependent acts in that capacity, no other attendant will be furnished. See subparagraph (2) of this paragraph.

(4) *Orders.* The commanding officer will issue the necessary orders designating the method of shipment and include therein, when necessary under the conditions named in subparagraphs (2) and (3) of this paragraph, a competent travel order covering the entire travel of the attendant (stating name and status of attendant). He will also telegraph the commanding officer of the port of debarkation in the United States, giving all particulars and requesting that further orders be issued covering the shipment from such port. TITLE 24—HOUSING CREDIT

Chapter VII—National Housing Agency

[Housing Expediter Premium Payments Reg. 3]

PART 714—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

MERCHANT GYPSUM LINER

Purpose and findings. This general regulation is issued to stimulate additional production of merchant gypsum liner by providing for premium payments with respect to units of additional production above established quotas. It describes who is eligible, how quotas and production goals are established, and the methods, procedures and conditions under which such payments may be obtained. This regulation is issued pursuant to the authority of the "Veterans' Emergency Housing Act of 1946."

All available means of increasing the supply of merchant gypsum liner for the veterans' emergency housing program and for other construction, maintenance and repair essential to the national well-being have been considered. Based on such consideration, the Expediter finds that premium payments are temporarily necessary to increase the supply of merchant gypsum liner, and to stimulate additional production with greater rapidity, economy and certainty than other available methods. The premium payments provided herein are applied at a uniform rate within the industry. In applying premium payments to necessary additional production in this industry, emphasis has been placed upon avoiding either economic dislocations or adverse effects upon established business.

§ 714.3 *Merchant gypsum liner*—(a) *Definitions.* As used in this section:

(1) "Company" means any person who manufactures or is determined by the Expediter to be capable of manufacturing merchant gypsum liner.

(2) "Person" means an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing, but shall not include the United States, any of its political subdivisions or any agency thereof, any other Government, any of its political subdivisions or any agency thereof.

(3) "Gypsum liner" means the cream-faced, greyback or lath paper used in the manufacture of gypsum board and lath to encase the processed gypsum rock which forms the main body of the board or lath.

(4) "Merchant gypsum liner" means gypsum liner sold or manufactured for sale to a gypsum board or lath manufacturer who neither owns nor controls the gypsum liner manufacturer and who is not under common control or ownership with the gypsum liner manufacturer.

(5) "Class A company" means a company which has produced gypsum liner at any time within the period beginning January 1, 1942 and ending April 30, 1946.

(6) "Class B company" means any company other than a Class A company.

(7) "Production goal" means the tonnage of merchant gypsum liner assigned by the Expediter to a company for shipment during any month, with a shortage tolerance of five percent.

(8) "Claim" means a claim for payment under this regulation computed in accordance with the provisions hereof.

(9) "OHE" means the Office of the Housing Expediter.

(10) "Expediter" means the Housing Expediter as defined by the Veterans' Emergency Housing Act of 1946 or his duly authorized representative.

(b) *Eligibility.* Any company is eligible for premium payments under this section if it meets both the following conditions:

(1) The company is assigned a production goal, and

(2) The company ships such assigned goal within the month for which the goal was assigned.

(c) *Determination and assignment of production goals.* (1) Each month the Expediter will determine the total tonnage of merchant gypsum liner needed to meet the requirements of the veterans' emergency housing program and other essential construction, maintenance and repair. He will then assign production goals on the basis of the following calculations:

(i) An initial apportionment of tonnage will be made to each regular supplier of merchant gypsum liner whose shipments during the period January through April 1946 averaged more than 300 tons per month. The apportionment to each company will be in an amount approximating its historical monthly shipments of merchant gypsum liner.

(ii) The balance of the total tonnage requirements will then be apportioned among all boxboard companies capable of producing merchant gypsum liner, including the regular suppliers covered by subdivision (i) of this subparagraph. This apportionment will be made to each boxboard company in approximately the proportion that its total production of boxboard and miscellaneous board bore to the industry's total production of such products during the first quarter of 1946.

(iii) In determining the capability of a company to manufacture merchant gypsum liner consideration will be given to the adaptability of facilities and the suitability of machines and roll equipment to the production of merchant gypsum liner; the feasibility of using its merchant gypsum liner for the manufacture of gypsum board and lath; the cost of transportation of its merchant gypsum liner to gypsum board and lath manufacturers and other similar factors.

(2) Any company not assigned a production goal may file an application on form NHA 14-36 with the Expediter, Washington, D. C. In the discretion of the Expediter, a production goal may be assigned to the applicant for the current or succeeding month upon such basis as the Expediter may deem equitable: *Provided, however*, That any subsidiary of a gypsum board or lath manufacturer will be assigned a production goal only to the extent that such subsidiary:

(i) Together with other subsidiaries of the same gypsum board or lath manufacturer, manufactures in the aggregate more than the maximum requirements of such gypsum board or lath manufacturer, and

(ii) Ships such excess production of gypsum liner as merchant gypsum liner.

The term "subsidiary" as used in this subdivision means a company that manufactures gypsum liner for consumption in its own gypsum board or lath manufacturing operations or in those of a company by whom it is owned or controlled or with whom it is under common ownership or control.

(3) Any company desiring a larger production goal may file an application on form NHA 14-36 with the Expediter, Washington, D. C.

(4) If, the Expediter finds that a company will be unable to meet a production goal due to unusual circumstances beyond its control, the Expediter may cancel or modify and may reassign such production goal in whole or in part. Any company to whom all or a part of a production goal is so reassigned, shall be considered a Class B company with respect to such reassigned production goal.

(d) *Transfer of production goals.* (1) Any company may transfer its production goal, in entirety only, to any other company otherwise eligible under this section.

(2) Transfers shall be made in writing signed by both companies. The transfer agreement shall specify the tonnage transferred and the company accepting the transfer shall file the agreement with the Expediter, Washington, D. C., within the month in which the transfer is made.

(e) *Quota.* Each eligible company will receive premium payments only with respect to tonnage shipped by it in excess of its quota. The quota of each company shall be: (1) For a Class A Company—80 percent of its production goal, (2) For a Class B Company—60 percent of its production goal.

(f) *Rate and computation of premium payments.* (1) A premium payment of $40 for each ton of merchant gypsum liner shipped in excess of quota during the month will be made to eligible companies, but in no event will premium payments be made on merchant gypsum liner shipped in excess of 105 percent of any production goal.

(2) In the event a production goal is transferred:

(i) The quota applicable to the transferred goal will remain the same as it was before the transfer.

(ii) No premium payments will be made on such transferred goal unless the company to which it was transferred ships both the goal originally assigned to it and the transferred goal within the month for which both goals were assigned.

(3) In the event a goal is reassigned no premium payments will be made on such reassigned goal unless the company to which it was reassigned ships both the goal originally assigned to it and the reassigned goal within the month for which both goals were assigned.

(g) *Rejects, deficits and carry-overs.* (1) In the event a company's shipments during any month include merchant gypsum liner which the purchaser rejects as unfit for use in the manufacture of gypsum board and lath, the company may make up the amount of such rejects from shipments during the following two months. If the company elects not to make up such rejects, the following shall apply:

(i) The rejected tonnage shall be deducted from the tonnage that was credited toward meeting the production goal originally assigned to the company for the month in which the rejected tonnage was shipped, and

(ii) If the net remaining tonnage is less than 95 percent of the production goal originally assigned to the company, the entire claim shall be invalid and any previous payments thereon subject to recovery or set-off. If the net remaining tonnage is 95 percent or more of such production goal the claim shall be recomputed and any overpayments subject to recovery or set-off.

(2) In the event a company fails to ship its originally assigned goal or a transferred or a reassigned goal for any month, and the expediter finds upon application by the company that such failure was due to unusual circumstances beyond the company's control, the company may make up the deficit during the next succeeding month. Such applications may be filed on form NHA 14-36 with the Expediter, Washington, D. C.

(3) Any company that ships in any month merchant gypsum liner in excess of the maximum tonnage upon which premium payments may be made under this section, shall have the right to carry such excess over to the next month. The tonnage so carried over may be applied in meeting its originally assigned goal, a transferred or a reassigned production goal for the next month.

(h) *Claim for payment.* (1) Each claim shall be filed on form NHA 14-37. These forms may be obtained from any Reconstruction Finance Corporation Loan Agency. A company may find out in which RFC Loan Agency district it is located by consulting its bank.

(2) Each claim under a transferred production goal and each copy of such claim shall have attached thereto a copy of the transfer agreement.

(3) Each claim shall be filed on or before the last day of the month following the end of the month in which the merchant gypsum liner was shipped, except that a claim for payment for a month in which a deficit occurs shall be filed with the claim for the next succeeding month.

(4) Each claim shall be filed with RFC at the Loan Agency for the district in which the main office of the company is located.

(5) No claim under this section shall be assignable except as a part of the bona fide transfer of the company to a legal successor.

(i) *Payment*—(1) *Review by RFC.* In reviewing claims, the RFC will determine whether such claims appear to have been correctly and properly prepared.

(2) *Terms of payment.* If the claim or any part thereof is accepted by RFC subject to final verification, RFC will then pay the claimant that part of the

claim so accepted: *Provided, however,* That with respect to claims for the last two months during which this section is in effect the RFC may require that bond be furnished in form and amount satisfactory to it before making payment. Preliminary acceptance and payment of a claim shall not constitute final acceptance of the validity or amount of the claim. If, after review or audit, there is cause to question the validity of any claim, RFC may—

(i) Require that bond be furnished in form and amount satisfactory to it before making further payments, or,

(ii) Suspend further payments.

(3) *Verification of claims.* (i) Upon receipt of claims, RFC will forward copies to the Expediter for verification and such investigation or audit as may be deemed appropriate.

(ii) If the amount verified and approved by the Expediter is less than the amount previously paid, the claimant shall upon demand by RFC refund the overage to RFC together with interest thereon at the rate of 4 percent per annum calculated from the date of such overpayment to the date repayment is made to the RFC or such overage plus interest may be deducted from any accrued or subsequent claim for any payment by RFC to the claimant.

(4) *Invalidation of claims.* The Expediter shall have the right at any time to declare invalid any claim of a company, and such company shall upon demand refund to RFC any payment on such claim, if the Expediter finds that the company:

(i) Has failed to comply with any of the requirements of this section, or

(ii) Has failed to comply with directives, orders or regulations of the Civilian Production Administration or OHR on merchant gypsum liner or has sold merchant gypsum liner at prices in excess of the ceiling prices established by the applicable Office of Price Administration regulations or orders.

(j) *Records.* Every company shall prepare and preserve for inspection for a period of not less than two years after the date of termination of this section, all books, records and other documents which furnish information in support of its claims for payment. The Expediter or his designated agents shall have the right at any time to make such examinations and audits of these books, records and other documents as may be necessary to verify the representations in the companies' claims for payment or as may be required by the Expediter.

(k) *Official interpretations.* Official interpretations of this section may be given only in writing by the General Counsel of the Office of the Expediter, or his duly authorized representative. A request for an official interpretation must be filed in writing directly with the Expediter or the General Counsel.

(l) *Termination.* This section may be terminated by the Expediter at the end of any month on thirty days prior notice, if he finds that an adequate level of shipments of merchant gypsum liner can be maintained without further premium payments. In the event that Office of Price Administration price ceilings cease to be applicable to the sale of merchant gypsum liner, the Expediter may terminate this section on such terms and conditions as he may deem proper. No termination of this section shall be effective with respect to production goals already assigned. Termination of this section shall not preclude the filing of claims for payment during the month following such termination on account of shipments during the immediately preceding month. Such claims shall be dealt with in accordance with the provisions of this section in the same manner as if it had not been terminated.

(m) *Effective date.* This section shall become effective as of June 1, 1946.

NOTE: The reporting and record-keeping requirements of this section have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 3294—IRON AND STEEL PRODUCTION

[General Preference Order M–21, Direction 12, as Amended June 28, 1946]

EMERGENCY DISTRIBUTION OF STEEL FOR PRODUCTION OF CERTAIN CRITICAL PRODUCTS

The following direction is issued pursuant to General Preference Order M–21:

(a) *What this direction does.* The cumulative loss in production of steel in the last several months caused by work stoppages in the steel and coal industries has created a severe shortage of steel for all purposes. There will not be a sufficient supply of steel to keep all of industry going at a reasonable rate for a number of months. It is, therefore, necessary that special assistance be given for the manufacture of certain highly critical products. These products are ones which are extremely short for the Veterans' Housing Program and certain items of farm machinery which are urgently required to harvest this year's crops and for famine relief. Failure to obtain immediate full production of these items will seriously delay the housing program and will result in a loss of food production. This direction provides for certified orders for steel needed during the third quarter of 1946 to make these critical items. This direction applies only to steel in the forms and shapes listed in Schedule I of Order M–21. It does not apply to wrought iron, iron castings, or pig iron. Distribution of iron to critical products wil be made by other procedures.

(b) *Products for which steel can be obtained under this direction.* Manufacturers of the products which are listed on Schedule A at the end of this direction may place certified orders in the way described in this direction for the steel that they need for the product. In addition, manufacturers of other products may, in certain very extraordinary cases described in paragraph (m), be specifically authorized to place certified orders.

(c) *Who can place certified orders—(1) With a producer without authorization.* A manufacturer of a critical product listed on Schedule A may certify a purchase order which he has already placed with a steel producer on the date of this direction and on which, at any time after January 1, 1946, the producer promised delivery before October 1, 1946. No specific authorization by the Civilian Production Administration is required for such certification. However, a manufacturer may not without specific authorization by CPA certify orders for steel for use in a plant not in production because of work stoppages.

(2) *With a warehouse without authorization.* A manufacturer who on June 12, does not have any purchase orders placed with a producer (whether certified or otherwise) for steel of any of the types which he uses in production of critical products on Schedule A may place a certified order on a warehouse. No authorization by the Civilian Production Administration is required for this type of order. However, a manufacturer may not without specific authorization by CPA certify orders for steel for use in a plant not in production because of work stoppages.

(3) *When authorization needed.* Except for the orders listed in paragraphs (c) (1) and (2), no certified purchase order may be placed without specific authorization by CPA. Paragraph (d) below states when applications for authorizations may be made.

(d) *Application for authorization to place certified orders—(1) Who may apply.* Any manufacturer of a critical product listed on Schedule A who is unable to certify enough purchase orders under the provisions of paragraph (c) above for the amount of steel which he will require to actually put into production in his critical products during any of the month of July, August, or September, may apply to the Civilian Production Administration for authority to certify new purchase orders.

(2) *How to apply.* Application for such authority should be made in triplicate on Form CPA–4466.

(3) The Civilian Production Administration may issue authority to place certified purchase orders where it determines that the steel will actually be needed for production of the critical product and that the steel is available for such purposes. Additional steel for inventories will be rarely authorized and then less than permitted by Priorities Regulation 32. Such authorization will permit a manufacturer to place a new purchase order on either a producer or a warehouse, but the CPA may limit the authorization to a named supplier.

(e) *Limit on amount which may be certified.* Except as specifically authorized a manufacturer must not certify a total number of purchase orders which will call for delivery in the third quarter of a greater amount of steel than he proposes to actually put into production in the manufacture of his critical product in that period. In addition, a manufacturer of farm machinery listed on Schedule A must not certify more steel than he will require to complete critical items which he will deliver before October 31, 1946. A manufacturer need not reduce the amount permitted because of steel in his inventory, within the limits of Priorities Regulation 32, but he may not, without specific authorization, use any of the amount certified in order to build up inventories to the permitted amount. Also he may not certify for delivery in any one month more than 40% of the steel he will put into production during the third quarter.

(f) *How to place a certified order—Form of certification.* A purchase order which has already been placed may be certified by sending a letter to the producer or warehouse, identifying the original purchase order and reciting in substantially the following form the following certification signed as provided in Priorities Regulation 7:

> I certify, subject to the penalties of section 35A of the United States Criminal Code, that I will use this steel only to make ---------- (specify one or more of the end products listed in Schedule A, or if specifically authorized for another product under paragraph (m), insert name of product and phrase "authorized under paragraph (m)") and that the tonnage covered by this order together with all tonnages placed with other producers and distributors for use in these products on similarly certified orders and uncertified orders is not in excess of the quantity of such steel which I am authorized to order under the provisions of Direction 12 to Order M–21.

The same certification is to be used when placing new purchase orders with warehouses or with producers when authorized by the Civilian Production Administration. When a manufacturer has been authorized to certify any purchase orders under paragraph (d) above, or paragraph (m) below, he must add to the certification the following additional statement: "I have been specifically authorized to certify this order by Form CPA 4466, Serial No. ——".

(2) *Canadian purchasers.* In the case of a Canadian purchaser, a purchase order may be certified by furnishing a certification in substantially the following form signed manually or as provided in Priorities Regulation No. 7:

> The undersigned purchaser certifies, subject to the penalties of section 15 of the Canadian Wartime Industries Control Regulations, to the seller, to the Canadian Priorities Officer, and to the Civilian Production Administration that he will use this steel only to make ——, and that the tonnage covered by this order together with all other tonnages placed with other producers on similarly certified orders and uncertified orders is not in excess of the quantity of such steel which he is authorized to order under the provisions of General Instruction Letter No. 66 and Direction 12 to Order M–21, and that the end-product will be sold only in accordance with the terms of that letter.

(g) *Period for which certified orders may be placed.* Orders may be certified for delivery only in July, August or September. A manufacturer must specify the months in which he requires delivery at the time he certifies his purchase order (or at the time he places a new certified purchase order).

(h) *Refusal of certified orders.* (1) A steel producer need not accept a certification on a previously accepted purchase order, or a new purchase order, which it receives after the first day of the month preceding the month in which delivery is requested. However, if delivery is requested in July, a producer must accept a certification under paragraph (c), if it is received on or before the 17th day of June, and need not accept it after the 17th day of June.

(2) A warehouse need not accept any certified order for a single product classification of steel in excess of 10,000 lbs. if delivery would deplete his stock to a point where his function in the distribution of steel would be seriously impaired. Schedule I of Order M–21 lists the "product classifications" of steel.

(3) In order to protect the requirements of small business, a warehouse must not accept any purchase order, whether certified or not, in excess of 10,000 pounds if delivery would deplete his stock to a point where his function in the distribution of steel would be impaired.

(i) *Certified orders must be treated as rated orders.* Certified orders must be scheduled for production in preference to all other orders for the same product classification, except for orders covered by specific written directives issued by the Civilian Production Administration, or (in the case of distributors) a rating of AAA issued after January 21, 1946. Any purchase order certified under this direction must be treated as a rated order under Priorities Regulation 1 and accepted, scheduled and delivered accordingly. The rules of Priorities Regulation 1 will apply, except to the extent that this direction is inconsistent with them. Steel obtained on certified orders must be used in accordance with § 944.11 of that regulation.

(j) *The effect on steel of certain other directions.* (1) Direction 13 to Priorities Regulation 1, which suspended preference ratings (except certain AAA ratings on distributors) on steel, remains in effect for the time being.

(2) Direction 9 to Order M–21, which provides certifications for tin mill products for food and pharmaceutical purposes, remains in effect. That direction explains how producers of tin mill products should schedule orders certified under either that direction or this one.

(k) *Other distribution of steel.* Steel producers and warehouses must distribute balance of steel production after filling certified orders as follows:

(1) *Warehouse stocks.* Producers must ship to warehouses during the third quarter of 1946 not less than the same proportion of total tonnage of steel produced by them in that quarter as they shipped to warehouses during the fourth quarter of 1945.

(2) *Equitable distribution to consumers.* Producers and warehouses must distribute remaining amounts of steel in a fair and equitable manner.

(l) *Reports.* Steel Producers and warehouses must furnish such reports as may be required by the Civilian Production Administration from time to time, subject to approval by the Budget Bureau pursuant to the Federal Reports Act of 1942.

(m) *Additional assistance in extraordinary circumstances—(1) Steel for governmental agency requirements.* The Civilian Production Administration may authorize the placing of certified orders to fill severely limited requirements of high urgency for the Army, Navy, Coast Guard, Maritime Commission, War Shipping Administration, Veterans' Administration, Federal Public Housing Administration, Canada or for export. No applications should be made for this authority by manufacturers unless specifically requested by the appropriate government agency.

(2) *Relief for other manufacturers cannot ordinarily be granted.* The shortage of steel during the third quarter will be so severe that most manufacturers may not be able to obtain enough steel to maintain minimum economic rates of operation. For this reason, the Civilian Production Administration will not be able to offer assistance to manufacturers to support minimum economic rates of production. Assistance may be given in extraordinary circumstances where a manufacturer will suffer extraordinary hardship which is not generally common to users of steel because of the shortage of steel or for requirements of public health and safety or other similarly urgent requirements. Application should be made by letter to the Steel Branch of CPA. CPA may give assistance by finding a supplier, or by authorization to place certified orders, or by issuance of directives if required.

Issued this 28th day of June 1946.

Recording Secretary.

C., in accordance with the provisions of section 8 (a) (4) of this regulation; and any seller of canned chil con carne with beans who increases or decreases his maximum prices therefor under the provisions of this subdivision (v) of section 7 (b) (2) shall continue to allow all the deductions or discounts which were customary during the 90-day period prior to March 9, 1942, and shall supply each wholesaler and retailer who purchases from him with notification of the change in accordance with the provisions of section 6 (c), substituting the words "under the provisions of section 7 (b) (2) (v)" whenever the words "under the regulation" are used in section 6 (c). Any person desiring to produce and sell canned chili con carne with beans packed in any of the indicated size tins, and produced so as to conform to or exceed the minimum

specifications for canned chili con carne with beans established by the United States Department of Agriculture may, if he desires and in lieu of filing an application under the provisions of section 9, adopt the applicable zone minimum band prices per dozen hereinafter set forth for the selected size tin as his maximum prices for canned chili con carne with beans: *Provided*, that within 10 days after making the first sale of canned chili con carne with beans in accordance with the provisions of this section 7 (b) (2) (v), such seller must give written notification to the Office of Price Administration, Washington, D. C., that he has adopted as his maximum prices the applicable zone minimum band prices established by the provisions of this section 7 (b) (2) (v) for the size tin used, and must enclose therewith 2 copies of the labels used thereon.

7. Subdivision (iv) of section 7 (b) (6) is amended by the addition of the following sentences at the end thereof: "In the event the seller is a canner of Vienna Sausage or Frankfurters who does not manufacture these sausage items, but purchases them as sausage prior to canning, such seller may disregard the provisions of foregoing subdivisions (i), (ii) and (iii) of this section 7 (b) (6) and may substitute for the "total" herein required to be ascertained an amount not to exceed the increase in the maximum price of such sausage items authorized by Amendment 24 to Maximum Price Regulation No. 389."

PART 1370—ELECTRICAL APPLIANCES

[RMPR 111, Amdt. 15]

NEW HOUSEHOLD VACUUM CLEANERS AND ATTACHMENTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 111 is amended in the following respects:

1. A new section 5a is added to read as follows:

SEC. 5a. *"Additional OPA industry adjustments" of manufacturers' ceiling prices.* This section authorizes an "additional OPA industry adjustment" by manufacturers of their ceiling prices established under sections 4, 6, 7, 9, or 10 and adjusted under section 5 for articles covered by this regulation. Unless a manufacturer is directed otherwise by an order issued by the Office of Price Administration under this regulation every manufacturer of any articles covered by this regulation may adjust his ceiling price to purchasers other than ultimate consumers determined in accordance with either sections 4 and 5, or section 7, or established before June 27, 1946 under section 6, or by orders issued under sections 9 and 10 of this regulation, by 8.5 percent of that price. The increase granted in this section is hereby designated as the "additional OPA industry adjustment."

The 8.5 percent "additional OPA industry adjustment" may be made and collected by the manufacturer only if he has complied with the preticketing requirements of section 18 and the notification requirements of section 19a of this regulation.

Orders will be issued under this section denying a manufacturer permission to adjust his ceiling price by all or part of the increase allowed by this section when it appears to the Price Administrator on the basis of the manufacturer's production reports as filed under Supplementary Order No. 146 and other information

available to the Office of Price Administration, that the manufacturer has discontinued production of his low-end model or has decreased the proportion of low-priced to high-priced models which he manufactures so that his present production in that respect of those articles during the year July 1, 1940 through June 30, 1941. The average price at which the manufacturer's production of each type of article will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

2. Section 7 (a) (1) is amended to read as follows:

(1) He shall find the model for which he has a ceiling price which is comparable to the model being priced. The "comparable" model is the one which is most like the article being priced in design, construction, process of manufacture, and operation, which is closest to it in unit direct cost, and which is distributed through similar trade channels. An article, the ceiling price of which has been fixed under section 6, may not be used as the comparable model in pricing a new or changed model. If the changes in the model being priced include minor changes the cost of the new model shall be computed on the basis of the cost to make it without the minor changes.

3. Section 7 (a) (4) is amended to read as follows:

(4) He shall find his markup factor by dividing the ceiling price of the comparable model (exclusive of the manufacturer's "additional OPA industry adjustment" under section 5a of this regulation) by its current unit direct cost. He must use his ceiling price to the class of purchasers (distributors, dealers, mail order houses, etc.) who buy from him in the greatest volume.

4. Section 7 (a) (5) is amended to read as follows:

(5) He shall multiply the unit direct cost of the model being priced by that markup factor. The result is his ceiling price (exclusive of the "additional OPA industry adjustment" under section 5a) to the class of purchaser used in paragraph (4). His ceiling price to any other class of purchasers for the model being priced must be calculated on the basis of the percentage differential which he customarily had in effect for sales to that class of purchaser.

5. Section 8 is amended to read as follows:

SEC. 8. *Adjustment of certain prices established or reported.* Ceiling prices established or reported under sections 4 and 5 and 5a, or sections 6 or 7 and 5a, or section 6 are subject to changes at any time by written order of the Office of Price Administration if (1) the price appears to be out of line with prices established for similar models taking into account the manufacturer's relationships with other manufacturers during the base period, or (2) the price is too high or too low in comparison with the manufacturing or selling conditions actually experienced, or (3) the price is found to be incorrect under the provisions of the applicable pricing method. Any change under this section will not be retroactive.

6. Section 15 is amended to read as follows:

SEC. 15. *Distributors' ceiling prices.* A distributor's ceiling price for sales to a particular class of purchaser of a particular model of any article covered by this regulation purchased by him at a price which does not include any part of the "additional OPA industry adjustment" is the ceiling price fixed for his sales before June 27, 1946, under this regulation or by an order under this regulation.

A distributor who purchases an article covered by this regulation at a price which includes any of the "additional OPA industry reconversion adjustment" shall recompute his ceiling prices fixed before June 27, 1946, for such an article in accordance with Rule 1 of this section.

A distributor pricing in accordance with Rule 1, who cannot use the October 1–15, 1941 prices, shall use the manufacturer's ceiling price to him in effect on June 26, 1946 for the same model, his own ceiling price on that date for sales of the same model to dealers, and the retail selling price under this regulation in effect on that date for the same model, in determining the percentage of the total dollar margin he should receive. He shall determine his dollar-and-cent markup by applying the percentage so determined to the total dollar margin between the manufacturer's selling price to him (not to exceed the manufacturer's ceiling price to him including the "additional OPA industry adjustment") and the retail ceiling price (determined in accordance with section 16 of this regulation). His new ceiling price is the sum of his invoice cost for the model and the dollar-and-cent markup so determined.

Example: A distributor who, prior to June 27, 1946, sold Model P produced by manufacturer Q at a ceiling price which the distributor determined under Revised Maximum Price Regulation No. 111 or an order under that regulation and who purchases Model P after June 26, 1946 at a price which includes the "additional OPA industry adjustment" recomputes his ceiling price as follows:

Retail ceiling price for Model Q	$60.00
Manufacturer's ceiling price f. o. b. factory for sales to distributor on June 26, 1946	$28.50
Gross dollar margin	$31.50
Distributor's ceiling price to dealers on June 26, 1946	$34.00
Amount of gross dollar margin received by distributor	$5.50
Percent of gross dollar margin received by distributor	17.46
Manufacturer's ceiling price adjusted under section 5a	$30.92
Retail ceiling price under section 16 (See note below)	$60.00
Gross dollar margin	$29.08
Portion taken by distributor (17.46% of $29.08)	$5.08
Distributors new ceiling price ($30.92+$5.08)	$36.00

NOTE: To assist the distributor in making this computation a manufacturer who sells an article covered by this regulation at ceiling prices which include any part of the "additional OPA industry adjustment" is required to notify the distributor, at the time of, or prior to, the first invoice covering such sales of the retail ceiling prices which he has determined for those articles under the provisions of section 16 of this regulation.

If a distributor cannot determine his ceiling price in accordance with the preceding paragraphs of this section and if no ceiling price has been established for the particular sale by an order issued under section 14 of this regulation after June 26, 1946, he shall determine his ceiling price under the first applicable rule of the following contained in this section:

Rule 1. A distributor's ceiling price for sales of each model to each class of purchaser shall be the price which will yield the distributor the same percentage of the gross dollar margin between the manufacturer's price to him (not exceeding the manufacturer's ceiling price to him) and the dealer's price for resale to ultimate consumers as he received during the period October 1–15, 1941 in connection with the sale of the most "comparable" model sold by him to the same class of purchaser. To be "comparable" a model must be one produced by the same manufacturer.

Rule 2. If a distributor cannot determine his ceiling price for sales of a particular model to a particular class of dealer under Rule 1 of this section his ceiling price for that sale is the ceiling price established for the same sale by the "closest seller of the same class" who has determined a ceiling price under this section. A distributor's "closest seller of the same class' is a distributor who (a) has established a ceiling price under this section for sales of the identical model to the same class of purchaser, and (b) is the same general type of seller, and, (c) is located nearer to the seller than any other seller who meets requirements (a) and (b) of this rule.

Rule 3. If a distributor cannot otherwise find his ceiling price for a particular sale, his ceiling price for that sale is the price established by the Office of Price Administration in an order under this section.

An application under this rule shall be addressed to the Office of Price Administration, Washington 25, D. C., and shall state the name of the manufacturer of the article being priced, its model designation, the classes of purchasers to whom the applicant proposes to sell the article, the ceiling prices he proposes for such sales, and a statement of the reasons he cannot use the other rules in this section.

7. Section 16 is amended to read as follows:

SEC. 16. *Ceiling prices for sales to consumers*—(a) *Models other than private brands.* Notwithstanding the provisions of section 25 of this regulation, after June 26, 1946, the retail ceiling price of any article listed in section 25, Appendix A of this regulation is the higher of either the price listed in section 25, Appendix A, or the price properly calculated in accordance with this section. After June 26, 1946, every manufacturer of any article covered by this regulation other than a private brand is required to recalculate the retail ceiling price previously determined under this regulation of every such article under the first applicable rule of the following contained in this section:

Rule 1. If the retail ceiling price for a particular model fixed by section 25, Appendix A before June 27, 1946 is 195 percent or less of the manufacturer's lowest f. o. b. factory ceiling price to distributors exclusive of all adjustments except the 6 percent increase allowed by section 5 of this regulation, the retail ceiling price for sales of that model is the total rounded to the nearest 25 cents, of the following:

(1) The retail ceiling price previously established in section 25, Appendix A, and

(2) The dollar-and-cent amount of any part of the "additional OPA industry adjustment" included in the manufacturer's f. o. b. factory price under this regulation for sales of the same model to distributors.

Rule 2. If the retail ceiling price for sales of a particular model fixed by section 25, Appendix A before June 27, 1946 is more than 195 percent of the manufacturer's lowest f. o. b. factory ceiling price to distributors exclusive of all adjustments except the 6 percent increase allowed by section 5 of this regulation, the retail ceiling price for sales of the model shall be the higher of the following two amounts:

(i) The ceiling price in effect prior to June 27, 1946, or

(2) The total rounded to the nearest 25 cents, of the following:

(i) 195 percent of the manufacturer's lowest f. o. b. factory ceiling price to distributors exclusive of all adjustments except the 6 percent increase allowed by section 5 of this regulation, and

(ii) The dollar-and-cent amount of any part of the "additional OPA industry adjustment" included in the manufacturer's f. o. b. factory price to distributors under this regulation.

Rule 3. If the manufacturer cannot determine the retail ceiling price for sales of a particular model covered by this regulation, he may apply under this rule to the Office of Price Administration, Washington, D. C., for the establishment of retail ceiling prices for that particular model. Retail ceiling prices will be established by an amendment to section 25, Appendix A. An application under this order shall state the name of the manufacturer, the model designation of the article being priced, and a statement of the reasons the applicant is unable to determine retail ceiling prices for the article under the other rules in this section.

(b) *Private brands sellers of models which differ by no more than "minor changes" from models listed in section 25, Appendix A.* On or after January 21, 1946, unless this regulation or an order issued under this section specifies otherwise, the ceiling price for sales by a private brand seller to consumers of a model which differs by no more than "minor changes" as defined in section 6 from a model listed in section 25, Appendix A is the same as the ceiling price of that model as determined in accordance with paragraph (a) of this section, regardless of the model designation of the article being sold by the private brand seller. The ceiling prices for sales by private brand sellers of such articles during the period, December 21, 1945 to January 21, 1946, shall be the ceiling price specified for such sales by Maximum Price Regulation No. 111, before the issuance of this revised regulation, unless the article has a tag or label showing the OPA retail ceiling price under this revised regulation affixed by the manufacturer in accordance with section 18. If the article has such a tag or label, the retail ceiling price shall be the ceiling price established under this revised regulation and correctly shown on that tag or label.

(c) *Private brand sellers of other models.* The manufacturer or the private brand seller of any private brand model, the retail ceiling price of which has been established before June 27, 1946 under section 25, Appendix A or by an order under section 16 (c) of this regulation, is required to recalculate the retail ceiling price of every such article under the first applicable rule of the following contained in this paragraph:

Rule 4. If the retail ceiling price for a particular private brand model fixed by section 25, Appendix A or by an order under section 16 (c) before June 27, 1946 is 195 percent or less of the manufacturer's lowest f. o. b. factory ceiling price to the private brand seller exclusive of all adjustments except the 6 percent increase allowed by section 5 of this regulation, the retail ceiling price for sales of the model is the total, rounded to the nearest 25 cents, of the following:

(1) The retail ceiling price established before June 27, 1946 under the regulation for sales of the same model and

(2) The dollar-and-cent amount of any part of the "additional OPA industry adjustment" included in the manufacturer's f. o. b. factory price under this regulation for sales to the private brand seller.

Rule 5. If the retail ceiling price for a particular private brand model fixed by section 25, Appendix A or an order under section 16 (c) before June 27, 1946 is more than 195 percent of the manufacturer's lowest f. o. b. factory ceiling price to the private brand seller exclusive of all adjustments except the 6 percent increase allowed by section 5 of this regulation, the retail ceiling price for sales of the model shall be the higher of the following amounts:

(1) The ceiling price in effect prior to June 27, 1946, or

(2) The total rounded to the nearest 25 cents, of the following:

(i) 195 percent of the manufacturer's lowest f. o. b. factory ceiling price to the private brand seller exclusive of all adjustments except the 6 percent increase allowed by section 5 of the regulation, and

(ii) The dollar-and-cent amount of any part of the "additional OPA industry adjustment" included in the manufacturer's f. o. b. factory price to the private brand seller under this regulation.

Rule 6. If the manufacturer cannot determine the retail ceiling price under Rules 4 or 5 of this section he shall apply to the Office of Price Administration for the establishment of a retail ceiling price under this section.

An application under this rule shall be addressed to the Office of Price Administration, Washington 25, D. C., and shall state the name of the manufacturer of the article being priced, its model designation, the private brand sellers to whom the applicant proposes to sell the article, the ceiling prices he proposes for such sales, and a statement of the reasons he cannot use the other rules in this section.

(d) *Credit charges.* (1) Any person selling articles covered by this revised regulation to consumers, who, during the period October 1–15, 1941, collected a separately stated additional charge for the extension of credit on sales of such articles, may collect a charge for the extension of credit under this regulation, not exceeding such charge during the period October 1–15, 1941 on a similar sale on similar terms to the same class of purchaser. Dealers who did not so state and collect an additional charge may collect a charge for the extension of credit only on installment plan sales and the charge shall not exceed the separately stated additional charge for the extension of credit on a similar sale on similar terms to the same class of purchaser during the period October 1–15, 1941, by the dealer's closest competitor who made a separately stated charge.

An installment-plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (i) six weeks or more from the date of sale in the case of weekly installments, or (ii) eight weeks or more in the case of other than weekly installments.

(2) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this subsection, shall, for the purposes of this regulation be considered to be part of the price charged for the article sold.

(3) No dealer may require as a condition of sale that the consumer must buy on credit.

(e) *Correction of retail ceiling prices improperly determined under this section.* If a manufacturer fails to determine properly under this section the retail ceiling prices applicable to a particular model he produces, this Office may issue an order under this section establishing the correct ceiling prices.

8. A new section 19a is added to read as follows:

SEC. 19a. *Notification.* A manufacturer who sells articles covered by this regulation at ceiling prices adjusted in accordance with section 5a of this regulation shall, at the time of, or prior to the first invoice to each purchaser for resale purchasing the articles at prices so adjusted, notify the purchaser of the retail ceiling price determined under section 16 for each model covered by the invoice.

9. A new section 19b is added to read as follows:

SEC. 19b. *Reporting.* Every manufacturer or private brand seller who redetermines the retail ceiling prices for an article covered by this regulation under section 16 of this regulation after June 26, 1946 must send a report to the Office of Price Administration, Washington 25, D. C., stating the model designation and retail ceiling price of every model which he sells or offers for sale at prices which include any part of the "additional OPA industry adjustment". This report must be filed within 10 days after the particular model is first sold or offered for sale by the manufacturer at prices so adjusted. If the prices so reported are incorrect this Office may issue an order establishing the correct ceiling prices under section 16.

10. Section 25, Appendix A is amended by changing the text preceding the table of models and retail prices therein to read as follows:

SEC. 25. *Appendix A—Ceiling prices for sales to consumers.* The ceiling prices for sales to consumers of the models listed below are the higher of either the applicable price listed in this appendix or the price properly computed by the manufacturer or private brand seller under the provisions of section 16 of this regulation or established by an order under that section.

This amendment shall become effective on the 27th day of June 1946.

NOTE: The reporting and record keeping provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 27th day of June 1946.

[MPR 432,[1] Incl. Amdts. 1–9]

NORTHERN HARDWOOD FLOORING[2]

This compilation of Maximum Price Regulation 432 includes Amendment 9, effective July 3, 1946. The text amended by Amendment 9 is underscored.

In the judgment of the Price Administrator it is necessary and proper to establish specific maximum prices for the sale of northern hardwood flooring. The Price Administrator has ascertained and given due consideration to the prices of northern hardwood flooring prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.[3]

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

AUTHORITY: § 1382.302 issued under 56 Stat. 23, 765; 37 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487; E.O. 9697, 11 F.R. 1691.

ARTICLE I—SCOPE OF THE REGULATION

SECTION 1. *Prices higher than ceiling prohibited.* (a) On and after July 24, 1943, regardless of any contract or other obligation, no person shall sell or deliver and no person shall buy or receive in the course of trade or business, any hardwood flooring covered by this regulation for direct-mill shipment at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things.

[Paragraph (a) amended by Am. 2, 9 F.R. 171, effective 1–8–44]

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 2. *What products, transactions and persons are covered.* This regulation covers all direct-mill sales of unfinished and prefinished hardwood flooring produced from the species and in the regions indicated as follows:

Species	*Regions where produced*
Hard Maple and Birch.	Anywhere in the United States.
Beech and all other hardwood species except Hard Maple, Birch, Oak, Pecan, and Gum.	Northern, Northeastern (except Canada) and North Central, as those regions are described in Maximum Price Regulations 223, 368 and 155, respectively.

This regulation applies regardless of the kind of mill or plant in which the flooring is produced, and regardless of whether the particular item is specifically priced in the price tables or not. Any person who makes a direct-mill sale for himself or others is subject to this regulation.

NOTE: See Second Revised Maximum Price Regulation 215 for mark-ups and additions permitted on sales out of distribution yard stock.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 3. *Maximum f. o. b. mill prices.* (a) The maximum f. o. b. mill prices for maple, birch, and beech flooring are set forth in Article IV.

(b) *Small quantities.* The following additions per M' may be made when the purchaser (or purchasers in the case of a pool car) orders an item consisting of one species, thickness, and grade, in the following quantities:

Quantity ordered:	*Addition per M'*

2000 to 2999 feet	2.00
1000 to 1999 feet	2.50
999 feet or less	3.00

SEC. 4. *Delivered prices.*—(a) *Common or contract carrier.* When shipment is by common or contract carrier, the maximum delivered price of hardwood flooring under this regulation shall be an amount which is not greater than the permissible f. o. b. mill maximum price plus either (1) the actual transportation charges paid or owed by the seller to a common or contract carrier for shipment from the seller's mill to the point of delivery required by the purchaser except as stated in paragraph (b) below, or (2) transportation charges based upon estimated weights contained in the table below for shipment from the seller's mill to the point of delivery required by the purchaser except as stated in paragraph (b) below. Transportation charges based upon estimated weights shall be figured by multiplying the rail rate by the estimated weights given in the following table, evened out to the nearest quarter-dollar per 1000 feet board measure:

the following two cases a mill may apply for special permission to make an addition:

(1) When the mill was located away from rail connection because it specialized in water-borne hardwood flooring and where shortage of shipping has forced it to operate by rail.

(2) When a mill's rail connection has been abandoned since September 5, 1941. (Note: The word "abandoned," means total and permanent abandonment.)

The application should be made by letter to the Lumber Branch, Office of Price Administration, Washington 25, D. C. No additions may be made on quotations or sales for trucking to a rail head until the Office of Price Administration has given the seller permission to make such additions.

[Sec. 4 amended by Am. 7, 10 F.R. 12118, effective 10-1-45]

SEC. 5. *Grades, services, or extras not listed.* (a) If a seller wishes to sell a grade or item which is not specifically priced in the price tables, he must apply to the Lumber Branch, Office of Price Administration, Washington, D. C., for a maximum price. He must provide the following information:

(1) The requested price;

(2) A complete description of the item to be priced;

(3) The price differential between it and the most comparable item in the price tables, in October 1941, from the seller's own records, or if that is impossible, from experience of the trade. If no established price differential which can be used for comparison existed, a detailed analysis of the calculation of the requested price should be furnished.

(b) As soon as the request has been filed, quotations and deliveries may be made at the requested price, but the final payment may not be made until the price has been approved. Action on the request may be by letter or telegram.

ARTICLE III—SPECIFIC DUTIES AND PRIVILEGES AND PROHIBITED PRACTICES

SEC. 6. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

[Sec. 6 amended by Supplementary Order 50, 8 F.R. 10568, effective 7-27-43]

SEC. 6a. *Distributors' direct-mill sales*—(a)—*Definitions*—(1) *Direct mill* distributor. A direct-mill distributor is a person who has been registered and assigned a registration number as required under paragraph (b) of this section, and who makes either a wholesale-type or commission-type sale of lumber covered by the regulation.

(2) *Wholesale-type sale.* A wholesale-type sale is a direct-mill sale in which the seller buys lumber from a mill or concentration yard or wholesaler and takes title to and delivers the lumber to the buyer in substantially the same form.

(3) *Commission-type sale.* A commission-type sale is a direct mill sale through a commission-man. For purposes of this section, a commission-man is a person who represents, and customarily sells lumber in carload quantities for, two or more independently owned mills or concentration yards, receives his compensation from the mills in the form of commission based on the amount of the lumber sold, and operates independently of both buyer and seller.

(b) *Application for and granting of registration as a direct-mill distributor*—(1) *Application.* All persons desiring to operate as direct-mill distributors must apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for, and receive, a registration number before charging or receiving the additions provided in paragraph (c) of this section. Applications shall contain all information relative to the applicant's connection with any saw mills, concentration yards or other lumber producers which may have any bearing on the question of "control relationship" as described in paragraph (c) (5) of this section, including specifically any financial interest, any arrangement for distribution of profits, any loan arrangement, family relationship by blood or marriage, past employer-employee relationship, and any other direct or indirect beneficial interest between the applicant and such other operation.

(2) *Registration.* Upon the filing of an application as set forth in (b) (1) of this section, the Office of Price Administration shall issue an order registering the applicant as a direct-mill distributor. The issuance of an order of registration is proof merely that an application has been filed, but does not constitute a finding by the Office of the existence or non-existence of a "control relationship" with a mill. Paragraph (b) (5) sets forth when an addition may not be made by a direct-mill distributor, even though registered.

(3) *Distribution yards.* Distribution yards subject to Second Revised Maximum Price Regulation 215 do not have to be registered and may charge the mark-up or receive the commission permissible on direct-mill distributors' sales when making a direct-mill sale, subject however to all the conditions and limitations set forth in paragraph (c) of this section on a sale by a registered direct-mill distributor.

(c) *Direct-mill distributors' additions*—(1) *Wholesale type sales.* Except as specified in subdivision (5) of this paragraph registered direct-mill distributors may add 5 percent to the basic f. o. b. mill prices established in or approved under this regulation on wholesale type direct-mill sales of lumber covered by the regulation. The distributor's addition must be evened out to the nearest quarter dollar per M'BM, or, in the case of plastering or fence lath, or shingles, to the nearest 5 cents per 1,000 pieces. For example, if the maximum price for a particular item is $32.00 f. o. b. mill, the ceiling price for a wholesale-type sale is $33.50. This mark-up applies only to carload quantities if shipped by rail, except that sales for resale purposes in less than carload quantities may carry a direct-mill distributors mark-up when shipped in a pool carload; or to quantities of 5 M'BM or more if shipped by truck or water.

(2) *Commission-type sales.* Except as specified in subparagraph (5) of this paragraph, the f. o. b. mill maximum price on commission-type direct-mill sales of lumber covered by this regulation and made through a registered direct-mill distributor is 3 percent higher than the basic f. o. b. mill prices established in or approved under this regulation. The f. o. b. mill price including the distributor's commission must be evened out to the nearest quarter dollar per M'BM, or, in the case of plastering or fence lath, or shingles, to the nearest 5 cents per 1,000 pieces. The mill must allow the direct-mill distributor making a commission-type sale a commission at least equal to the excess over the basic f. o. b. mill prices. For example, if the maximum price for a particular item is $35.00 the mill ceiling on a commission-type sale made through a registered direct-mill distributor is $36.00 and the mill must allow the distributor at least $1.00. This mark-up applies only to carload quantities if shipped by rail, except that sales for resale purposes in less than carload quantities may carry a direct-mill distributors mark-up when shipped in a pool carload; or to quantities of 5 M'BM or more if shipped by truck or water.

(3) *Mill's price or realization on commission type sales.* This section increases maximum prices only on sales by direct-mill distributors. The mill's price, or realization after deducting a commission of at least 3 percent may never be higher than the basic mill prices established in this regulation. The mill, of course, may sell at a price at which it will realize less than its regular ceiling.

(4) *Pyramiding prohibited.* The price additions permitted in this section may not be made more than once to the basic f. o. b. mill price in the regulation regardless of the number of persons participating in the transaction. For example: if direct-mill distributor making a "commission-type" sale sells a car of $30.00 lumber to a yard which, in turn, sells for direct-mill shipment to a consumer, the mill's ceiling price on the sale through the distributor is $31.00 (3 percent addition) and the yard's ceiling price to the consumer is $31.50 (5 percent addition). Note that the yard cannot add its 5 percent either to the $31.00 on a purchase through a direct-mill distributor making a commission-type sale, or to $31.50 if the purchase was from a direct-mill distributor making a "wholesale type" sale. In both cases, the 5 percent may be added only to the basic f. o. b. mill price of $30.00.

(5) *When additions may not be made by registered direct-mill distributors.* (i) On any sale for which the invoice from the mill or concentration yard does not contain the statement, "This mill has no control relationship with any direct-mill distributor."

(ii) On any sale which carries an addition for a direct-mill retail type sale.

(iii) On any sale of less than carload quantity when shipped by rail, except that sales for resale purposes in less than carload quantities may carry a direct-mill distributors mark-up when shipped in a pool carload; or of less than 5 M'BM when shipped by truck or water.

(iv) On any sale of lumber which originates from a mill or concentration yard which has a control relationship with a direct-mill distributor. However, where a sale is made to or through a direct-mill distributor under this section, and the invoice rendered by the mill contains the statement referred to in subdivision (i) of this paragraph, the direct-mill distributor may legally make the mark-up or addition unless the direct-mill distributor knows or has reason to know that the mill's statement is false.

A "control relationship" includes any of the following relationships:

(a) *Profit sharing, direct or indirect.* This means a financial interest by a direct-mill distributor in the profits, return or realization of a mill or concentration yard, or by a mill or concentration yard in the profits, return or realization of a direct-mill distributor, and includes common ownership or control of a mill and direct-mill distributor by a third person. It also includes any arrangement whereby a distributor or producer shares in the profits of the other, whether such arrangement is written or oral, direct or indirect. It does not include such interest as arises from a genuine indebtedness of such distributor or producer to the other where the obligation of the debtor is limited in amount to repayment of the loan plus a rate of interest no greater than the maximum legal rate of interest in the State where the loan is made, or no greater than 6%, if no maximum rate is prescribed.

Where a mill or concentration yard is a corporation, stock ownership of 10 percent or less of the total outstanding stock issue by a direct-mill distributor is not a "control relationship."

(It is to be noted that the section of the regulation which makes it unlawful to pay or receive any purchasing commission or other compensation over the permissible maximum prices, remains in effect. In this connection, the granting of a loan on unusually low rates of interest, or in any other unusually favorable terms, would ordinarily constitute additional compensation in violation of such prohibition.)

(b) *Family relationship.* A family relationship exists if an owner or any part-owner of a mill or concentration yard, or any member of his family, has any interest in a direct-mill distributor, (or vice versa) and such interest was acquired on or after January 1, 1942. Member of a family means any person related to an individual or his spouse by blood or marriage within the fifth degree.

(c) *Past employer-employee relationships which were terminated after December 31, 1945.*

(d) *Report of changes.* Where a direct-mill distributor has made an application for registration and any of the facts set forth in the application, have changed, or new facts have arisen since the filing of the application, having any bearing on the question of "control relationship," either before or after registration has been granted, he shall file a written report of such change or addition with the Lumber Branch of the Office of Price Administration, Washington 25, D. C., within 10 days after such a change. Reports shall be deemed filed on the date received, or, if sent by registered mail, on the date of mailing.

(e) *Suspension of licenses.* Any person making a sale under this regulation is subject to the provisions of Licensing Order No. 1. A violation of any provision of this regulation is a violation of the seller's license. Violations of the license or of this regulation may result in suspension of the license in accordance with the provisions of the Emergency Price Control Act of 1942, as amended.

(f) *Distributors' invoicing requirements.* The invoice on any distributors' direct-mill sale must be plainly marked "wholesaler's direct-mill sale," or "commission-man's direct-mill sale," or "distribution yard's direct-mill sale," as the case may be, and must show the name of the direct-mill distributor and his registration number.

[Sec. 6a added by Supplementary Order 150, 11 F.R. 2512, effective 3-8-46]

SEC. 7. *Petitions for adjustment or amendment*—(a) See Procedural Regulation No. 6 [8] for adjustment provisions on certain government contracts or subcontracts.

[Paragraph (a) amended by Am. 2, 9 F.R. 171, effective 1-8-44 and Supplementary Order 83, 9 F.R. 973, effective 2-1-44]

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 [9] issued by the Office of Price Administration.

(c) *Applications for adjustment*—(1) *When adjustment may be granted.* The Price Administrator may by order adjust the maximum prices established under this regulation for any seller of maple, birch and beech flooring whenever he finds that the seller's maximum prices are at such a level that (taking into account costs of production and the overall profit position of the seller) production or supply of flooring is impeded or threatened.

(2) *Factors which may be considered.* The following factors are relevant to the consideration of whether maximum prices are at such a level that production or supply of the flooring is impeded or threatened:

(i) Whether, and by what amount, the maximum price is below or above unit manufacturing costs.

(ii) Whether, and by what amount, the maximum price is below or above total unit costs.

(iii) Whether, and by what amount, the seller's current over-all profits, before income and excess profits taxes, are greater or less than his average over-all profits during a normal base period, adjusted to reflect any change from the normal base period average investment.

(iv) Whether greater efficiency in production or merchandising can be reasonably expected so that an adjustment would not be necessary.

(v) Whether the seller previously sold the particular type of flooring under consideration at a price which was below his total unit costs.

(3) *Form and contents of applications.* Applications under this section must be filed in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

All applications must contain:

(i) Profit and loss statements, in the detail normally prepared by the applicant, covering the company's entire operations for the years 1936 through 1939, the last calendar or fiscal year preceding the filing of the application, the last quarter of such calendar or fiscal year and the available interim period for the current calendar or fiscal year.

(ii) Operating statements for maple, birch, and beech flooring operations only, for the last calendar or fiscal year preceding the filing of the application, the last quarter of such calendar or fiscal year and the available interim period for the current calendar or fiscal year.

(iii) A tabulation showing the production of maple, birch and beech flooring and each item within each grade for the last calendar or fiscal year preceding the filing of the application, the last quarter of such calendar or fiscal year and the available interim period for the current calendar or fiscal year.

Companies which have previously submitted any of the above-required data may omit such items from the data submitted with their applications.

[Paragraph (c) added by Am. 3, 9 F.R. 4476, effective 5-1-44; amended by Am. 4, 9 F.R. 7201, effective 6-28-44 and Am. 6, 9 F.R. 13846, effective 11-23-44]

SEC. 8. *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in credit practices and cash discounts and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

SEC. 8a. *Statements as to "control relationship."* A mill or concentration yard must make either one of the following two statements on all invoices issued by it, whichever statement is applicable:

1. This mill has no "control relationship" with any direct-mill distributor.

2. This mill has a "control relationship" with a direct-mill distributor.

[8] 9 F.R. 10628; 10 F.R. 1382, 9394.

[9] 9 F.R. 10476, 13715; 10 F.R. 11295.

If a mill or concentration yard makes a statement on an invoice that it has no control relationship with a direct-mill distributor, and such statement is false, the maximum prices at which the lumber, covered by such invoice, may be sold by it, is 5% less than the f. o. b. mill prices set forth in the price tables. However, the direct-mill distributor who makes the addition or mark up under this section shall not be considered as buying or selling above the ceiling prices where the mill's invoice bears a statement that it "has no control relationship with any direct-mill distributor" even though the mill's statement is false, unless the direct-mill distributor knows, or has reason to know, that such statement is false.

[Sec. 8a added by Supplementary Order 150, 11 F.R. 2512, effective 3-8-46]

SEC. 9. *Records.* All sellers and all buyers of hardwood flooring covered by this regulation for direct-mill shipment must retain a copy of the invoice covering each transaction or maintain records in other form containing a complete description of the flooring, name and address of the other party to the transaction, date of sale, and the price paid, including any special addition for extra service, working, or specification. These records must be retained for two years, for inspection by the Office of Price Administration.

[Above paragraph amended by Am. 2, 9 F.R. 171, effective 1-8-44]

SEC. 10. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 10a. *Licensing.* The provisions of Licensing Order No. 1,[8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Sec. 10a added by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

SEC. 11. *Imports.* The provisions of this regulation do not apply to the purchases, sales or deliveries of the commodities named in the regulation if they originate outside of and are imported into the United States. Sales, purchases and deliveries of such imported commodities are governed by the provisions of Second Revised Supplementary Regulation No. 14[7] to the General Maximum Price Regulation.

price lists or suggested retail prices in effect on February 15, 1945, may compute adjusted maximum prices in accordance with this section on the basis of those published list prices.

(b) The provisions of this section supersedes the provision of any order granting an individual price adjustment to the extent that such order provides for the adjustment of retailers' maximum prices for batteries covered by this order.

3. Section 5 is redesignated section 7 and a new section 6 is added to read as follows:

SEC. 6. *Adjusted maximum wholesale prices.* This section provides for the adjustment of wholesalers' maximum prices. Manufacturers and special brand wholesalers who had published resellers' price lists or suggested wholesalers' resale prices in effect on February 15, 1945, may compute adjusted maximum wholesale prices in accordance with this section on the basis of those list prices. In all other cases wholesalers are required to compute their own adjusted maximum prices in accordance with this section. They should also notify retailers of the conditions under which retail ceiling prices may be adjusted as provided in section 4.

(a) If the authorized increase in the manufacturer's maximum price is 8% or less, the maximum price for sales at wholesale established under section 5 of this regulation may be increased by a dollars-and-cents amount determined by taking 70% of the dollar-and-cents increase in the wholesaler's cost.

For example:

Previous cost to wholesaler	$1.00
Increase in wholesaler's cost (8%)	.08
70% of .08 = .056	
Wholesalers previous ceiling price	1.25
Add increase	.056
New wholesale price to retailer	1.306

Note that in this case the retail ceiling price would remain the same.

(b) If the authorized increase in the manufacturer's maximum price is more than 8%, the maximum price for sales at wholesale established under section 5 of this regulation may be increased by the amount permitted under paragraph (a) above, plus the number of percentage points by which the increase in the manufacturer's price exceeds 8%.

[MPR 576, Amdt. 4]

DRY BATTERIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 576 is amended in the following respects:

1. Section 2 (b) is amended to read as follows:

(b) This regulation covers sales at wholesale. For the purpose of this regulation a "sale at wholesale" means a sale to a retailer by any person including a manufacturer or a special brand wholesaler". (A "special brand wholesaler means a person who sells dry batteries which bear his special brand name, all of which have been fabricated for him by another, and which he resells at wholesale.) Sales by manufacturers to purchasers other than retailers remain under Maximum Price Regulation No. 188. Sales by persons other than manufacturers to purchasers other than retailers remain under the General Maximum Price Regulation.

2. Section 4 is redesignated section 5 and a new section 4 is added to read as follows:

SEC. 4. *Adjustment of maximum retail prices in certain cases.* (a) This section provides for the adjustment of retailers' maximum prices for sales of dry batteries for which the manufacturer's price has been adjusted by more than 8%. When the authorized increase in the manufacturer's maximum price is 8% or less, the maximum price established by section 3 of this regulation remains the retail ceiling price.

If the authorized increase in the manufacturer's ceiling price exceeds 8%, the retail price established by section 3 of this regulation may be increased by the number of percentage points by which the manufacturer's adjustment exceeds 8%, rounded to the nearest cent.

For example: If a manufacturer has been granted a 10% increase, the retail ceiling price may be increased by 2%.

Manufacturers and special brand wholesalers who had published resellers'

Effective date. This regulation shall become effective July 24, 1943. [Maximum Price Regulation 432 originally issued July 19, 1943]

[Effective dates of amendments are shown in notes following the parts affected]

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Previous cost to wholesaler	$1.00
Previous ceiling price to retailer (MPR 576)	1.25
Manufacturer's increase is 10%—or 2% more than 8%.	
Wholesaler's increase permitted by paragraph (a)	.056
Increase in excess of 8% = 2% of 1.25	.025
New maximum price to retailers	1.331

In this case the retailer's price to a consumer is increased by 2%.

(c) The provisions of this section supersede the provisions of any order granting an individual price adjustment to the extent that such order provides for the adjustment of wholesalers' maximum prices for batteries covered by this order.

4. Sections 6, 7, 8, 9, 10, 11, 12, 13 and 14 are redesignated sections 8, 9, 10, 11, 12, 13, 14, 15 and 16 respectively.

PART 1374—FURS

[MPR 553,[1] Amdt. 1]

AUSTRALIAN AND NEW ZEALAND RABBIT SKINS AND HATTERS' FUR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 553 is amended in the following respects:

1. Section 2 (a) is amended to read as follows:

(a) *What products and transactions are covered by this regulation.* This regulation applies to all sales, purchases and deliveries of raw rabbit skins imported or to be imported from Australia and New Zealand to the United States, to all sales, purchases and deliveries of such skins, dressed or dressed and dyed, and to all sales, purchases and deliveries of hatters' fur of "entire" and "unpulled" grades made from such skins.

2. Paragraph (a) of section 5 is revoked.

3. Paragraph (b) of section 5 is amended to read as follows:

(b) *Maximum prices for raw rabbit skins sold by primary or secondary dealers.* (1) The maximum price for a sale or delivery of raw rabbit skins by a primary or secondary dealer shall be the sum of the net invoice cost (as defined in subparagraph (2) below) of the raw rabbit skins to the primary dealer and the applicable cents per pound markup listed in Appendix A.

(2) "Net invoice cost" means the net price per pound actually paid for the skins by the primary dealer to the foreign seller or the agent of the foreign seller plus certain financing, importation and landing charges as specified below:

(i) Where the primary dealer purchased the skins f. o. b. Australian or New Zealand port of shipment, including export taxes, the seller may add to the net price paid, freight (including inland freight from port of entry when actually paid as an item separate from ocean freight), bank commissions, bank cable charges, customs brokerage, cartage, and marine and war risk insurance premiums which he actually paid; or

(ii) Where the primary dealer purchased the skins C. and F., the seller may add to the net price paid, inland freight when actually paid as an item separate from ocean freight, bank commissions, bank cable charges, customs brokerage, cartage, and marine and war risk insurance premiums which he actually paid; or

(iii) Where the primary dealer purchased the skins C. I. F., the seller may add to the net price, inland freight from port of entry when actually paid as an item separate from ocean freight, bank commissions, bank cable charges, customs brokerage, and cartage which he actually paid.

4. Section 6 is amended to read as follows:

SEC. 6. *Maximum prices for dressed rabbit skins sold by primary dealers or secondary dealers.* The maximum price for a sale or delivery of dressed rabbit skins by a primary dealer or a secondary dealer shall be the sum of (i) the net invoice cost (as defined in section 5 (b) (2)) of the raw rabbit skins to the primary dealer, (ii) the actual cost of dressing the raw rabbit skins, and (iii) the applicable cents per pound markup listed in Appendix A.

5. Section 7 is amended to read as follows:

SEC. 7. *Maximum prices for dressed and dyed rabbit skins sold by primary dealers or secondary dealers.* The maximum price for a sale or delivery of dressed and dyed rabbit skins by a primary dealer or a secondary dealer shall be the sum of (i) the net invoice cost (as defined in section 5 (b) (2)) of the raw rabbit skins to the primary dealer (ii) the actual cost of dressing and dyeing the raw rabbit skins and (iii) the applicable cents per pound markup listed in Appendix A.

6. Section 8 is amended to read as follows:

SEC. 8. *Maximum prices for sorted lots of dressed or dressed and dyed rabbit skins.* The maximum price for a sale or delivery of a particular grade of dressed or dressed and dyed rabbit skins sorted out of a lot of dressed or dressed and dyed rabbit skins shall be the applicable maximum price for the unsorted lot as determined under section 6 or 7 of this regulation increased by 10% of the applicable cents per pound markup listed in Appendix A. However, the total sum received for all the skins in the lot may not exceed the applicable maximum price for the entire lot if it were sold on an unsorted basis.

7. Section 10 is amended to read as follows:

SEC. 10. *Maximum prices for hatters' fur made from skins covered by this regulation.* The maximum price at which any person may sell, purchase or deliver entire or unpulled grades of hatters' fur made from skins covered by this regulation shall be the sum of the maximum price for the raw rabbit skins which a primary or secondary dealer may charge under section 5 (b) and the net maximum price which the seller has properly established under RMPR 165 for the service of processing raw rabbit skins into hatters' fur.

8. Section 11 (a) is amended to add item (7) at the end thereof to read as follows:

(7) The net invoice cost of each grade of the raw rabbit skins to the primary dealer, itemized as follows:

(i) The price actually paid exclusive of the financing, importation and landing charges specified in section 5 (b) (2) (i), (ii) or (iii),

(ii) The shipping terms (i. e., f. o. b. Australian or New Zealand port of entry, including export taxes, or C and F or C. I. F.),

(iii) A list of each item of financing, importation or landing charge actually paid by the primary dealer and permitted to be added under section 5 (b) (2) (i), (ii) or (iii).

9. Subdivisions (ii) and (iii) of item (5) in section 11 (b) are amended to read as follows:

(ii) The kinds and where sold in graded lots, the grades of dressed rabbit skins, and the quantity of each kind and grade (where the seller sells at a price per skin, he shall state, in addition to the number of skins of each grade in the lot, the number of pounds of such grade in the lot and his maximum price per pound for such grade),

(iii) The kinds and, where sold in graded lots, the grades of dressed and dyed rabbit skins, and the quantity of each kind and grade of dressed and dyed rabbit skins (where the seller sells at a price per skin or per dozen skins, he shall state, in addition to the number of skins of each grade in the lot, the number of pounds of each grade in the lot and his maximum price per pound, for such grade), and the dyer's name or trade mark identifying the dye process; and

10. Section 11 (b) is amended to add item (7) at the end thereof to read as follows:

(7) The net invoice cost of each grade of the raw rabbit skins to the primary dealer, itemized as follows:

(i) The price actually paid exclusive of the financing, importation and landing charges specified in section 5 (b) (2) (i), (ii) or (iii),

(ii) The shipping terms (i. e., f. o. b. Australian or New Zealand port of entry, including export taxes, or C and F or C. I. F.),

(iii) A list of each item of financing, importation or landing charge actually paid by the primary dealer and permitted to be added under section 5 (b) (2) (i), (ii) of (iii),

[1] 9 F.R. 10773.

11. Appendix A is revoked and a new Appendix A is substituted to read as follows:

APPENDIX A

The cents per pound markups listed below are the maximum markups for the specified raw, dressed or dressed and dyed grades of rabbit skins for the designated type of seller. The maximum markup for any grade of rabbit skins not specifically listed in this section shall be the same cents per pound markup specified for the nearest related grade of rabbit skins listed.

Where a seller sells at a price per skin rather than at a price per pound he may determine his maximum price per skin by dividing the total maximum price (computed on a per pound basis) for each grade in the lot by the number of skins of such grade in the lot.

For example: A secondary dealer has a lot of 1,350 rabbit skins which are 1st Winter Pelts. The primary dealer's net invoice cost of these skins was $2.50 per pound raw and the lot weighs 300 pounds. The cost of dressing was 8½ cents per skin. Consequently, the second dealer's total maximum price (on a per pound basis) is the sum of

$750.00—total raw cost (per pound basis) to the primary dealer (300 lbs. times $2.50 per pound)
114.75—total dressing cost (1,350 skins times 8½¢ per skin)
117.18—secondary dealer's markup (300 × .5906 cents = $117.18)

1,041.93—total maximum price for the lot. Therefore, the dealer's maximum price per skin is 77¢ per skin (1,041.93 divided by 1,350 skins).

(a) *Australian rabbit skins*—(1) *Maximum cents per pound markups for sleeved grades of raw rabbit skins of New South Wales (Sydney) and Tasmanian origin.*

PART 1400—TEXTILE FABRICS: COTTON, WOOL, SILK, SYNTHETICS AND ADMIXTURES

[MPR 39,[1] Amdt. 14]

WOVEN DECORATIVE FABRICS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 39 is amended in the following respects:

1. Section 1400.161(a) is amended in the following respects:

a. Subparagraphs (2) and (3) are amended to read as follows:

(2) "Manufacturer" means (i) any person who owns, operates or controls a factory, plant or mill in which woven decorative fabrics are manufactured; (ii) any person who supplies yarn to a factory, plant or mill for weaving and finishing into a woven decorative fabric on a commission basis; (iii) any person who supplies yarn to a factory, plant or mill and purchases woven decorative fabrics therefrom; (iv) any person who supplies yarn to a factory, plant or mill and purchases the grey fabric therefrom which he finishes or causes to be finished into woven decorative fabrics or which he supplies to a converter or finishing plant and repurchases in a finished state for resale as a woven decorative fabric; (v) any person who supplies to a finishing plant grey fabrics woven by him to be finished for his own account into a woven decorative fabric; or (vi) any person who manufactures grey fabrics, supplies them to a converter or finishing plant, and repurchases them or any portion of them in a finished state for resale as a woven decorative fabric.

(3) "Converter" means a person who purchases textile fabrics other than woven decorative fabrics and resells them in a substantially different state as woven decorative fabrics after finishing them or causing them to be finished for his account and includes any agent of the converter and includes any person who sells grey goods to another person and repurchases woven decorative fabrics which the latter has finished or caused to be finished.

b. The first unnumbered paragraph of subparagraph (11) is amended to read as follows:

(11) "Reseller" means a person (other than a retailer) who sells woven decorative fabrics in substantially the same state (except for cutting) as that in which they were purchased and includes the following types of sellers among others:

c. Subparagraph (13) is added to read as follows:

(13) "Base period" means the period from July 11 to September 10, 1941, inclusive, when used in connection with sales by manufacturers, and the period from September 11 to November 10, 1941, inclusive, when used in connection with sales by converters or resellers.

2. Section 1400.163 (a) (2) is amended to read as follows:

(2) No seller shall discontinue or alter to the prejudice of a purchaser any discount, differential or service granted or rendered to purchasers of the same class during the base period.

3. Section 1400.164 is amended to read as follows:

§ 1400.164 *Appendix B: Maximum prices for sales of woven decorative fabrics by the converter thereof*—(a) *Terms and conditions of sale.* The provisions of § 1400.163 (a) (1) shall apply to the maximum prices established herein. No person making a sale covered by paragraph (d) (1) (ii) of this section shall discontinue or alter to the prejudice of a purchaser any discount, differential (other than for quantity) or service granted or rendered to purchasers of the same class during the base period. In all other sales, the terms of sale shall be not less favorable to the purchaser than 2/10/60 extra. A converter shall allow the same discount for substandard goods which he allowed in the base period.

(b) *Maximum price formula for converters.* The maximum price for a pattern of any specific construction of a woven decorative fabric sold by the converter thereof shall be, except as provided in (d) (2) below, the sum of the net invoice price of the grey fabric and the price of the finishing operation used in producing the woven decorative fabric, multiplied by the applicable percentage factor set forth in paragraph (d) of this section. To the product resulting therefrom the converter may add the incoming grey freight and the allowance for shrinkage but he may not add such cost factors as those of seconds, remnants, put-up, designing, screen-cutting or engraving.

(c) *Explanation of terms used in the pricing formula*—(1) *Net invoice price.* With the following exceptions, the "net invoice price" of the grey fabric means the price to the converter less all available discounts and allowances. If the converter purchases the fabric in other than the grey state, the "net invoice price" means the applicable maximum price for the fabric if sold in the grey less all available discounts and allowances.

(2) *Imported grey fabric.* If the grey fabric is imported, the converter shall use as his maximum price for the grey fabric the maximum price applicable to the most nearly comparable domestic grey fabric or the landed cost of the fabric at port of entry, whichever is lower.

(3) *Price of the finishing operation.* The "price of the finishing operation" shall be the net price paid by the converter not in excess of the maximum price established therefor in accordance with Maximum Price Regulation No. 128,[2] except that in the case of machine-printed fabrics the price of the finishing operation shall be calculated on a base quantity of not less than 8,000 yards, and in the case of piece-dyed fabrics, upon a base quantity of not less than 500 yards. Furthermore, a converter whose principal business is that of a decorative service wholesaler may use the actual cost of piece-dyeing where the yardage to be converted does not exceed 100 yards and the finishing operation is performed at the express order of the purchaser.

(4) *Grey freight.* (i) The grey freight which may be included in computing the maximum price for the finished fabric shall be no higher than the actual transportation charges paid by the converter (not absorbed by the finisher[3]) for the transportation of the grey fabric to the plant where the finishing process was begun.

(ii) In the event the grey fabric is transported in a conveyance owned or operated by the converter, or the finisher,[4] or by a person controlling, controlled by, or under common control with the converter or the finisher and the charges are not absorbed by the finisher, the freight charge shall not exceed the charge which would be applicable to an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate.

(iii) Where fabrics are shipped from the grey mill to a point other than the finishing plant where the finishing process is begun, only the actual freight (which is not absorbed by the finisher[3]) incurred in the final shipment from such other point to the finishing plant where the finishing process is begun may be used in determining the maximum price under this section.

(iv) Where fabrics are trans-shipped from one finishing plant to another (after the fabrics are partially or wholly finished), the freight charges on such trans-shipments shall not be included in computing the maximum price under this section: *Provided*, That if partially finished fabrics are trans-shipped from one finishing plant to another for the purpose of screen printing, flock printing, lacquer printing, embossing, or moireing at the second plant, then the freight charges on such trans-shipment may be included in computing the maximum price under this section.

(5) *Allowance for shrinkage.* (i) If the fabric is finished by a job finisher the converter shall use as the working allowance in determining the maximum price under this section the actual figure specified by the finisher in his contract: *Provided*, That if the working allowance specified in the contract shall exceed the actual shrinkage of the fabric by more than 2%, then such actual shrinkage plus such 2% tolerance shall constitute the maximum working allowance to be used in determining the maximum price for the finished piece goods.

(ii) If the converter does his own finishing he shall use the actual shrinkage resulting from finishing the fabric.

(iii) In the event that there is a net yardage gain as a result of the finishing process, such gain must be deducted from the net invoice price of the grey fabric under paragraph (b) of this section.

(d) *Percentage factors for converters*—(1) *Percentage factors for sales of woven decorative fabrics by the converter thereof who sold such fabrics during the base period*—(i) *Converters with average percentage factors of from 105% to 189.9%, inclusive, selling machine-printed or piece-dyed woven decorative fabrics in piece quantities.* Converters with average percentage factors of from 105% to 189.9% inclusive, shall sell machine-printed or piece-dyed woven decorative fabrics in piece quantities as set forth below. These percentage factors apply only to sales of woven decorative fabrics by the converter thereof who during the base period sold woven decorative fabrics which he converted.

Range of average percentage factors	Applicable percentage factor[1] for determining the maximum price	
	Sales to department stores for stock	Sales to resellers and to producers[4]
	A	B
105% to 144.9%	120%	120%.
145% to 154.9%	130%	There are no applicable percentage factors for these types of sale. The maximum price for sales to resellers and to producers is the maximum price for sales to department stores for stock, less 5%.
155% to 164.9%	140%	
165% to 189.9%	150%	

[1] The *applicable percentage factor* for the determination of a maximum price is the percentage factor in Column A or B, whichever is appropriate, listed opposite the percentage range within which the *average* percentage factor falls.

(ii) *Other sales by such converters.* In all other sales of woven decorative fabrics by the converter thereof who sold such fabrics during the base period, the converter shall determine his applicable percentage factor by reducing that portion of his appropriate average percentage factor which exceeds 100% by 20% in sales of machine-printed or piece-dyed fabrics and by 10% in sales of hand-printed fabrics.

(2) *Percentage factors for sales of woven decorative fabrics by the converter thereof who did not sell such fabrics during the base period or who cannot determine his percentage factors because of a lack of records.* The applicable percentage factor in the sale of woven decorative fabrics by the converter thereof who did not sell such fabrics during the base period or who cannot determine his applicable percentage factor because of a lack of records, except as provided in §1400.155 (b), shall be 125% in sales to department stores for stock and other retailers and 120% in sales to resellers and producers.[4] If the maximum price for the finishing operation exceeds 25 cents per linear yard, the applicable percentage factor shall be applied to the sum of the maximum price for the grey goods plus 25 cents. To the result the converter may add the amount by which the maximum price for the finishing operation exceeds 25 cents per linear yard, the incoming grey freight, and the allowance for shrinkage.

(e) *How to compute the average percentage factor.* (1) Each converter shall determine an average percentage factor for each of the following categories of sales which he made during 1941:

(i) Piece-length sales of machine-printed or piece-dyed woven decorative fabrics.

(ii) Piece-length sales of hand-printed woven decorative fabrics.

(iii) Cut-length sales of machine-printed or piece-dyed woven decorative fabrics.

(iv) Cut-length sales of hand-printed woven decorative fabrics.

(2) The converter shall compute his average percentage factor for his sales in each of the above categories in the following manner:

(i) For each category of sale he shall determine from each of the ten constructions of woven decorative fabrics which he converted and of which he delivered the largest linear yardage in 1941, the pattern of which he delivered the largest linear yardage in 1941. (If he has delivered less than ten constructions, he shall use all his construction);

(ii) For each of these patterns he shall then divide the "price of the finished fabric" by the sum of his highest invoiced cost of the grey fabric and the highest price he paid (or the highest price he incurred) for the finishing operation used in producing the pattern during the period from January 1 to November 10, 1941, inclusive, and this shall be his percentage factor for that pattern. The "price of the finished fabric"[4] shall be his highest list price in effect during the base period for the particular category of sale to the class of purchaser first listed below. If he had no price list in effect during the base period, he shall use his highest invoiced price for that category of sale to that class of purchaser during the base period:

Full-piece sales:
- Sales to department stores for stock.
- Sales to large quantity purchasers.
- Sales to resellers.

Cut-length sales:
- Sales to interior decorators.
- Sales to upholsterers.
- Sales to other retailers.

(iii) He shall then compute the simple arithmetical average of the percentage factors for the ten (or less)[5] patterns of specific constructions and this shall be his average percentage factor for the particular category of sale.

4. Section 1400.165 is amended in the following manner:

a. Paragraph (a) is amended to read as follows:

(a) The provisions of paragraph (a) (1) of § 1400.163 shall apply to the maximum prices established herein. For sales of woven decorative fabrics by decorative service wholesalers, terms and discounts shall be not less favorable than those granted to purchasers of the same class during the period from September 11 to November 10, 1941, inclusive. For sales by converter-jobbers, terms of sale shall be 2/10/net 70. Terms for sales of such fabrics by all other resellers shall be not less favorable to the purchaser than 2/10/net 30.

b. Paragraph (b) (7) is amended to read as follows:

(7) For a reseller who does not qualify as one of the specific types of resellers defined in § 1400.161 (a) (11), 125%, except that the factor shall be 120% on sales to a second reseller by such a reseller who with respect to the fabric performed the function of a converter-jobber and who did not sell and deliver woven decorative fabrics as a converter-jobber during 1941.

c. Subparagraph (c) (3) is added to read as follows:

(3) 125% of the net invoice price paid by the reseller (exclusive of cost of freight) in his resales of substandard goods.

This amendment shall become effective June 28, 1946.

Issued this 28th day of June 1946.

Administrator.

[3] The term "finisher" as used herein refers to a person other than the converter who performs the finishing operation such as dyeing or printing.

[4] The term "producers" as used in this regulation refers to producers of furniture, draperies, slip-covers, bedspreads and other similar products in which woven decorative fabrics are used.

[5] It should be noted that there can be no more than one "price of the finished fabric" for each pattern of a specific construction in any one category of sale set forth in subparagraph (1) of this paragraph.

[5] Ordinarily this will be an average of the percentage factor for ten patterns of specific constructions. However, an exception is provided for in subdivision (i) of this subparagraph where the converter has less than ten constructions of which he made the particular category of sale during the base period.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of June 1946;

It appearing, that a consolidated hearing on the above-entitled applications is scheduled at New York, New York, on Monday, the eighth day of July 1946; that on June 17, the Commission in writing advised each of the above-entitled applicants that certain additional engineering data would be required; that in all docket cases § 1.73 of the Commission's rules requires the filing of a petition for leave to amend and § 1.141 of the said rules requires the filing of an original and fourteen copies of all such petitions; that with the filing of any petition for leave to amend, the actual amendment (an original and two copies, two of which must be duly executed) is required to be filed simultaneously with the petition; and

It appearing, that the interval of time between the Commission's notice of requirement of the additional engineering data, and the hearing on said applications, is so short that compliance with §§ 1.73 and 1.141 of the rules would appear to constitute an unreasonable burden upon said applicants; and

It appearing further, that, in any event, if all parties were permitted to present their said amendments directly to the presiding officer of the consolidated hearing on the above-entitled applications, all parties at the said hearing would have an opportunity to make any objections, if any they might have; and that public interest would be served by waiving the provisions of §§ 1.73 and 1.141 of said rules, and by giving the said presiding officer authority to accept said amendments; now, therefore, *It is ordered:*

1. That §§ 1.73 and 1.141 of the Commission's rules of practice and procedure, be, and they are hereby, waived, for the purpose only of permitting amendments relating solely to the additional data requested by the Commission in connection with the above-entitled applications, to be filed directly with the presiding officer of the consolidated hearing thereon;

2. That said presiding officer of the consolidated hearing on the above-entitled applications be, and he is hereby, authorized to accept for filing all such amendment which comply with § 1.74 of the Commission's rules, and where no objection thereto is made by any party;

3. That in the event of objection by any party to such amendment, said presiding officer be, and he is hereby, directed to refer said amendment to the Commission for action by the Motions Commissioner.

(1) A distributor's ceiling prices for sales in each zone of each model to servicing dealers (dealers who furnish installation and delivery and all the services which must be supplied the ultimate consumer in connection with the sale of the refrigerator) shall be the price which will yield the distributor the same proportion of the total dollar margin between the manufacturer's price to him and the dealer's price for resales to ultimate consumers in that zone as he received during the period October 1-15, 1941 in connection with the sale of the most comparable model produced by the Stewart-Warner Corp. to the same class of purchasing dealer.

(2) If a distributor cannot determine his ceiling prices for sales of a particular model to servicing dealers under subparagraph (1) above, his ceiling price for that sale is the ceiling price established under this order for the sale by his "closest seller of the same class." [Rev. SO 119, Order 271]

GREEN RIVER CHAIR CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119; it is ordered:

(a) *Manufacturer's ceiling prices.* Green River Chair Company, Livermore, Kentucky, may compute its adjusted ceiling prices for all articles of finished wood chairs which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 37 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a ceiling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price," the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective June 27, 1946.

Issued this 27th day of June 1946.

PAUL A. PORTER,
Administrator.

UNITED STOVE CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* United Stove Company, Ypsilanti, Michigan, may increase its ceiling prices under Maximum Price Regulation No. 64 (exclusive of all adjustments except the increase allowed by section 3 of that regulation) for each article in the lines of kerosene hot plates, kerosene ranges, and kerosene heaters which it manufactures, as follows:

Product line:	Percent increase
Kerosene hot plates	16.6
Kerosene ranges	22.1
Kerosene heaters	16.6

(b) *Wholesaler's ceiling prices.* A wholesaler shall determine his ceiling prices for any article which he has purchased at ceiling prices adjusted under this order as follows:

(1) If he has ceiling prices established before October 8, 1945 for sales of the same article produced by the same manufacturer he shall calculate his ceiling price under this order as follows:

Step 1. He shall deduct from his invoice cost (not to exceed the manufacturer's ceiling price to him under this order) any amount included therein on account of the Federal excise tax.

Step 2. He shall deduct from the result of Step 1, 10.2 percent of his invoice cost exclusive of the Federal excise tax.

Step 3. He shall add to the result of Step 2 the same percentage mark-up which he had before October 8, 1945 on the same article or, if he did not sell the same article, on the "most comparable article" produced by the same manufacturer.

Step 4. He shall add to the result of Step 3, 86 percent of the amount he deducted in Step 2.

Step 5. He shall add to the result of Step 4 the amount included in his invoice cost on account of the Federal excise tax. The result is the wholesale reseller's ceiling price under this order.

The determination of a ceiling price under this paragraph of this order need not be reported to the Office of Price Administration. Each seller, however, must keep complete records showing all the information called for by OPA Form 620–789 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a purchaser for resale at wholesale cannot establish his ceiling price under subparagraph (1) above, he shall adopt as his ceiling price, the ceiling price of his "closest seller of the same class" for the identical model of stove produced by the same manufacturer. The "closest seller of the same class" of a reseller at wholesale is a reseller who (a) has established a ceiling price under subparagraph (1) above for sales of the identical model of stove produced by the same manufacturer to the same class of purchaser, and (b) is the same general type and class of seller, and (c) is located nearer to the seller than any other seller who meets requirements (a) and (b) of this subparagraph.

(3) If a reseller at wholesale cannot otherwise find his ceiling price for a particular sale he shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation or § 1372.101 (d) of Maximum Price Regulation No. 210, whichever is applicable. Ceiling prices set under either of those sections will reflect the supplier's prices as adjusted in accordance with this order diminished in accordance with subparagraph (1) above.

(c) *Retailers' ceiling prices.* A retailer shall determine his ceiling prices for resales of any article which he had purchased at a ceiling price adjusted under this order as follows:

(1) If he has a ceiling price established before October 8, 1945 for sales of the same article produced by the same manufacturer he shall increase that ceiling price by 5.5 percent if the article is a kerosene hot plate, by 8.5 percent if the article is a kerosene range, or 5.0 percent if the article is a kerosene heater.

(2) If he cannot establish his ceiling price under subparagraph (1) above because he did not sell the same article between March 1, 1942 and October 7, 1945 but he has a ceiling price determined under this paragraph for a comparable article produced by the same manufacturer, he shall determine his ceiling price for the article being priced in accordance with the provisions of § 1499.3 (a) of the General Maximum Price Regulation using as his ceiling price for the "most comparable article" his ceiling price as adjusted under this order and using as his unit replacement cost for the "most comparable article" its cost to him as adjusted under this order.

The determination of a ceiling price under this paragraph of this order need not be reported to the Office of Price Administration. Each seller, however, must keep complete records showing all the information called for by OPA Form 620–789 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(3) If he cannot establish his ceiling price under subparagraph (a) above he shall adopt as his ceiling price, the ceiling price of his "closest competitive seller" for the same article produced by the same manufacturer. A retailer's "closest competitive seller" is a retailer who (a) has established a ceiling price under this paragraph for sales of the identical model of stove produced by the same manufacturer to the same class of purchaser, and (b) is the same general type and class of seller, and (c) is located nearer to the seller than any other seller who meets requirements (a) and (b) of this subparagraph.

(4) If a retailer cannot otherwise find his ceiling price for a particular sale he shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation or § 1372.101 (d) of Maximum Price Regulation No. 210, whichever is applicable. Ceiling prices set under either of those sections will be set in line with those of retailers whose ceiling prices have been determined under subparagraphs (1) or (2) above.

(d) *Definition of "most comparable article".* For purposes of this order the "most comparable article" is the one which meets all the following tests:

(1) It is manufactured by the United Stove Company.

(2) It belongs to the narrowest trade category which includes the article being priced.

(3) Both it and the article being priced were purchased from the same class of supplier.

(4) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(5) Its net unit replacement cost is nearest to the net cost of the article being priced.

(e) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale of articles sold at ceiling prices adjusted under this order, the seller shall notify the purchaser in writing of the method of establishing ceiling prices set by this order for resales by the purchaser. This notice may be given in any convenient form.

(f) *Relationship of this order to Maximum Price Regulation No. 64, Maximum Price Regulation No. 210, the General Maximum Price Regulation and Orders No. L–6 and 49 under Supplementary Order No. 119.* The ceiling prices established by this order supersede those established by Orders L–6 and No. 49 under Supplementary Order No. 119 with respect to articles sold by the manufacturer at ceiling prices determined under this order.

All the provisions of Maximum Price Regulation No. 64, Maximum Price Regulation No. 210 and the General Maximum Price Regulation continue to apply to all sales of articles covered by this order except to the extent that they are modified by this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

(h) This order shall become effective on the 27th day of June, 1946.

Issued this 27th day of June 1946.

DRY CELL BATTERIES

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. *Purpose of this order.* This order, issued under § 1499.159b of Maximum Price Regulation No. 188, provides for increases in maximum prices of dry cell batteries for sales by manufacturers and by resellers whose prices are under the GMPR.

SEC. 2. *Articles and persons covered by this order.* (a) This order covers all dry batteries (including dry cells activated by water before use) except military surplus, salvage or scrap dry batteries which are covered by orders under Supplementary Order No. 94 or by section 3.1 of Supplementary Regulation No. 14J. For the purpose of this order a "dry battery" means any type of primary dry cell or combination of primary dry cells used as a source of electrical energy. A storage battery or "wet cell" battery is not a dry battery under this order. Some of the types of batteries covered by this order are: flashlight batteries, radio batteries, hearing aid batteries, No. 6 cells, "hot shot" batteries, lantern batteries, fence control batteries and mine blasting batteries.

(b) This order applies to sales by manufacturers, "special brand wholesalers" and by all other resellers whose prices are governed by the GMPR. It does not apply to sales at retail as that term is defined in MPR 576.

(c) A "special brand wholesaler" is a person who sells dry batteries which bear his special brand name, the entire output of which has been fabricated for him by another, and which he resells at wholesale.

SEC. 3. *Determination of maximum prices.* Sellers covered by this order shall continue to determine their maximum prices for sales of new or changed dry batteries under the same regulations and pricing provisions applicable before this order was issued, as modified by this order.

SEC. 4. *Adjusted maximum prices for sales by "manufacturers" and "special brand wholesalers".* The adjusted maximum price of a dry battery for sale by a manufacturer or a special brand wholesaler to each class of purchaser other than a sale at retail is the higher of the following:

(a) 108% of the seller's maximum price to wholesalers established under the provisions of Maximum Price Regulation No. 188 or the General Maximum Price Regulation, exclusive of any authorized adjustment.

(b) The manufacturer's or special brand wholesaler's maximum price adjusted under any individual adjustment order issued by the Office of Price Administration. However, in no case may a maximum price for a sale to a retailer determined under this section exceed the price which is established by MPR 576 for resellers' sales of the article to retailers.

SEC. 5. *Adjusted maximum prices for sales at wholesale by certain resellers.* Resellers at wholesale of the dry batteries covered by this order, whose maximum prices are governed by the GMPR rather than by MPR 576 may increase those maximum prices (exclusive of any authorized adjustment) to each class of purchaser by the dollar-and-cents amount of the increase charged by his supplier pursuant to this order.

SEC. 6. *Notification.* At the time of or prior to the first invoice, each manufacturer and special brand wholesaler shall notify a purchaser for resale of the amount of the adjustment granted by this order. This notice may be given in any convenient form. Manufacturers and special brand wholesalers who published resellers' list prices or resellers' suggested list prices in effect on the effective date of this order shall compute resellers' new ceiling prices in accordance with MPR 576.

SEC. 7. *Terms of sale.* Maximum prices adjusted by this order are subject to the seller's customary terms, discounts and allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or which have subsequently been properly established under Office of Price Administration regulations and orders, except where inconsistent with the provisions of this order.

SEC. 8. *Relationship between this order and other regulations.* The provisions of this order supersede the provisions of Maximum Price Regulation No. 188, of the General Maximum Price Regulation and of orders granting individual adjustments to the extent that they are inconsistent with the terms of this order.

SEC. 9. *Revision of maximum prices.* Any maximum price adjusted under this order may be revised under this section by an order issued by the Office of Price Administration when such adjusted maximum price is not in-line with the level of prices established by this order.

SEC. 10. *Modification of the provisions of this order.* The provisions of this order, as applicable to articles and persons subject hereto, may be modified by orders of general applicability issued under this section.

SEC. 11. *Revocation and amendment.* This order may be revoked or amended by the Price Administrator at any time.

Effective date. This order shall become effective on the 28th day of June 1946.

Issued this 28th day of June 1946.

PAUL A. PORTER,
Administrator.

[Region VI Order G-1 Under SO 133]

GEM PRODUCTS, INC.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in the accompanying opinion and under the authority vested in the Regional Administrator of Region VI of the Office of Price Administration by section 4 of Supplementary Order No. 133, this Order No. G-1 is issued.

(a) *Effect of this order.* This Order No. G-1 establishes new maximum prices for sales by all sellers of waxes, oils, cleaning compounds and related household specialties manufactured by Gem Products, Inc., 234 West Florida Street, Milwaukee 4, Wisconsin (hereinafter referred to as "manufacturer").

(b) *Maximum prices.* Maximum prices for sales of the articles covered by this Order No. G-1 are set forth in Appendix A, attached to and hereby incorporated as a part of this order. Each article is designated therein in Column 1 by the stock number assigned to it by the manufacturer; the articles are grouped according to class; and the type of reseller concerned is shown. Where the amounts shown in Columns 4, 5, and 6 of the appendix pertain to dozen-lot sales, they shall apply proportionately to sales of lesser quantities, and in such event the indicated maximum price and any authorized additions to the maximum price shall be rounded to the nearest cent.

(1) *Manufacturer's maximum prices.* The adjusted maximum prices for the manufacturer's sales listed in Column 4 of Appendix A are f. o. b. factory prices to which there may be added, subject to paragraph 3 below, the respective delivery charge shown in Column 5 for a sale on a delivered basis: *Provided, however,* That such additional charge shall be shown on the invoice separately from the f. o. b. factory price. An article for which no adjusted maximum price is given in Column 4 has previously been lawfully increased in price for the manufacturer's sales to an extent equal to or greater than the amount of adjustment that might otherwise be warranted under this Order No. G-1. Accordingly, in such case the manufacturer's maximum price for f. o. b. factory sale of the article is that shown for it in Column 3.

(2) *Resellers' price adjustments.* The attached Appendix A contains in Column 6 the respective amounts of adjustment that may be added by any reseller, under certain conditions, to his existing maximum prices for sales of the articles listed in the Appendix. An adjustment figure in Column 6 represents the difference between the manufacturer's prior maximum prices in Column 3 and his adjusted maximum prices in Column 4, all of which are f. o. b. factory prices. As a primary requirement, the amount of adjustment in any reseller's maximum price shall not exceed the difference between his supplier's maximum price prior to this Order No. G-1 and such increased price (excluding any delivery differentials) as may lawfully appear hereafter upon his invoice; and, in no event shall it exceed the amount of adjustment authorized in Column 6.

When the manufacturer sells an article at a price no higher than as specified in Column 3, no reseller may increase his existing maximum price with respect to his sale of such article. Moreover, no reseller's maximum price shall be affected by the fact that the manufacturer states separately, on an invoice to such reseller, a delivery charge authorized in Column 5 and adds such charge either to his price appearing in Column 3 or to a higher price up to that stated in Column 4.

3. Except as modified herein, each seller subject to this Order No. G-1 shall maintain his customary terms, conditions of sale, discounts, freight allowances and other price differentials in effect during March 1942, or thereafter properly established under OPA regulations or orders.

(c) *Notification to be given each reseller.* Prior to, or at the time of the first invoice to a purchaser for resale, the manufacturer shall furnish such purchaser with a copy of this Order No. G-1 and accompanying opinion. The manufacturer and each wholesaler, in selling to a retailer covered by this order, shall in any appropriate manner show on the invoice the amount of increase, if any, in the retail maximum price that is applicable thereto by virtue of this order.

(d) *Definitions.* For the purposes of this order.

1. "Wholesaler" means any person who buys commodities covered by this order and who resells them to any person other than an ultimate consumer.

2. "Retailer" means any person who buys commodities covered by this order and who resells them to ultimate consumers.

(e) *Applicability of other orders and regulations.* This order supersedes the General Maximum Price Regulation and any previous order issued by the Office of Price Administration to the extent that prices are established hereby.

(f) *Geographical applicability.* The maximum prices established by this order are applicable to all sales and deliveries of the commodities covered hereby in the 48 states of the United States and in the District of Columbia.

WAR ASSETS ADMINISTRATION.

[Special Order 28]

DISPOSAL OF CHAPELS

As a part of the facilities which the Government during World War II provided for the use of the armed forces and persons engaged in defense work, it caused to be erected or otherwise provided chapels which were devoted to religious activities and services. These were located in various camp sites and other installations, in many cases on land owned by the Government, and in other cases on land held under leasehold or other right of occupancy.

In view of the purposes for which these structures were provided and the desirability of their future maintenance for such purposes, the President of the United States has directed that after such structures have become surplus they shall not be demolished but disposed of as shrines or memorials, or for religious activities to religious organizations having need therefor, on condition that they be maintained and used thereafter for such purposes.

Such structures heretofore have been under the general supervision of the chaplains of the respective services, and it is the President's desire that the Chiefs of Chaplains of such services be recognized in the disposal program.

In view of the specialized type of property involved, and the desires of the President with respect thereto, and pursuant to the authority of the Surplus Property Act of 1944 (58 Stat. 765; 50 U. S. C. App. Sup. 1611), Public Law 181, 79th Congress, 1st Session (59 Stat. 533), Executive Order 9689 (11 F.R. 1265), and Public Law 375, 79th Congress, 2d Session, *It is hereby ordered*, That:

1. *Definition.* "Chapel" means any Government-owned building and improvement on land owned or held under lease or other right of occupancy which was especially designed for and used or intended to be used by the armed forces or persons engaged in defense work for religious activities and services.

2. *Disposition*—(a) *General provisions.* Where a chapel is located on real property which has been declared surplus and assigned to a disposal agency, the disposal agency shall segregate such chapel from the other buildings, or land and buildings, and shall dispose of it intact, separate and apart from the land, for use as a shrine or memorial or for religious purposes. Where, however, it is located on Government-owned land and the disposal agency determines that it may properly be used for such purposes in place and that under all the circumstances it should be disposed of with the land on which it is located, a suitable area of land may be set aside for such purpose and sold with the chapel.

(b) *Reports to Chiefs of Chaplains.* On the first day of the calendar month after the effective date of this order, the disposal agency shall submit to the Chief of Chaplains of each service a list of all surplus chapels of the respective services which have been assigned to such disposal agency. This listing shall include the location of the chapel (the State, the nearest city or town, and the name of the installation), together with a brief description of the chapel. On the first and fifteenth days of each calendar month thereafter, the disposal agency shall report to the respective Chiefs of Chaplains all surplus chapels assigned subsequent to the date of the last report.

(c) *Advertisement.* The disposal agency shall avail itself of all suitable means to give wide publicity to the availability of chapels for disposition. Such publicity shall be by public advertising and may include press releases, display advertisements, or other appropriate notice. Public advertising shall consist of a sale notice published in a newspaper having general circulation in the county where the property is located, describing the chapel and its location, designating the place where applications may be filed, and containing the following additional information which shall apply to the disposal:

(1) That first consideration shall be given to its sale for use as a shrine or memorial, and second consideration to its sale for use for religious purposes, and that the use after disposal shall be restricted to such purpose.

(2) That all applications will be submitted to the appropriate Chief of Chaplains who, with the advice of representative church groups, will recommend the person or organization to whom disposal shall be made.

(3) That (i) the chapel will be sold intact for removal from the land on which it is located, or (ii) where it is located on Government-owned land, the chapel will be sold either with the land on which it is located, or for removal intact from the land; and bids may be submitted on either basis.

(4) That the sale price of the chapel will be a price equal to its fair value in the light of the conditions imposed relating to its future use and the estimated cost of removal where required; and that the sale price of the land will be a price equal to the fair value of the land.

(5) That applications shall include the name, address, and general description of the prospective purchaser, and an agreement to use the property for the purposes for which it is sold.

(6) That applications shall be filed within ten (10) days following the date of first publication of notice, with both the first and last dates of the ten-day period specified.

Notice of availability shall be published one or more times during the ten-day period specified in the advertisement.

3. *Applications to purchase*—(a) *Priorities.* The disposal of chapels, either with or without the land on which they are situated, shall be processed under the provisions of Surplus Property Administration Revised Regulation 5 (11 F. R. 2644, 3301, 4096), subject to applicable priorities therein provided. Applications by priority holders shall claim their priority rights, and in all other respects shall conform to the provisions for applications by nonpriority persons.

(b) *Persons having no priority.* Applications from nonpriority holders to acquire chapels shall be submitted within the period and in compliance with the provisions specified in the advertisement: *Provided, however*, That if no applications are received within such period, applications later submitted may be considered.

(c) *Submission to Chiefs of Chaplains.* As soon as practicable following the expiration of the advertising period, all priority and nonpriority applications shall be assembled and forwarded, together with a copy of the advertisement and a letter of transmittal, to the Chief of Chaplains of the applicable service. A copy of the transmittal letter to the Chief of Chaplains shall be transmitted to the War Assets Administration, Office of Real Property Disposal, Washington 25, D. C.

4. *Designation of purchaser.* Within thirty (30) days following the receipt of the applications submitted to the Chief of Chaplains pursuant to an advertisement, the Chief of Chaplains, after considering and giving effect to any established priorities, will notify the disposal agency as to the recommended purchaser for the chapel. If the notification in any case is not received by the disposal agency within a reasonable time after the expiration of such thirty-day period, the disposal agency shall check (through the War Assets Administration, Office of Real Property Disposal) with the Chief of Chaplains to ascertain whether a recommendation will be made. In the event the Chief of Chaplains does not issue a recommendation within a reasonable time thereafter, the disposal agency shall select the purchaser on the basis of the need of the applicant and the best interest of the community to be served. If the Chief of Chaplains submits a recommendation, the chapel shall be disposed of to the applicant recommended, if such recommendation is not deemed to be contrary to the objectives of the act.

5. *Fixtures, furnishings and personal property.* In disposing of any chapel hereunder, the disposal agency may for fair value likewise dispose of any surplus fixtures, furnishings, or personal property therein which the owning agencies may not need for the armed forces, and which the disposal agency determines are inherently related or essential to the uses and purposes for which the chapel is to be maintained and used.

6. *Conditions imposed.* All chapels shall be disposed of subject to the condition that the buildings be thereafter maintained as shrines or memorials or used for religious purposes, and not for any commercial, industrial, or other secular use; and the notices of availability shall so disclose, and the deeds of conveyance shall so provide.

7. *Notice to Chief of Chaplains.* Upon consummation of a disposal, the disposal agency shall notify the Chief of Chaplains of the applicable service and shall forward to the War Assets Administration, Office of Real Property Disposal, a copy of such notice.

NOTE: All reporting requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall become effective June 26, 1946.

Administrator.
